Uganda Investing in Forests and Protected Areas for Climate-Smart Development Project (P170466)

AFRICA EAST | Uganda | Environment, Natural Resources & the Blue Economy Global Practice | IBRD/IDA | Investment Project Financing | FY 2020 | Seq No: 4 | ARCHIVED on 29-Apr-2022 | ISR50627 |

Implementing Agencies: Ministry of Water and Environment, Republic of Uganda, Uganda Wildlife Authority, National Forestry Authority

#### **Key Dates**

#### **Key Project Dates**

Bank Approval Date: 23-Apr-2020 Effectiveness Date: 18-Aug-2021
Planned Mid Term Review Date: 01-Jul-2024 Actual Mid-Term Review Date:
Original Closing Date: 30-Jun-2026 Revised Closing Date: 30-Jun-2026

#### **Project Development Objectives**

Project Development Objective (from Project Appraisal Document)

To improve sustainable management of forests and protected areas and increase benefits to communities from forests in target landscapes

Has the Project Development Objective been changed since Board Approval of the Project Objective?

No

### Components Table

#### Name

Public Disclosure Authorized

- Component 1. Improved Management of Protected Areas:(Cost \$46.70 M)
- Component 2. Increased Revenues and Jobs from Forests and Wildlife Protected Areas: (Cost \$38.50 M)
- Component 3. Improved Landscape Management in Refugee Hosting Areas:(Cost \$58.00 M)
- Component 4. Project Management and Monitoring:(Cost \$5.00 M)

Overall Risk Rating	□Substantial	Substantial

# Implementation Status and Key Decisions

The Uganda Investing in Forests and Protected Areas for Climate-Smart Development (IFPA-CD) Project was launched in March 2022. Various preparatory and procurement activities are ongoing, and stakeholder engagements are being undertaken routinely.

Consultations with beneficiary communities are an ongoing process being undertaken by the Uganda Wildife Authority and the National Forestry Authority on the ground for planning project activities within their specific localities. UWA Community Conservation Wardens continually engage with neighboring communities and undertake project-related community meetings.

At the national level, the Project Coordination Unit at the Ministry of Water and Environment has also been organizing specific consultation sessions with national civil society organizations (CSO) on a regular basis, including members of the Environment and Natural Resources Civil Society

4/29/2022 Page 1 of 11

Organizations (ENR-CSO) Network. The Project Steering Committee now also includes a CSO representative nominated by the ENR-CSO Network.

	readily quantified e and tree nurseries	This indicator will measure temporary and permanent jobs created directly through the project that can be readily quantified ex ante. The end of project target includes 270 jobs (created in wood processing hubs and tree nurseries) and 9,225 temporary jobs (in tree planting). It is expected that other jobs will be created by the project, both permanent (in community ecotourism facilities) and temporary (under contracts of technical service providers) but these are difficult to quantify before activities start. The proje team will report on such jobs created through regular project reporting. This indicator measures the transformative capacity of resilience as an outcome of increased incomes.

## **Overall Comments**

As project activities have not fully started on the ground, most values are the same as the baseline values. The METT will be next assessed at the mid-term review point. The values for the "people consulted" are tentative, pending confirmation through project records.

## **Overall Comments**

As project activities have not fully started on the ground, most values are the same as the baseline values. The indicator for proportion of UWA staff housed on site will be measured at project mid-term review.
