Secretary's Department

NOTES ON ENVIRONMENTAL ASSESSMENT

In September, 1989, the Bank established specific policies and procedures for environmental assessment and related environmental analyses of IBRD and IDA investment lending operations. Under this environmental assessment process, the type, timing and main issues of environmental analysis to be performed by the borrower are to be confirmed at the time that a given lending operation is initiated into the Bank's prospective lending program and thereafter reported and updated in the Monthly Operational Summary. Accordingly, this report has been expanded as follows.

Project descriptions include, where appropriate, a brief statement on potential adverse as well as positive social or environmental aspects. These aspects are normally reported at the end of the project description and are underlined.

Projects have been assigned one of the following categories based upon the nature, magnitude, and sensitivity of environmental issues:

- Category A - Environmental Assessment is normally required as the project may have adverse and significant environmental impacts.
- Category B - More limited environmental analysis is appropriate, as the project may have specific environmental impacts.
- Category C - Environmental analysis is normally unnecessary.
- Category D - Environmental projects, for which separate Environmental Assessments may not be required as environment, would be a major focus of project preparation.

Finally, the Monthly Operational Summary has been expanded to include a Part B section which includes more detailed information about the environmental assessment process applied to Bank and IDA proposed projects. Part B will be included in the Monthly Operational Summary on a quarterly basis (i.e. issues dated January, April, July and October).

Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
I. AFRICA REGION				
OLA				
Ministry of Energy and Petroleum	About 31.6 (IDA)	Power Sector Rehabilitation - Technical assistance and materials for priority rehabilitation. Primary focus would be on rehabilitation of the power supply and distribution systems. Building on the energy assessment report. <u>Environmental Assessment Category B.</u>	Consultants required for engineering design and supervision.	Pre-appraisal mission tentatively scheduled for April 1991.
Ministry of Finance; Ministry of Planning	About 5.0 (IDA)	(R) Economic Management Technical Assistance - Would support the government's economic adjustment and reform program and related activities including training in economic and project analysis skills. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Appraisal mission in the field.
Ministries of Health and Education	About 30.0 (IDA)	(R) Social Sector Rehabilitation - Rehabilitation and construction of social sectors infrastructure and institutional development; (b) study on sectoral issues in education and health. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project preparation under way.
Ministries of Planning, Transport and Communications and Construction and Province of Luanda	About 25.0 (IDA)	(R) Infrastructure Rehabilitation Engineering - Feasibility and detailed engineering studies for rehabilitation of major transport facilities (highways, ports, railroads) and urban infrastructure of Luanda. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project under preparation. Appraisal mission tentatively scheduled for mid-February 1991.
Planning Office of Province of Benguela	About 40.9 (IDA)	(R) Lobito Benguela Urban Environmental Rehabilitation - Control and reversal of environmental degradation; and rehabilitation and extension of urban services and infrastructure networks in Lobito-Benguela to respond to deferred maintenance plus increased migration to urban centers. <u>Environmental Assessment Category D.</u>	Consultants will be required for supervision.	Project under preparation. Appraisal scheduled for April 1991.

Addresses of Implementing Agencies of new projects are given in Section V of the Summary.

The amount is in millions of US dollars and is approximate and tentative. SAF is the acronym for the Special Facility of Sub-Saharan Africa.

The letter (N) before projects means that the project is a new listing in the summary; the letter (R) means the information about the project has been revised since the last issue.

This column contains available information, if any about action with respect to the procurement of goods and services expected to be financed by the Bank or IDA, including retroactive financing; expenditures under the IBRD/IDA Project.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>BENIN</u>				
Ministry of National Education	8.0 (IDA)	(N) Education Sector Adjustment - To support Government efforts to carry out major sector policy reform designed to improve and expand basic primary education; the quality and relevance of secondary/higher education; selection and flow of students through the system and strengthen the examination and evaluation system; sector management of financial and human resources; and promote private sector involvement in education. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Project being formally identified.
Agetur & Serhau	10.0 (IDA)	(R) Urban Rehabilitation to Generate Employment (URGE) (formerly Urban) - Core of project will be a labor-based program of public works improving sanitation and living conditions in Cotonou and Porto-Novo to fight against urban under-employment and alleviate poverty. Also includes a reorganization of urban management services and resource mobilization in Cotonou and Porto-Novo. <u>Environmental Assessment Category B.</u>	Need for consulting services determined under Project Preparation Facility and Trust Fund.	Appraisal mission scheduled for mid-August 1991.
Ministere du Developpement Rural et de l'Action Cooperative	10.0 (IDA)	(R) Food Security - To improve the food security of the more vulnerable population groups through simple pilot agricultural commercial land tenure improvement, fisheries and peri-urban activities and working with non-governmental organizations in these activities. <u>Environmental Assessment Category B.</u>	To be determined.	Project placed into Reserve Program. Final reporting to be discontinued.
National Adjustment Commissions	55.0 (IDA)	(R) SAL II - The credit would provide quick-disbursing balance of payments financing to support the deepening and broadening of Benin's Structural Adjustment Program. <u>Environmental Assessment Category C.</u>	Consultant selected for study on legal environment for banking. Consultant will be required for study on competitiveness.	Negotiations tentatively scheduled for mid-August 1991.
Societe Beninoise d'Electricite et d'Eau (SBEE)	15.0 (IDA)	(R) Power Rehabilitation and Extension - Rehabilitation and extension of the Cotonou, Porto-Novo and Abomey/Bohicon area distribution systems; purchase of spares and equipment, technical assistance and training at all levels to improve all aspects of power operations. <u>Environmental Assessment Category B.</u>	Consultants have been selected for both institutional and engineering studies, including environmental aspects.	Appraisal scheduled end-February 1991.
Ministry of Plan	6.0 (IDA)	(R) Pre-Investment - Surveys, reviews and analyses to identify high-priority investment projects including environmental impact where appropriate, and training and studies for financing agencies. <u>Environmental Assessment Category C.</u>	Consultants will be required for project preparation and implementation.	Negotiations tentatively scheduled for April 1991.

Member Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>VIN</u> (cont'd)				
Ministere du Developpement Rural et de Action Operative (ORAC)	15.0 (IDA)	(R) Agricultural Services - Improve the capability of agricultural service agencies in planning, policy formulation and provision of services with emphasis on privatization of some of the services and a substantial reduction of public sector employees. <u>Environmental Assessment Category B.</u>	Consultants will be required for reorganization, financial management, staff selection and training. UNDP/FAO are planning to provide most of these consultants. Further consultants may be needed for research development activities.	Negotiations tentatively scheduled for April 1991.
Ministere du Plan	8.5 (IDA)	(R) Private Sector Adjustment - The objective of the program will be to initiate policy changes and improve financial sector operations to foster growth in the private sector. Total project cost is estimated at US\$20.0 million. <u>Environmental Assessment Category C.</u>	To be determined.	Program has been placed into Reserve Program. Further reporting will be discontinued.
<u>RWANDA</u>				
Office of the President	15.0 (IDA)	(R) Public Works and Employment - The project would finance a program of public works to be carried out by the private sector using labor intensive techniques to create employment. <u>Environmental Assessment Category: To Be Determined.</u>	Consultants will be required for training and for technical assistance to local contractors.	Project under preparation. Appraisal scheduled for March 1991. PPF for \$600,000 granted for project preparation.
Ministere du Plan/Ministere des Finances	80.0 (IDA)	(R) Structural Adjustment - Program will include measures to restructure public expenditures in favor of social sectors, rehabilitation and maintenance, public enterprise reform, private sector deregulation, banking reform and incentives to employment creation. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project under preparation. Appraisal mission tentatively scheduled for February 22, 1991. (Possible co-financing with France, AfDB, Canada, FED)
Ministry of Economic Promotion	30.0 (IDA)	Public Enterprise - The project would include various technical assistance components. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project under preparation.
To be determined	30.2 (IDA)	(R) Agricultural Service II - Follow up to Agricultural Services I, concentrating on crop protection and agricultural education in addition to extension and functional literacy. Total project cost estimated at \$50.0 million. <u>Environmental Assessment Category B.</u>	Consultants will be required (estimated at 200 staffweeks).	Project placed in FY95 lending program. Reporting will be discontinued unless major activities take place.

