Program Development Objectives

Program Development Objective (from Program Appraisal Document)

The Program Development Objective (PDO) is to increase the investment capacity of the Municipality of Casablanca, improve the business environment in the Municipality of Casablanca, and enhance access to basic services in the Program Area.

Overall Ratings

| Name | Previous Rating | Current Rating |
|--------------------------------------|-------------------------|-------------------------|
| Progress towards achievement of PDO | Moderately Satisfactory | Moderately Satisfactory |
| Overall Implementation Progress (IP) | Satisfactory | Moderately Satisfactory |

Implementation Status and Key Decisions

A virtual supervision mission was carried out in December 2021. The mission superseded the municipal elections and the appointment of a new municipal council.

Progress towards achieving the PDOs and Program Implementation Progress remain mostly satisfactory.

An envelope of 166,3 million has been disbursed to date (97% of total loan amount), including an advance of EUR 43 million, with significant progress under the different program areas.

Almost all results under the program are expected to be achieved by the end of March 2023, with the exception of DLI 4. The delay in achieving the latter is due to emerging design considerations along with related additional financial resources needed to complete the works. The next implementation support mission is planned for June 2022.
