### Implementation Status and Key Decisions

The progress towards achieving the project development objective (PDO) and implementation progress (IP) of project is rated Moderately Satisfactory. The implementation of activities under Component D has experienced significant delays due to impacts caused by COVID-19 and capacity constraints of the distribution network. Per Government request in June 2021, the project was restructured to reallocate remaining funding

2/19/2022 Page 1 of 11 in Component D to support new activities to enhance the achievement towards the project development objectives. The project implementation is now progressing well toward achieving its objective during extended implementation period of 24 months from December 31, 2021 to December 31, 2023.