Member Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing & Action on Procurement
BURKINA FASO (Cont'd)				
Ministere de l'Agriculture et de l'Elevage	28.0 (IDA)	Agricultural SECAL - Policy reforms in the cotton, cereals, livestock and horticulture subsectors, including pricing, restructuring of stabilization mechanisms, marketing regulations and boards. Substantial reforms to improve public sector efficiency and possibly some investments. Total project cost estimated at \$70.0 million. <u>Environmental Assessment Category B.</u>	Consultants will be required (estimated at 200 staffweeks).	Project under preparation. (Possibility of co-financing with CCCE, (France), BMZ, Federal Republic of Germany) ; FED (European Economic Community).
Ministere de l'Equipment/ Ministere des Transports	32.0 (IDA)	(R) Transport SECAL - The Five-Year program will include a rail and aviation component as well as road maintenance and rehabilitation, and road transport facilitation components. Total cost estimated at \$300.0 million. <u>Environmental Assessment Category B.</u>	Consultants have prepared feasibility studies. Findings were presented and discussed during seminar for Ministry personnel in March.	Project pre-appraisal followed Donors meeting in Ouagadougou in October 1990. An IDA advance under the Project Preparation Facility of \$750,000 was approved feasibility studies.
Ministere de l'Education	32.0 (IDA)	(R) Education IV - In support of the Government's sector strategy, the project would: (a) introduce measures to (i) increase budgetary allocations to primary education; (ii) increase efficiency in use of sector resources; and (iii) increase private sector and community participation in educational financing; (b) expand access to and improve the quality of primary education, (c) improve the quality of secondary general and technical education through teacher training design and provision of textbooks and teaching materials; and (d) improve operational procedures, staff quality and equipment for sector management. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Negotiations tentative scheduled for February 1991. (Possibility of co-financing with EEC, FAC, CIDA).
Ministere de l'Agriculture et de l'Elevage	16.0 (IDA)	(R) First Environmental Management - Project will constitute first part of long-term program to improve village land and agricultural resource management throughout the country. Total cost estimated at \$18.4 million. <u>The project is specifically designed to have strongly positive environmental impacts. Environmental Assessment Category D.</u>	Consultants will be required (estimated at 200 staffweeks).	Negotiations scheduled for February 11, 1991. (Possibility of co-financing with NORAD (Norway); CCCE (France); GTZ (Federal Republic Germany); Dutch Cooperation (Netherlands); and DAI (Denmark).
Ministere de la Sante	15.0 (IDA)	Population/Health - Strengthening health sector management, extension of population/family planning/nutrition activities begun under first project. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project to be identified during FY91.

Number Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>RUNDI</u>				
Ministry of Education	43.6 (IDA)	(R) Education Sector V - Continue assisting Government implementation of education reform through financing of slice of PIP. Would also continue effort started in education sector development project to improve education quality and efficiency within sectoral budget. <u>Environmental Assessment Category C.</u>	To be determined	Project preparation under way.
Ministry of Health	About 34.6 (IDA)	(R) Health/Population II (formerly Population, Health and Nutrition) - Sectoral development and continuing support to ongoing priority programs. <u>Environmental Assessment Category C.</u>	To be determined	Project under preparation.
Ministry of Energy and Mines REGIDESO	About 23.0 (IDA)	(R) Energy Sector Rehabilitation - Strengthening of key institutions of the energy sector; execution of a rehabilitation program for REGIDESO and of a rural electrification master plan; feasibility studies for some selected hydropower projects; implementation of pricing reforms in electricity, petroleum and woodfuels; expansion of the distribution network in urban and rural area; doubling of the transmission line Bubanza-Bujumbura; expansion of the improved charcoal stoves program, and charcoal production program, and studies of fuelwood utilization and household energy consumption. <u>Possible positive environmental effects from better efficiency in the utilization of biomass. Environmental Assessment Category B.</u>	Consultants will be required.	Negotiations completed. Board presentation scheduled for March 5, 1991.
Ministry of Finance	About 22.0 (IDA)	Social Action - To be carried out in conjunction with SAL II and SAL III, is designed to address social dimensions of adjustment including specific activities focussing on vulnerable groups, such as women, redeployment, community development, essential drug supply, and nutritional surveillance. A Social Dimensions of Adjustment survey will be implemented. Technical assistance and training will be provided. <u>Environmental Assessment Category C.</u>	Consultancy will be required.	Project under preparation.
Ministry of Rural Development/ REGIDESO	35.4 (IDA)	(R) Water Supply Sector- (formerly Water Supply III) - Rehabilitation or construction of water systems in nine provinces in rural areas and urban centers. <u>Positive environmental effects from better quality of water. Environmental Assessment Category B.</u>	Consulting services for final design selected.	Negotiations tentatively scheduled for March 11, 1991.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing & Action on Procurement
BURUNDI (Cont'd)				
Ministry of Plan; Ministry of Finance	About 98.2 (IDA)	SAL III - Continued support to Government's adjustment program and consolidation of policy reforms undertaken under SAL I and II. Emphasis will be given to agricultural and export promotion reforms. Total project cost estimated at \$95.3 million. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project preparation u way.
CAMEROON				
Ministry of Public Health and Ministry of Plan and Territorial Management	40.0 (Bank)	(N) Health and Population Sector - Focussing on strengthening strategic management framework, financial and human resources management, improving drug and other medical material distribution and strengthening of priority health programs. <u>Environmental Assessment Category: To Be Determined.</u>	Consultants will be required.	Project being formall identified.
Ministry of Agriculture	10.0 (Bank)	Agricultural Research II - Follow up effort emphasizing support to implementation of an agreed national agricultural research program. <u>Environmental Assessment Category: To Be Determined.</u>	Consultants will not be required.	Project under preparation.
Ministry of Travaux Public et des Transport	45.0 (Bank)	(R) Transport Sector - (a) develop policy framework for transport sector, including user charges and tariff policies; (b) strengthen sector investment planning and coordination with donors; (c) implement priority investments based on plan; (d) clarify relationship between Government and main parastatals in the sector; and (e) restructure operations and finances of some parastatals (esp. REGIFERCAM and CAMAIR). <u>Environmental Assessment Category C.</u>	To be determined.	Preliminary work unde way.
Ministry of Agriculture, Commerce Plan	30.0 (Bank)	(R) Private Export Crops (formerly Export Promotion and Diversification) - To support policy adjustment, investments and institutions for export promotion of existing exports and non-traditional exports. <u>Environmental Assessment Category B.</u>	Consultants have been selected.	Project placed into Reserve Program. Furt reporting will be discontinued.
Ministry of Agriculture	40.0 (Bank)	(R) Forestry and Environment - To support sectoral policies and investments for forest management, conservation and environmental protection. <u>Environmental Assessment Category D.</u>	Consultants will not be required.	Project under preparation.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>MEROON</u>				
cont'd)				
Ministry of Agriculture, Commerce and Plan	30.0 (Bank)	(R), Food Security - To support investments, policy and income generating micro projects to improve food security position and locust control in Cameroon. <u>Environmental Assessment Category B.</u>	Consultants have been selected.	Negotiations postponed until March 18.
Ministere de Urbanisme et de Habitat	10.0 (Bank)	(R) Third Urban - To improve urban services, financing mechanism and land resource management, to rehabilitate parastatal housing agencies and improve the urban environment. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Project slipped to FY95. Further reporting to be discontinued.
Ministere des Travaux Publics et des Transports	37.5 (Bank)	(R) Rural Infrastructure - Four year feeder road rehabilitation and maintenance program including institutional strengthening for feeder road management; training program; study of methods to improve rural transport; and study to establish future needs in rural water supply. <u>Environmental Assessment Category B.</u>	Consultants will be required for projects execution.	Negotiations tentatively scheduled for March 1991. (Co-financing being sought).
<u>PE VERDE</u>				
INAPOR) Empresa Nacional de Administración de Puertos	8.0 (IDA)	Transport Sector - Upgrading of port facilities at Porto Grande, Mindelo Island, support development of transshipment and attract foreign investments in port based activities. <u>Environmental Assessment Category: To be determined.</u>	To be determined	Processing of this project is on hold pending results of pre-feasibility studies.
Ministries of Education and Health	9.2 (IDA)	Human Resources - The project would help the government implement its recently adopted export-led economic development policy by assisting in the definition and implementation of the related training and manpower development strategies and programs. Investments to be supported are likely to include: (i) vocational training to meet the demand for technically skilled labor; (ii) management training; and (iii) expansion and enhancement of the quality of secondary education. <u>Environmental Assessment Category C.</u>	Consultant services will be required.	Project being identified.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>CENTRAL AFRICAN REPUBLIC</u>				
Ministry of Primary, Secondary and Technical Education and Ministry of Higher Education	25.0 (IDA)	(N) Education IV - Lending instrument not yet determined. Policy based operation would assist the Government in preparing and implementing education sector reforms to improve the management of human and financial resources, and the quality of education programs. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Identification missi scheduled for March

CONGO, PEOPLES				
REPUBLIC OF THE				
(Cont'd)				
Ministry of Commerce/Ministry of Industry	20.0 (Bank)	Private Sector Development - Project would reinforce the role of the private sector in the economy through: (a) continuation of the liberalization/deregulation of the business environment started under the SAL; (b) implementation of additional policy reforms; and (c) introduction of positive measures to promote private sector activities. <u>Environmental Assessment Category C.</u>	Consultants will be required for project preparation.	Project under preparation. (Co-financing to be identified).
COTE D'IVOIRE				
Ministry of Economy and Finance	120.0 (Bank)	(N) Financial Sector Adjustment - Would provide quick-disbursing balance of payments and budget financing to support financial sector reform which would include restructuring of the banking and insurance sectors and the stock exchange. <u>Environmental Assessment Category: To Be Determined.</u>	Consultants have been selected for study on banking insurance and stock exchange restructuring and on the legal environment for bad debt recovery.	Initiating memorandum under preparation.
Ministere de l'Economie et des Finances	150.0 (Bank)	(N) Regulatory Reform - Reform economic policy production export incentives in order to improve the competitiveness of the industrial sector, together with substantial deregulation to improve business environment, enhancing potential for private sector development and investment, both domestic and foreign. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Being prepared in parallel with industry review.
Ministries of Fonction Publique, Economie et Finance, and Plan et Industrie	20.0 (Bank)	(R) Economic Management Technical Assistance - Providing support for (i) civil service reform; and (ii) institution building within Ministry of Economy & Finance especially with respect to debt management, para-public enterprise reform and privatization. <u>Environmental Assessment Category C.</u>	Consultancy services likely to be required in areas of civil service reform, para-public enterprise reform, privatization, debt restructuring and national statistics.	Preparation under way including preparation of terms of reference for consultants' service. Pre-appraisal mission tentatively scheduled March/April 1991.
Ministere de l'Economie et des Finances PETROCI	75.0 (Bank)	Private Sector Energy - Would allow government to have local gas resources developed by the private sector to reduce dependence on imported energy. Power supply reliability would be improved by replacing steam electric plant with efficient combined cycle plant, under a private sector build-own-operate arrangement. This would lessen the environmental impact of energy consumption by moving away from liquid fuels and biomass to natural gas, and to encourage additional private sector investment in the energy sector. <u>Environmental Assessment Category B.</u>	To be determined.	Project under preparation.

