Project Development Objectives

Project Development Objective (from Project Appraisal Document)

The PDOs are : (i) to strengthen national and regional cross-sectoral capacity for collaborative disease surveillance and epidemic preparedness in West Africa; and (ii) in the event of an Eligible Emergency, to provide immediate and effective response to said Eligible Emergency.

Has the Project Development Objective been changed since Board Approval of the Project Objective?

No

Implementation Status and Key Decisions

The Regional Disease Surveillance Systems Enhancement (REDISSE) Project, Phase III was approved on May 7, 2018, and has been under implementation since October 2018. Overall, the project has progressed well, and most development objective indicators have been achieved. Significant efforts have been made by most REDISSE III countries to achieve score-4 (Established capacity) for the following PDO indicators: Mali, Mauritania & Niger (PDOI-1- Laboratory testing capacity) and (PDOI-2 - Progress in establishing indicator and event-based surveillance systems); all four countries (PDOI-3 - Availability of human resources to implement IHR core capacity requirements); Niger (PDOI-4: A

multi-hazard plan for preparedness and response designed and implemented); Mauritania (PDOI-5 - Progress on cross-border collaboration and exchange of information across countries); and Niger (PDOI-6- Progress towards establishing an active, functional regional One Health platform).

The project has also been at the forefront responding to the COVID-19 pandemic by direct implementation of COVID-19 related activities in the REDISSE countries. The project reallocated part of its funds to support surveillance, strengthen laboratory capacities, rehabilitation of a center for case management, and the acquisition of supplies and equipment for basic health services. The REDISSE countries have endeavored to accelerate and completed implementation by prioritizing activities that helped achieve the objective of the project. REDISSE Mauritania was closed, as scheduled on March 31, 2024 while Benin, Mali and Niger are expected to close on June 30, 2024.