Member Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
COTE D'IVOIRE				
(cont'd)				
Human Resources Interministerial Committee	60.0 (Bank)	(R) Human Resources Adjustment I - To accelerate national development by supporting evolution of a global human resources development policy and improving strategic sector management. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Appraisal mission tentatively scheduled for mid-March 1991.
Ministry of Agriculture and Animal Resources; Ministry of Finance, Commerce and Plan	77.0 (Bank)	(R) Export Promotion and Diversification - The project is aimed at promoting diversified agricultural exports through a line of credit, an export promotion agency, training, studies and technical support. <u>The project would include studies to ensure that export crops are developed in an environmentally sound manner. Environmental Assessment Category B.</u>	To be determined.	Project placed into Reserve Program. Further reporting will be discontinued.
Ministry of Agriculture and Animal Resources; Ministry of Scientific Research, Professional and Technical Education	20.0 (Bank)	(R) Extension/Research - The project would provide the necessary support to reorganize/reinforce the current structure of key agricultural services (research, extension) to ensure the adequate supply and diffusion of alternate technologies and cropping systems to permit increased productivity. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation.
Ministry of Agriculture, and Animal Resources, Ministry of Men's Affairs	10.0 (Bank)	(R) Rural Sector Support - Project would finance specific activities program included in Government's letter on Agricultural Development Policy underlying Agricultural Sector Adjustment Loan: (a) studies (agricultural parastatal rehabilitation, pricing, divestiture, agricultural education); and (b) rural savings and loans associations, annual programs to strengthen rural/urban linkages. <u>Environmental Assessment: To be determined.</u>	To be determined.	Project placed into Reserve Program. Further reporting will be discontinued.
Ministry of Agriculture and Animal Resources	20.0 (Bank)	(R) Young Farmers - First phase of a national program to settle young rural adults in productive activities in rural areas. Project would put emphasis on improved access to land and agricultural services (extension, credit, inputs). <u>Environmental Assessment Category B.</u>	To be determined.	Project has been dropped from lending program. Further reporting will be discontinued.
Ministry of Public Works; and Ministry of Marine Navigation et Contrôle des Travaux	100.0 (Bank)	Transport Sector - Efficiency improvement of: (a) transport facilities (ports, airports, road network, railways); and (b) trade logistic services (trucking, shipping, storage system, cargo management services), aimed at improving Cote d'Ivoire's international competitiveness and reducing internal transport costs. <u>Environmental Assessment Category B.</u>	Consultants would be required to review different aspects of the transport sector and, in particular, the trade logistic subsector.	Project under preparation.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Process Action on Procurement
<u>COTE D'IVOIRE</u> (Cont'd)				
Office National des Tele- communications Office National des Postes	60.0 (Bank)	Third Telecommunications - The project would support: (a) the implementation of reform measures regarding sector restructuring and institution building of ONT; (b) expand geographic coverage and extend digital services to meet unsatisfied demand and to improve service quality; and (c) improve the efficiency of the postal sector and its operating entity ONP. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparatio way.
<u>DJIBOUTI</u>				
Ministere des Travaux Publics	About 10.0 (IDA)	Transport Rehabilitation - Maintenance and rehabilitation of road networks, reform of transport parastatals. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparatio awaiting for govern official request.
Bureau Projet Urbain; (Project Management Unit)	About 11.2 (IDA)	Second Urban Development - Will rehabilitate old wards, provide serviced plots in Balbala and Salines Ouest; Strengthen policy framework and urban institutions and improve the urban environment and the living conditions of the urban poor. <u>Environmental Assessment Category B.</u>	Consultants will be required for implementation.	Approved by the Exe Directors on Janua 1991.
<u>EQUATORIAL GUINEA</u>				
Ministry of Agriculture, Livestock, Fisheries and Forestry	6.3 (IDA)	(R) Export Crops and Agricultural Services - The project would support the activities of the Ministry of Agriculture related to the strategy for the foodcrops subsector with the objective of guaranteeing domestic food security and giving substantial boost to the diversification of agricultural exports to neighboring countries. The project would provide support for: (a) the production of food and cash crops; (b) marketing and export of foodcrops and cash crops; and (c) strengthening of extension and research services. <u>Program of control of cocoa black pod would aim at reducing the use of copper sulphate.</u> <u>Environmental Assessment Category B.</u>	Selection of consulting firm for project implementation under way.	Approved by the Exe Directors on Octobe 1990. Credit was s on October 21, 1990
Ministry of Health	4.3 (IDA)	Health Improvement - To assist Government to improve sector performance through improved management, policy reforms and rehabilitation. Rehabilitate basic health infrastructure and services. Formulate a primary health care strategy and an essential drug policy. <u>Project also includes activity related to environmental clean-up for malaria vector control.</u> <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project under preparation. Techn preparation of proj completed. Formal appraisal tentative scheduled for March

Donor Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>ETHIOPIA</u>				
Ministry of Agriculture	30.0 (IDA)	(R) Highland Water Conservation (formerly Agriculture Conservation) - Soil and water conservation support measures for environmental protection and enhanced productivity in the Highlands. Would comprise civil works, vehicles, equipment, technical assistance and training. <u>Environmental Assessment Category D.</u>	Consultants will be required.	Project under preparation.
Ministry of Agriculture	About 35.0 (IDA)	Livestock Conservation - Consolidation and extension of ongoing Fourth Livestock Development Project plus addition of sub-components, i.e. dairy. <u>Environmental Assessment Category A.</u>	Consulting services will be required.	Provision is made under Fourth Livestock Project for project preparation by borrower.
Ministry of Transport and Communications	45.0 (IDA)	Roads Rehabilitation - The project would comprise: (a) civil works - (i) rehabilitation of 198.5 km of the Assab-Mille road; (ii) rehabilitation/ resealing of 279 km of the Awash-Mille road; (iii) rehabilitation/resealing of 216 km of the Awash-Addis road; (b) technical assistance - (i) construction supervision; consultancy services and training; and (c) local level transport - (i) equipment, raw materials, training and pilot phase running cost. Project totals US\$110.0 million with a foreign component of US\$89.0 million. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Appraisal report under preparation.
Ministry of Agriculture	About 55.0 (IDA)	(R) Agriculture Services - Extension services, rural technology, cooperative development, and administrative improvements. <u>Environmental Assessment Category C.</u>	To be determined.	Project has been placed into Reserve Program. Further reporting will be discontinued.
Ministry of Agriculture	About 55.0 (IDA)	Peasant Agriculture Development Program II (PADEP II) - Improving productivity in the peasant sector. Components include improvements in marketing (lines of credit, institution strengthening); technology (improved seeds, rural workshops); and Ministry of Agriculture operations (extension, cooperatives, field trials). <u>Environmental Assessment Category B.</u>	To be determined.	Project under preparation.
Ministry of Finance, Office of the Committee on High Economic Growth, Office of National Economic Committee on Central Planning	25.0 (IDA)	(R) Institutional Development - Technical assistance, studies, consultancy services, training and computerization support to core economic management agencies. <u>Environmental Assessment Category C.</u>	Consulting services will be required.	Project has been placed into Reserve Program. Further reporting will be discontinued.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>ETHIOPIA</u> (Cont'd)				
Ministry of Coffee and Tea Development	60.0 (IDA)	Peasant Coffee Development - The project would strengthen government support services for food and coffee production in the major coffee producing areas. Support would also be given to expanding washed coffee primary processing factories, rehabilitating coffee hulleries and improving export processing facilities. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Project appraised but still being processed
To be determined	30.0 (IDA)	Population I - To launch implementation of Government population policy and strategy. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation.
Ministry of Mining and Energy	About 30.0 (IDA)	(R) Small-Scale Gas Utilization (formerly Mining and Energy) - To supply LPG, gasoline and gasoil for domestic and commercial use. To finance technical assistance covering monitoring, supervision and quality control and a feasibility study of a large-scale gas project. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Project has been placed into Reserve Program. Further reporting will be discontinued.
<u>GABON</u>				
Ministry of Fisheries & Forestry, Ministry of Environment, Tourism and National Parks	30.0 (Bank)	(N) Forestry/Environment - (a) better use of forestry resources through implementation of management plan in First Zone of forest area; (b) reinforce strategic planning, operational capability of Government institutions in the sector; (c) resume forestry and environment research; (d) make forestry and environment training more practical and relevant to needs of private sector; (e) prepare an environmental action plan; and (f) support Government in the creation and maintenance of wildlife reserves. <u>Environmental Assessment Category: To Be Determined.</u>	Consultants will be required.	Project being prepared. Pre-appraisal mission tentatively scheduled for June 1991.
Ministry of Plan and Economic Development	50.0 (Bank)	(R) SAL II - Support for government's Structural Adjustment Program to consolidate fiscal discipline and policy reform begun under SAL I. Major components include: (a) reduction of Gabon's wage and cost structure; (b) continuation of public enterprise reform; (c) improvements in public finance management; (d) SDA type measures. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project has been placed into Reserve Program. Further reporting will be discontinued.

Lending Agency	Amount & Probable Lender	Project	Consulting Services	Stage of Processing and Action on Procurement
GAMBIA				
Ministry of Agriculture	8.0 (IDA)	Agricultural Services - Further development of research, extension and possibly credit services nationwide. Total project cost estimated at \$20.0 million. <u>A Natural Resource Management component will address the issue of deteriorating soil fertility throughout the country. Environmental Assessment Category C.</u>	Consultants will be required (estimated at 100 staff weeks).	Project under preparation.
GHANA				
Ministry of Roads and Highways Department of Road Works	50.0 (IDA)	(N) Feeder Roads - To support production in rural areas through programs of basic infrastructure mainly rehabilitation of existing rural road network; institutional support to improve the financial and technical capabilities of local institutions will be a key feature. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparation under way.
Bank of Ghana	100.0 (IDA)	Financial Sector Adjustment III - Strengthening and diversifying the financial sector. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Appraisal scheduled for March 1991.
To be determined	41.0 (IDA)	Livestock Services - To strengthen livestock and fisheries sectors through support to research, input supply and marketing, increase community participation. <u>Environmental Assessment Category A.</u>	To be determined.	Pre-appraisal mission scheduled for April 22, 1991.
Ministry of Agriculture	25.0 (IDA)	(R) Agricultural Extension - Strengthen the agriculture extension system through improved extension; programming and supervision, strengthen extension research linkages. <u>Environmental Assessment Category B.</u>	Consultant will be required (estimated at five staffweeks).	Appraisal mission scheduled for May 1991.
Ministry of Finance and Economic Planning	120.0 (IDA)	(R) Structural Adjustment Credit III - Strengthening and deepening of macroeconomic reforms. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal report under preparation. Negotiations tentatively scheduled for March 1991.
Council for Scientific & Industrial Research; Ministry of Agriculture	25.0 (IDA)	Agricultural Research - Develop management and coordination of national agricultural system and support research programs through manpower development improved research facilities. <u>Environmental Assessment Category C.</u>	Consultants will be required for project implementation.	Appraisal mission completed. Negotiations tentatively scheduled for April 1991.
Ministry of Finance and Economic Planning	15.0 (IDA)	(R) Economic Management Support Project (formerly SAIS II) - Support for improvements in the analytical and administrative capacity in the core economic management agencies. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Negotiations completed. Board presentation scheduled for March 28.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
GHANA (Cont'd)				
Ministry of Education	40.0 (IDA)	(R) Adult Education/Literacy Skills - Project would consolidate infrastructure developed under Program of Action to mitigate the social costs of adjustment and strengthen regional and district capabilities in order to support a massive functional literacy campaign by providing technical assistance, teaching equipment, and training. <u>Environmental Assessment Category C.</u>	To be determined.	Pre-appraisal mission in the field.
Ministry of Finance and Economic Planning	96.0 (IDA)	Transport Rehabilitation II - To sustain and help consolidate the momentum of economic recovery by removing physical bottlenecks to expand export, farm production and factor mobility through rehabilitation and maintenance of transport infrastructure. <u>Environmental Assessment Category B.</u>	Consultants' services will be required for studies and project supervision.	Approved by the Executive Directors on December 1990.
Ministry of Works and Housing; Ministry of Roads and Highways	70.0 (IDA)	Urban II - Project would cover urban infrastructure rehabilitation and maintenance, property revaluation, local government financial institutional reform and housing sector reform, and support to the <u>Environmental Protection Council</u> . <u>Environmental Assessment Category B.</u>	Consultants will be required for preparation of designs and construction supervision.	Approved by the Executive Directors on June 14, 1990.
Ministry of Agriculture	60.0 (IDA)	(R) Agricultural Sector Adjustment - To strengthen pricing and trade reforms already under way. This policy based lending will support further reforms and investments necessary to accelerate agricultural growth. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal mission in field.
GUINEA				
Ministry of Public Health and Population	55.2 (IDA)	(N) Health II - Policy-based operation focussing on strengthening investment and recurrent budget planning, human resources management, renovating depleted infrastructure and strengthening priority health programs. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Project preparation has not yet started.

To be determined	15.0 (IDA)	(R) Public Enterprise Management - Credit to support the Government's public enterprise reform program aimed at a more efficient and effectively managed public enterprise sector. <u>Environmental Assessment C.</u>	Consultants will be required for preparation and implementation.	Project under preparation.

Donor Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>NEA</u> cont'd)				
To be determined	45.2 (IDA)	(R) Transport and Urban Infrastructure - (i) Priority urban infrastructure investments in Conakry and secondary cities; (ii) a tranche of additional road upgrading as defined in the long-term road development plan; (iii) priority investments of transport parastatals, including fishing port in Conakry; and (iv) improving urban management and environment, including road safety and traffic management. <u>Environmental Assessment Category B.</u>	To be determined.	Preliminary work under way.
Ministry of Agriculture and Animal Resources (ARA)	32.8 (IDA)	(R) Agricultural Export Promotion (formerly Export Crops) - To support strengthening of incentives, public/private sector collaboration, and streamlining of regulations. Project would include provision of technical assistance and training, upgrading/expanded key export infrastructure, and credit facilities to small farmers. <u>Environmental Assessment Category B.</u>	To be determined	Pre-appraisal mission scheduled for March 1991.
ENELGUI	50.0 (IDA)	(R) Power II - Project would seek to: provide power utility infrastructure for industrial and commercial activity in the main development zone (Conakry/Kindia region); technical assistance to ENELGUI management. <u>Environmental Assessment Category A.</u>	Consultants are required for: (i) engineering and project management; (ii) distribution feasibility study; (iii) engineering of thermal plant; and technical assistance to ENELGUI.	Project preparation under way.
Secretariat of State for Telecommunications	15.1 (IDA)	(R) Telecommunications - Reorganization of post and telecommunications sector. Program for strengthening new entity to manage and operate the sector, program for rehabilitation of local (Conakry) and trunk network, vehicles and miscellaneous equipment. <u>Environmental Assessment Category B.</u>	Consultants will be required for design of new institutional framework and formulation of sector investment program. Selection of consultants under way.	Project placed into Reserve Program. Further reporting will be discontinued.
<u>INEA-BISSAU</u>				
Ministry of Economy and Finance	31.8 (IDA)	SAC III - Further policy reforms being taken under SAL I and SAL II. <u>Environmental Assessment Category C.</u>	To be determined.	Preparation under way.
Ministries of Education, Health and Women's Affairs	13.5 (IDA)	Health/Education II - To further rehabilitation of education and health facilities; provide inputs, information, education and communications to improve health hygiene and adult literacy; training; income generating activities for women. <u>Environmental Assessment Category C.</u>	Consultants will be required for sector work and project preparation.	Sector report under preparation.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing & Action on Procurement
<u>GUINEA-BISSAU</u> (Cont'd)				
Ministry of Natural Resources and Industry (MNRI)	20.0 (IDA)	Energy - To assist in the rehabilitation and modernization of the energy sector, which includes electricity, petroleum products storage/distribution and energy planning components. <u>Environmental Assessment Category B.</u>	Consultants services will be required for project management and technical assistance.	Negotiations tentatively scheduled for March 1991. A Project Preparation Facility advance of \$350,000 has been approved.
Ministry of Rural Development and Fisheries	8.5 (IDA)	Agricultural Sector Development - To support credit, fisheries, food production and export, and livestock to establish public agricultural services such as extension, research and marketing. <u>Environmental Assessment Category B.</u>	Consultants will be required for project implementation.	Second pre-appraisal scheduled for October 1991.
<u>KENYA</u>				
Ministry of Education	About 20.0 (IDA)	(N) Universities - Program of assistance to Kenya's four public universities for: (a) enhancing quality; (b) institution building; and (c) strengthening student loan scheme. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Project preparation underway.
Ministry of Tourism and Wildlife	About 60.0 (IDA)	Support for Wildlife Management - The project would support improvements to wildlife park management and infrastructure, and develop sustainable economic opportunities for people living in and around parks. <u>Environmental Assessment Category D.</u>	To be determined.	Project preparation underway.
Kenya Power and Lighting Company (KPLC)	About 75.0 (IDA)	Energy Sector - To finance a time slice of investment in the power and petroleum subsectors in conjunction with energy sector policy reform. <u>Kenyan Power is being encouraged to carry out, through consultants, an environmental assessment of existing and proposed geothermal schemes prior to appraisal. Proposals already received. Environmental Assessment Category A.</u>	Consulting services will be required.	Project under preparation.
Ministry of Agriculture	About 75.0 (IDA)	Agricultural Sector Adjustment II - Continue support for sectoral reform. <u>Environmental Assessment Category C.</u>	To be determined.	Approved by the Executive Directors on January 17, 1991.
Ministry of Finance	About 80.0 (IDA)	(R) Parastatal Reform I - Assist in policy reforms and financial/organizational restructuring of selected parastatal enterprises and foster export expansion. <u>Environmental Assessment Category B.</u>	A consultant has been appointed and another one is in the process of being appointed.	Project has slipped to FY94. Further reporting will be discontinued.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
NYA (cont'd)				
Ministry of Finance	About 100.0 (IDA)	(R) Export Development - To assist the Kenya Government in implementing an export strategy. The project would also support infrastructure, policy and institutional development for an export processing zone, and technical studies on individual sub-sectors. <u>Environmental studies completed.</u> <u>Environmental Assessment Category B.</u>	Consultants have been recruited for export processing zone components, including environmental studies.	Approved by the Executive Directors on December 20, 1990. A Special Project Preparation Facility advance of \$200,000 has been approved and a Project Preparation Facility advance of \$625,000 has been approved. Supplements of \$224,000 have recently been approved. (Co-financing is expected).
Ministry of Health	About 25.0 (IDA)	(R) Health Rehabilitation - Rehabilitation and reform of the Kenyatta National Hospital in the context of the introduction of cost-sharing in the sector. Preparation of future sectoral reform. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Negotiations tentatively scheduled for February 19, 1991.
Ministries of Agriculture and Livestock Development	About 25.0 (IDA)	Agricultural National Extension II - Follow-up project to the National Extension Project now under implementation. <u>Environmental Assessment Category C.</u>	To be determined.	Approved by the Executive Directors on December 20, 1990.
Ministry of Environment and Natural Resources	About 19.9 (IDA)	Forestry Development (formerly Forestry IV) - Support for development of the forestry sector (fuelwood/agro-forestry, timber, natural forest conservation, institutional strengthening). <u>Project is focused on improving forest resource management, but will also include environmental assessment of selected components.</u> <u>Environmental Assessment Category D.</u>	To be determined.	Approved by the Executive Directors on December 20, 1990.
Ministry of Health	About 70.0 (IDA)	Health and Nutrition Sector Adjustment (formerly Health Adjustment) - Support widespread sectoral reform. <u>Environmental Assessment Category C.</u>	Consultants will be required and are likely to be financed under the Health Rehabilitation Project.	Project preparation under way.
Ministry of Education	About 70.0 (IDA)	Education Sector Adjustment Program - Support a sector-wide program of reform to develop a viable alternative for financing education through improved efficiency, more cost-effective resource use and public-private cost sharing while improving equity in access to and quality of education. <u>Environmental Assessment Category C.</u>	To be determined.	Preliminary preparatory work under way following report on education.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>LESOTHO</u>				
Ministry of Education	About 22.0 (IDA)	(R) Education Sector - Support policies and programs to improve educational quality at primary level, strengthen science and math teaching at all levels, and improve sector planning and management. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal mission scheduled for March/April 1991. A Project Preparation Facility advance has been approved.
Ministry of Industry and Trade	21.0 (IDA)	Industry/Agro-Industry - Technical assistance for strategic development of industrial/agro-industrial sector and financial intermediaries; apex line of credit to eligible financial intermediaries. <u>Environmental Assessment Category B.</u>	To be determined.	Approved by the Executive Directors on December 1990.
Lesotho Highlands Development Authority	About 110.0 (Bank)	Lesotho Highlands Water Construction I - Construction of concrete dam, water transfer tunnel and associated works for sale of water to South Africa. <u>Involves limited involuntary resettlement. Environmental compensation and rural development program has been prepared following full environmental assessment by the implementing agency. Environmental Assessment Category A.</u>	Consultants have been appointed for technical assistance, engineering design, funding arrangements, and environmental assessment; further consultancy services will be required to assist in preparation and evaluation of contracts during construction period.	Negotiations tentatively scheduled for mid-April 1991. (Co-financing discussions are well advanced).
<u>MADAGASCAR</u>				
Ministry of Livestock	About 25.0 (IDA)	(R) Livestock - Promote intensive livestock production (dairy and smallstock) and support the improvement of the efficiency of traditional production systems. The project would increase the role of the private sector in the provision of services to the livestock sector, and improve the quality and cost-effectiveness of livestock services provided by MPAEF. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Appraisal report under preparation. PPF advance of \$400,000 has been approved.
Ministry of Industry, Energy and Mines/SOLIMA	About 30.0 (IDA)	Petroleum Sector Reform - Will include reform of the petroleum pricing and taxation system, new policies to increase efficiency in petroleum supply and distribution, rehabilitation and improvement of the refinery, investments in petroleum transport and distribution and institutional strengthening of MIEM and SOLIMA. <u>Since the project will upgrade existing facilities, environmental effects are limited. Environmental Assessment Category B.</u>	Consultants will be required.	Project under preparation. A PPF advance has been approved.
Ministere des Transports, de Meteorologie et de Tourisme	About 70.0 (IDA)	Transport Sector - To improve infrastructure for coastal shipping, air and rail transport. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Project being identified.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>MADAGASCAR</u>				
(cont'd)				
Ministry of Education; Ministry of Civil Service and Labor	About 22.5 (IDA)	Vocational Technical Education - Develop vocational training and technical education, including establishment of coordination structure and training funds; support for training school for senior civil servants. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal report under preparation.
Ministry of Agriculture	About 11.5 (IDA)	(R) Food Security and Nutrition - 1) Address short and medium-term problems of rural and urban food insecurity; 2) Support child nutrition programs; 3) Support nutrition education and other programs to improve micro- nutrient intake; 4) Support research and monitoring of nutrition issues; 5) Begin to address the intra-household resource allocation issues. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation.
Ministry of Health	About 31.6 (IDA)	National Health Sector (formerly First Health) - 1) Support priority health programs for endemic disease control and provision of maternal and child health care, including family planning. 2) Develop MOH's institutional capacity to (a) strengthen organization and management of health service delivery at central and provincial levels; (b) strengthen policy formulation and planning/budgeting monitoring capacity. <u>Environmental Assessment Category C.</u>	Consultants will be required for studies and to support institutional development objectives.	Appraisal report under preparation. A PPF advance of US\$400,000 to finance preparation studies was approved in December 1989.
Central Bank of Madagascar	About 128.0 (IDA)	Incentive and Export Promotion - To consolidate the reforms undertaken so far and to support the next stages in the reform of the incentive system in support of private investment and exports. <u>Environmental Assessment Category C.</u>	Consultants likely to be required.	Project under preparation.
Ministry of Finance	About 95.0 (IDA)	(R) Public Sector Adjustment Credit II (PSAC II) (formerly SAL I) - The operation would address public expenditure issues including public enterprise and consolidate the adjustment efforts to date. Total project cost estimated at US\$165.8 million. <u>Environmental Assessment Category C.</u>	Consultants likely to be required.	Project under preparation.
Force Militaire Nationale des Industries Categoriees (MNIS)	About 64.2 (IDA)	Ilmenite Mining - Mining and export of titanium dioxide and other mineral sands on Madagascar's East Coast. Total cost of project to be determined. <u>A comprehensive environmental assessment is under way. The environmental assessment will help determine detailed project design. Environmental Assessment Category A.</u>	Consultants have been contracted for technical assistance to OMNIS.	Project under preparation. (Co-financing being explored).

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
MADAGASCAR				
(Cont'd)				
Ministry of Industry, Energy and Mines	About 50.0 (IDA)	Energy II - The project will consist of power generation (Ambodiroka hydroplant) transmission and distribution, based on a least-cost power master plan; dissemination of the improved carbonization techniques developed at the Haut Mangoro Fanalamanga's plantation; industrial energy efficiency projects; and continuity for technical assistance for energy and power systems planning. Total project cost estimated at \$80.0 million. <u>The engineering studies for the Ambodiroka power plant, which are being undertaken at this time, include a detailed environmental assessment. The dissemination of improved carbonization techniques will have positive environmental effects.</u> <u>Environmental Assessment Category A.</u>	Consultants have been appointed for preliminary environmental studies relating to Ambodiroka.	Project preparation to be handled under the Energy I project, which is presently under supervision.
MALAWI				
Electricity Supply Commission; Ministry of Forestry and Natural Resources	60.0 (IDA)	Energy II - Will provide for expansion and rehabilitation of power generation, transmission and distribution and provide support to energy policy initiatives and petroleum supply. <u>Power component is not expected to have a major environmental impact. Policy initiative components (e.g. wood energy conservation) would have a positive impact.</u> <u>Environmental Assessment Category A.</u>	To be determined.	Project under preparation. (Co-financing will be required).
Ministry of Local Government	20.0 (IDA)	(R) Local Government Development - Central objective will be strengthening of local government to finance essential services and manage traditional housing area programs on a self-sustaining basis. <u>Some elements such as rehabilitation of sewerage treatment and solid waste services will have positive effects on sanitation.</u> <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal mission scheduled for end April (Co-financing will be required).
Ministry of Agriculture	40.0 (IDA)	Agricultural Services - Will continue support for strengthening smallholder services on a national level and build on current programs to improve the national research, extension, marketing and credit services to alleviate poverty and food insecurity through increased agricultural productivity. <u>It is unlikely that project will result in significant environmental impact; project will support integrated pest management.</u> <u>Environmental Assessment Category B.</u>	To be determined.	Project under preparation. (Co-financing of about \$25 million will be required).

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>LAWI</u> (cont'd)				
Ministry of Finance	60.0 (IDA)	(R) Entrepreneurship and Capital (formerly Capital and Labor Market Adjustment) - Project will provide continued support for Malawi Adjustment Program, with a focus on factor markets and low income groups. <u>Environmental Assessment Category C.</u>	Consultants in labor and capital marketing design will be needed.	Negotiations scheduled for mid-April 1991. (Co-financing of about US\$75 million will be required).

Project under preparation. Project preparation facility advance of \$400,000 for preparation studies has been approved.
SIERRA LEONE				
Ministry of Finance	30.0 (IDA)	Import Support - To cover foreign exchange costs of critical imports in agriculture, transport and a structural adjustment program under PFP. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined	Preparation under way.
National Power Authority (NPA)	40.0 (IDA)	(R) Power Rehabilitation - Assist NPA with rehabilitation of generation, sub- transmission and distribution facilities in the Western area, and help establish the basis for NPA to become an autonomous and commercially viable utility. <u>Environmental Assessment Category B.</u>	Consultant services will be required for project management and technical assistance.	Negotiations tentatively scheduled for May 1991. Technical assistance is being financed under PFP.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>SOMALIA</u>				
Ministry of National Planning and Juba Valley Development	10.0 (IDA)	(N) Environment - Institutional capacity building to enable the Government to formulate policies, monitor and implement measures to protect the environment and initiate on a pilot basis, environmental protection measures in areas where sufficient analysis exists. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Project under preparation.
Ministry of National Planning and Juba Valley Development	20.0 (IDA)	Power Infrastructure Rehabilitation II - Arrest the decline of essential urban services in Mogadishu, institutional strengthening of Mogadishu City Council; continued institutional strengthening of Ente Nazionale Energia Elettrica (ENEE). <u>Environmental Assessment Category B.</u>	Consultant services will be required.	Project preparation way.
Ministry of National Planning and Juba Valley Development	18.5 (IDA)	(R) Infrastructure Rehabilitation - Maintenance and rehabilitation of highways, training and technical assistance for Mogadishu Water Agency Authority and Telecommunications Sector. <u>Environmental Assessment Category B.</u>	Consultants services will be required.	Board presentation scheduled for June 1
Ministry of National Planning and Juba Valley Development	5.0 (IDA)	(R) Baardhere Resettlement - Resettlement of about 2,250 families from reservoir area. <u>Project may also establish 2 forest reserves, salvage cultural property, implement wildlife management program, consulting services, surveys and mapping. Environmental Assessment Category A.</u>	Consultants have prepared study for resettlement.	Project has been drop Further reporting will discontinued.
Ministry of Health	10.0 (IDA)	(R) Population/Health - Development of rural health services in the context of a health sector plan, with emphasis on institutional, managerial and financial issues. <u>Environmental Assessment Category C.</u>	To be determined.	Project has slipped 1 FY95. Further report will be discontinued.
Ministry of National Planning and Juba Valley Development	60.0 (IDA)	(R) Baardhere Dam - A multi-purpose dam on Juba River that will provide hydropower for Mogadishu and Kismayo as well as irrigated agricultural development and flood protection. <u>Juba Environment and Social Economic Studies Report provided baseline survey of social, agricultural and environmental status of Juba Valley and recommended actions for dealing with the issues raised by the project. Environmental Assessment Category A.</u>	Consultants will be required for engineering supervision and institutional support.	Project has been drop Further reporting will discontinued.
<u>SUDAN</u>				
Ministry of Agriculture	About 20.0 (IDA)	(R) National Livestock - Strengthen support services; to expedite formulation of a long-term development strategy for livestock and rangeland and lay formulation for follow-up project to develop commercial livestock subsector. <u>Environmental Assessment Category A.</u>	To be determined.	Project placed into Reserve Program. Further reporting will be discontinued.

Member Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>DAN</u> (cont'd)				
Dan Cotton Company	About 30.0 (IDA)	(R) Cotton Marketing - Increase capacity of ginneries to process expected increased need for cotton crops and improve ginning outturns and output. <u>Environmental Assessment Category B.</u>	To be determined.	Project has been dropped. Further reporting will be discontinued.
Ministry of Education	15.7 (IDA)	(R) Education IV - Assistance for Education Sector Development. <u>Environmental Assessment Category C.</u>	To be determined.	Project slipped to FY94. Further reporting will be discontinued.
Dan Telecommunications Public Corporation	About 35.0 (IDA)	(R) Telecommunications Sector Rehabilitation - With emphasis on strengthening sector management and improving quality of service through: replacement of Khartoum North and Omdurman telephone exchanges and extension cable network; rehabilitation of domestic and international satellite earth stations; rehabilitation of training school; and procurement of spare parts. <u>Environmental Assessment Category B.</u>	Letters of invitation for consulting services have been issued.	Project placed into Reserve Program. Further reporting will be discontinued.
Ministry of Health	20.0 (IDA)	(R) Health I - Support of priority needs in Health Sector. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project placed into Reserve Program. Further reporting will be discontinued.
<u>ZILAND</u>				
Ministry of Rural Resources, Land Utilization and Energy	18.0 (IBRD)	(N) Urban - Provision of low income housing and urban infrastructure, including water supply; strengthening of urban planning and institutions. <u>Environmental Assessment Category B.</u>	Consultants have been appointed for project preparation.	Preparation under way with grant assistance from Japan and UNDP. (Co-financing will be required.)
<u>ZANANIA</u>				
Ministry of Trade Industries	About 140.0 (IDA)	(R) Industrial Restructuring - To support the restructuring of industrial enterprises. <u>Environmental Assessment Category B.</u>	Consultancy services will be required.	Appraisal mission scheduled for mid-June 1990.
Ministry of Energy	100.0 (IDA)	(R) Energy (Power VI) - Additional power generation scheme and associated transmission line, rehabilitation of existing distribution facilities and some diesel units. Institutional reforms and studies. <u>Environmental Assessment Category A.</u>	To be determined.	Appraisal mission scheduled for mid-May 1990. (Co-financing will be required.)

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing & Action on Procurement
<u>TANZANIA</u> (Cont'd)				
Ministry of Land, Tourism and Natural Resources	12.0 (IDA)	(R) Forest Resources Management - The project would include sectoral policy and institutional reforms, land tenure, land titling, land use, and pilot woodland management, agro-forestry and charcoal production components. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Negotiations tentatively scheduled for July 1991. (Co-financing being explored).
Ministry of Energy	About 44.0 (IDA)	Petrol Rehabilitation - To improve the distribution of petroleum products. <u>The project will have positive environmental impact. Environmental Assessment Category B.</u>	Consultant services will be required.	Approved by the Executive Directors on January 1991.
Ministry of Finance	About 150.0 (IDA)	(R) Financial Sector/Restructuring (formerly Financial Restructuring) - To support the restructuring of financial intermediaries. <u>Environmental Assessment Category C.</u>	Consultant services will be required during preparation and implementation.	Project preparation underway. (Co-financing will be required).
Tanzania Railways Corporation	About 56.2 (IDA)	(R) Railways Restructuring - To support a program of restructuring with the following components: (a) operations improvement plan; (b) organizational restructuring; (c) assets rehabilitation and replacement; (d) capital restructuring; and (d) revamping of the regulatory framework governing the railways' operations. The project will provide financing for the assets, management control and information systems enhancement and technical assistance and training needs of the restructuring program. <u>Environmental and occupational health and safety assessment will be undertaken as part of appraisal. Environmental Assessment Category B.</u>	Consulting services will be required for manpower study and organizational study.	Negotiations tentatively scheduled for mid-March 1991. (Co-financing is expected from the EEC, ODA, SIDA, DANIDA and AfDB).
Ministry of Local Government	About 15.0 (IDA)	(R) Urban Sector Engineering - Strengthening of the financial and institutional capacity of the urban sector, and engineering and design work for a future urban infrastructure rehabilitation and expansion program. <u>Environmental Assessment Category C.</u>	To be determined.	Board presentation scheduled for April 30 1991.
<u>TOGO</u>				
Ministry of Rural Development	15.1 (IDA)	(N) Rural - To support establishment and promotion of farmer and rural-based financial intermediaries. Provide support for farmer groupings and encourage private commercial bank involvement in savings and credit. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Project under preparation.

Member Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>SO</u> ont'd)				
Ministry of Environment, Ministry of Rural Development	15.7 (IDA)	(R) Forestry/Environment - An omnibus program for protecting natural resources and mitigating environmental effects of growth. <u>Environmental Assessment Category D.</u>	Local consultants to prepare diagnostic studies and expatriate consultant services required to assist develop environmental action plan.	Project placed into Reserve. Further reporting will be discontinued.
Ministry of Planning	55.0 (IDA)	Structural Adjustment IV - To further support Government's structural adjustment process. <u>Environmental Assessment Category C.</u>	Consulting services required for institutional assessment of key economic ministries.	Approved by the Executive Directors on December 18, 1990.
Ministry of Rural Development	10.5 (IDA)	(R) Agricultural Services Rehabilitation -Reorganization of General Agricultural Support Services including input supply, seed production, applied research and cooperative development. <u>Environmental Assessment Category B.</u>	Consulting services may be required during project implementation.	Appraisal report under preparation.
Ministry of Public Health and Social Welfare & Women's Affairs	14.2 (IDA)	(R) Population and Health Sector Adjustment - To support sector reforms to improve basic family planning and health services, strengthen institutional management, budgeting process, mobilization and use of local resources to rehabilitate and operate existing facilities. It will provide budgeting support over four years. <u>Environmental Assessment Category C.</u>	Consultant services required.	Board presentation scheduled for February 26, 1991.
Ministry of Transport and Communications	15.1 (IDA)	Lome Urban Development - Urban infrastructure development, sanitation, institutional framework reform, environmental measures, and high intensive labor operations. <u>Environmental Assessment Category B.</u>	To be determined.	Project under preparation by Government with the help of consultants. Pre-appraisal mission scheduled for April 1991.
<u>NDA</u>				
Ministry of Finance	125.0 (IDA)	Structural Adjustment I - To provide support for the Government of Uganda's economic reform program with general import support. <u>Environmental Assessment Category C.</u>	To be determined.	Pre-appraisal mission currently in the field.
Ministry of Finance	20.0 (IDA)	Economic and Financial Management - Strengthening the capacity of Ministry of Finance, Ministry of Planning & Economic Development, and Bank of Uganda to formulate and implement economic and financial policies. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Preparation under way.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
UGANDA (Cont'd)				
Ministry of Finance (MOF) and Central Bank (BOU)	About 100.0 (IDA)	Financial Sector Adjustment Credit I (formerly Financial System Restructuring) - To provide support for reform of financial sector policies and restructuring of key financial institutions. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Project under preparation.
Ministry of Planning and Economic Development	28.7 (IDA)	First Urban - Rehabilitation of essential urban services in Kampala, institutional strengthening of Kampala City Council and strengthening of financial management of other local authorities. <u>Environmental Assessment Category B.</u>	Consultant services will be required.	Board presentation scheduled for third quarter of 1991.
Ministry of Finance	40.0 (IDA)	(R) Enterprise Development - Technical assistance for private sector and public enterprise development. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation. Appra mission tentatively scheduled for April
Ministry of Education	50.0 (IDA)	Education V - Action would support implementation of education policy commission recommendation. <u>Environmental Assessment Category C.</u>	To be determined.	Preparatory review education sector un way.
Bank of Uganda	15.0 (IDA)	Rural Enterprises - Credit for financing rural enterprises will focus on small and medium scale borrowers; technical assistance to operate business services, strengthen credit policy and business training. <u>Environmental Assessment Category B.</u>	Consultants will be required.	Preparation under w
Uganda Electricity Board (UEB)	About 125.0 (IDA)	Power III - Project's main components are likely to consist of an extension of an existing hydro-electrical power station, (for which a feasibility study has been performed) plus some rural electrification. <u>A sectoral environmental assessment for future power development is planned.</u> <u>Environmental Assessment Category A.</u>	UEB has appointed consultants for work in progress.	Negotiations under (Co-financing will required).
Ministry of Health	50.0 (IDA)	Health II - Follow up of Health I project to further develop rural health services. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation.
ZAIRE				
Ministry of Environment	About 43.0 (IDA)	(R) Forestry and Environment - To develop systems for effective protection of parks and reserves and to improve management of forests and other natural resources. <u>Environmental Assessment Category D.</u>	To be determined.	Project under preparation.

Donor Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>RE</u> cont'd)				
Societe Nationale d'Electricite (SEL)	About 10.0 (IDA)	SNEL T.A. - Engineering supervision works, studies, technical and management assistance. <u>Environmental Assessment</u> <u>Category C.</u>	Consultants will be required.	Project under preparation.
Institut National pour l'Etude et la Recherche Agricoles	About 24.2 (IDA)	Agricultural Research - Restructuring and development of the Institut National pour l'Etude et de la Recherche Agricole; assist in preparing national agricultural research master plan; investment support on research stations and training of research, technical and administrative personnel. <u>Development</u> <u>of environment conservation techniques</u> <u>are high on the agenda as sub-sector</u> <u>programs among various research</u> <u>priorities.</u> <u>Environmental Assessment</u> <u>Category C.</u>	Consultants will be required.	Negotiations scheduled for March 1991.
ETAT; Ministere de l'Enseignement Superieur et de la Recherche Scientifique	About 28.0 (IDA)	(R) Education III - Education sector adjustment and support to essential programs in primary and secondary education. <u>Environmental Assessment</u> <u>Category C.</u>	Consultants have been recruited.	Board presentation scheduled for March 1991.
Ministere de l'Enseignement Superieur et de la Recherche Scientifique	About 30.4 (IDA)	Social Sector - Develop key social policies and related institutional changes in the population/ health/nutrition, education, environment, and women in development sectors. NGO/Government collaboration will be strengthened and a social dimension of adjustment survey implemented. <u>Environmental Assessment</u> <u>Category C.</u>	Consultants will be required.	Approved by the Executive Directors on December 18, 1990. PPF advance for US\$1.0 million approved in 1989.
Ministere de l'Enseignement Superieur et de la Recherche Scientifique	About 21.5 (IDA)	(R) Capacity Building - Institutional development project focussed on public resource generation and use, and economic management information system. <u>Environmental Assessment: To be</u> <u>determined.</u>	Consultants will be required.	Project under preparation.
Ministere de l'Enseignement Superieur et de la Recherche Scientifique	47.3 (IDA)	Highway Sector Rehabilitation - Rehabilitation and maintenance of main and secondary roads, strengthening of sector institutions and training. Total project cost to be determined. <u>Positive environmental effect from</u> <u>repairs on road drainage and development</u> <u>of local capacity to deal with potential</u> <u>environmental impact of road works.</u> <u>Environmental Assessment Category B.</u>	Consultants will be required for studies for feasibility, detailed design of selected investments and supervision of works.	Appraisal mission tentatively scheduled for February/March 1991.
Ministere de l'Enseignement Superieur et de la Recherche Scientifique	About 25.4 (IDA)	(R) Urban I - First operation in the sector, institution building, cost- recovery mechanisms, technical assistance, urban infrastructure, land development, land registration, housing finance, and urban services. <u>Project</u> <u>will have a positive effect on the urban</u> <u>environment of Kinshasa.</u> <u>Environmental</u> <u>Assessment Category B.</u>	Consultants have prepared urban component with financing from France and IDA. About 20% of project cost will go to technical assistance and studies.	Negotiations tentatively scheduled for August 1991.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
ZAMBIA				
Ministry of Finance	100.0 (IDA)	(R) Industrial and Trade Adjustment - To support institutional and policy reforms in trade and public enterprise restructuring especially the reform of parastatals and the Government's privatization program. <u>Environmental Assessment Category C.</u>	Consultant services will be required.	Appraisal mission scheduled for June
Ministry of Finance	50.0 (IDA)	(R) Multisector Adjustment - To extend and deepen the Government's adjustment program by providing imported goods and services, particularly production inputs for recovery. <u>Environmental Assessment Category C.</u>	Consultant services will be sought.	Appraisal scheduled December 1991. (Co-financing will required.)
Zambia Consolidated Copper Mines (ZCCM)	30.0 (IDA)	(R) Mining Technical Assistance - Technical (mining) and managerial assistance to ZCCM to improve productive efficiency and sustain output at least at current levels. Project will include execution of environmental studies. <u>Environmental Assessment Category C.</u>	Consultants will be required for studies and long term assignments.	Appraisal report under preparation. (Co-financing will required.)
Bank of Zambia/ Ministry of Finance	About 200.0 (IDA)	(R) Recovery Credit - To support economic policy and institutional reforms designed to bring about structural change in the economy. Project would provide imported goods and services, particularly production inputs needed to sustain the recovery and diversification effort. <u>Environmental Assessment Category C.</u>	Consultants will be required.	Negotiations completed. Board presentation scheduled for March 1991. (Co-financing being sought.)
ZIMBABWE				
Ministry of Education	12.0 (Bank)	Education I - Will assist in improving efficiency and quality of secondary education and in meeting manpower requirements in selected fields. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation. (Co-financing will be required.)
Government/ Reserve Bank	20.0 (Bank)	(R) Small-scale Enterprises II (SSE II) - Will build and expand on the results of SSE I by continuing to provide financial and technical assistance to small-scale businesses and institution building for participating financial intermediaries. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation. (Co-financing will be required.)
Ministry of Energy/ZESA	30.0 (Bank)	(R) Power Distribution - Reinforcement and extension of power distribution system and public lighting. <u>Environmental impact is expected to be minimal. Environmental Assessment Category C.</u>	Consultants will not be required.	Appraisal report under preparation. Negotiations tentatively scheduled for March 1991. Parallel financing for related investments being arranged by the government.

Donor Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
ZIMBABWE (not'd)				
Ministry of Local Government and Rural Development	About 20.0 (Bank)	(R) Urban Transportation - Improvement of urban transport services through assistance to bus companies. <u>Environmental implications will be assessed during appraisal and necessary actions will be identified.</u> <u>Environmental Assessment Category B.</u>	Consulting services will be required.	Appraisal report under preparation. (Co-financing of about \$25.0 million will be required).
Ministry of Health: Zimbabwe National Family Planning Council	35.0 (Bank)	Family Health II - Improvement of current facilities for fertility control, mortality reduction and health care, improvement of institutional capacity and financing of health care. <u>Environmental Assessment Category C.</u>	Consultants services will be required.	Negotiations scheduled for mid-March 1991. (Co-financing of at least \$50.0 million, preferably in grant/concessional form, will be sought).
ECA REGIONAL				
Government of Togo Benin, Munauté Société d'Énergie du Bénin (CEB)	36.0 (IDA)	(R) Adjarala Hydroelectric - A hydroelectric plant (80 MW, 250 GWh) 97 km downstream of Nangbeto on the Mono River, including dam, powerhouse, related transmission lines (about 130 km), resettlement and environment, administration and technical assistance. This is a joint Togo-Benin development project to be owned and operated by CEB. <u>Major environmental issues include:</u> <u>population resettlement and</u> <u>compensation; environmental protection;</u> <u>health protection; and downstream</u> <u>hydrology. A preliminary environmental</u> <u>evaluation has been completed and</u> <u>project preparation includes a full</u> <u>environmental assessment. Environmental</u> <u>Assessment Category A.</u>	Consultants have completed the feasibility study and are preparing bidding documents.	Project under preparation. (Possibility of co- financing from France, Canada, Germany and others). First cofinanciers meeting took place November 21-23, 1990.
Governments of Senegal, Guinea-Bissau and Cape Verde - (OMVS) Commission pour le Développement en Valeur Ajoutée de la Région du Fleuve Sénégal	25.0 (IDA)	Regional Power - Develop the hydro project in Manatali and the associated transmission lines to supply Dakar. <u>Environmental Assessment Category A.</u>	Consultants have been selected and feasibility study is under way.	Project under preparation.
Governments of Equatorial Guinea, Cameroon, Congo, Central African Republic Congo	33.4 (IDA)/ 130.0 (Bank)	(R) UDEAC/BEAC - Will support regional reform program in trade, fiscal transport and financial policy in countries of UDEAC/BEAC. Objective is to tackle problems pertaining to structure of trade and indirect taxes; transit arrangements for traffic in land locked countries; and the functioning of the central bank that, due to the nature of existing treaties and arrangements between member countries, can only be resolved at the regional level. <u>Environmental Assessment Category B.</u>	To be determined.	Appraisal report under preparation.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Process: Action on Procurement
--	---	----------------------	---------------------	--

II. ASIA REGION

BANGLADESH

Ministry of Agriculture	75.0 (IDA)	Shallow Tubewells and Low Lift Pump Irrigation - The project is to increase agricultural production, income and employment by supporting increased investment by farmers in simple, low cost minor irrigation equipment sold by private equipment dealers for cash under the Government of Bangladesh's (GOB's) liberalized/deregulated policy framework for private sector-led minor irrigation development. <u>Environmental Assessment Category B.</u>	To be determined.	Negotiations completed. Board date tentatively scheduled for April 1991.
Ministry of Environment and Forest	30.0 (IDA)	Forestry III - The project would support extension of mangrove plantations, industrial/energy plantations and preparation and implementation of forest management plans for all established plantation and natural forest. <u>Environmental Assessment Category D.</u>	To be determined.	Preparation under way.
Bangladesh Water Development Board (BWDB)	50.0 (IDA)	(R) Flood Protection I - Would improve protection to towns and agricultural land along the Brahmaputra and Meghna rivers, including repairs to existing river training works and, where necessary, construction of additional groynes and revetments to safeguard integrity of existing protection works. Brahmaputra right bank pilot component would be implemented to provide shelter sites for households embankments. <u>Would be subjected to limited environmental assessments which would use outputs of other studies and do focussed assessments on project specific issues such as drainage, resettlement, and housing site sanitation. Effected groups would be consulted during the process. Environmental Assessment Category B.</u>	To be determined.	Project under preparation.
Bangladesh Water Development Board (BWDB)	50.0 (IDA)	(R) Cyclone Protection - The project would ensure the security of persons living in the protected area, reduce damage to houses and other private and public buildings, and minimize the loss of livestock. It would introduce appropriate technology in the design and construction of protection works; and collect data for the preparation of a plan to protect the newly accredited lands. <u>Environmental Assessment: To Be Determined.</u>	To be determined.	Project under preparation.

Lending Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
BALESH				
(t'd)				
Department of Cultural Extension	35.0 (IDA)	(R) Agriculture Support Services - The project would support government's efforts to promote economic growth and farmer's income by (a) facilitating the development of relevant agricultural techniques and its dissemination; (b) improving supply of other factors of production; and (c) strengthening the incentive framework and creating an environment conducive to the emergence of private agriculture export activities. <u>Environmental Assessment Category C.</u>	To be determined.	Negotiations completed. Board date tentatively scheduled for April 16, 1991.
Roads and Highways Department	90.0 (IDA)	Second Road Rehabilitation and Maintenance - Rehabilitation or reconstruction of about 204 km of roads in the northwest; periodic maintenance works on about 400 km of other major roads in the northwest and southwest; continued implementation of the action plan for improved road maintenance; and implementation of an action plan to strengthen the construction industry. Total project cost US\$126.0 million. <u>No significant environmental impact anticipated.</u> <u>Environmental Assessment Category B.</u>	Pre-investment study being carried out by consultants financed under IDA/TA V Credit.	Project under preparation.
Balesh Cultural Development Corporation (C)	54.0 (IDA)	(R) National Minor Irrigation Development - The project aims to increase crop production by facilitating expansion of the area served by minor irrigation equipment. It will support development of irrigation based on; (i) deep tubewell technology where development based on shallow tubewells and low lift pumps is not feasible; and (ii) low lift pump technology. The project will also support strengthening of the institutional and policy framework to help create confidence in the private sector and, thus encourage increased private investment. <u>Environmental Assessment Category B.</u>	To be determined.	Negotiations tentatively scheduled for February 25, 1991. (Co-financing of US\$85.0 million indicated by EEC). <u>Procurement: About US\$90.0 million worth of irrigation equipment including 0.5, 1 and 2 cusec deep tubewells and low lift pumps.</u>
Balesh Power Development Ltd	75.0 (IDA)	(R) Second East/West Interconnector - Project would provide for the second power transmission interconnection between East and West zones, and would also strengthen the transmission system in the West Zone. The interconnection would be constructed on the Jamuna River and would be used to transmit electricity generated using indigenous gas in the East zone to the West zone to substitute for electricity generated using imported liquid fuel oil. <u>Environmental Assessment Category B.</u>	Engineering design being prepared by UNDP financed consultants.	Project preparation under way.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>BANGLADESH</u> (Cont'd)				
Dhaka Water Supply and Sewerage Authority (DWASA)	95.0 (IDA)	(R) Fourth Dhaka Water/Sanitation - Project now being re-identified but likely to include: (a) development of long term water source for Dhaka (including ground and surface water); (b) rehabilitation and extension of water distribution and sewerage systems; (c) extension of water and low-cost sanitation program; (d) further institutional development of DWASA; and (e) exploration of deep artesian aquifer. Total project cost estimated at \$250.0 million. <u>Positive environmental impact through improved sanitation facilities and rehabilitation of sewage collection treatment works.</u> <u>Environmental Assessment Category B.</u>	Consultants feasibility study (funded by Government of France) to prepare medium/long-term investment program for DWASA commenced in January 1991.	Project requires re-identification based results of feasibility study, which is underway. (Co-financing interest expressed by Japan for US\$125.0 million, and Asian Development Bank
Ministry of Health and Family Planning	150.0 (IDA)	(R) Population and Health IV - To continue support to GOB with regard to family planning service delivery and maternal child health programs, and to assist GOB in formulating and implementing a population and health policy framework. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal report under preparation. (Co-financing from Australia, Belgium, Canada, Germany, Japan, Netherlands, Norway, Sweden, United Kingdom and EC totalling US\$300 million.)
Ministry of Education	30.0 (IDA)	Technical and Vocational Education - To increase both the internal and external efficiency of the existing formal vocational and technical education systems, and to promote the development of non-formal vocational education. <u>Environmental Assessment Category C.</u>	To be determined.	Project under preparation.
Bangladesh Bank	50.0 (IDA)	Small Scale Industries IV - The proposed project would require locating a financial intermediary capable of lending to the market niche at interest rates sufficient to cover costs. If any such intermediaries can be located, the project could comprise: (a) a line of credit to assist investments in small scale industries; and (b) technical assistance component to improve service provision to small scale industries. It may also include a policy component to remove constraints on small scale industry development. <u>Environmental Assessment: To Be determined.</u>	To be determined.	Project in early stage of preparation. Project feasibility questionable

Donor Country, Lending Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
BAHRAIN				
(at'd)				
Chittagong Water Supply & Sewerage Authority (CWSSA)	40.0 (IDA)	Chittagong Water Supply and Sanitation III - Objectives are to assist CWSSA to become a more efficient and effective institution through rehabilitation/optimization of existing facilities and improved technical, financial, managerial and administrative capabilities. Project will include program to reduce unaccounted for water, limited expansion of water production facilities, extensive rehabilitation of water distribution system, installation of sewerage/sanitation facilities, technical assistance and training. Total project cost is estimated to be US\$52.5 million. <u>Positive environmental impact by improved sanitation across income groups and by treatment of domestic, commercial and industrial wastewater. May require limited involuntary resettlement. Environmental Assessment Category B.</u>	Process of recruitment of water supply and sewerage design/supervision consultants by CWASA expected to commence soon.	Pre-appraisal mission completed. Appraisal mission scheduled for October 1991. (Co-financing of US\$5.0 million indicated by NORDIC Development Fund).
Bangladesh Inland Waterways Transport Authority (BIWTA); Bangladesh Inland Water Transport Corporation (ITC); Department of Shipping (DOS)	45.0 (IDA)	(R) Inland Water Transport III - To provide technical assistance training and equipment to upgrade the capability of BIWTA, BIWTC and DOS. The project would include: (a) streamlining and rehabilitation of inland fleets; (b) improving waterway dredging and survey capability; (c) improving navigational aids and vessel safety; and (d) institutional development, including strengthening of training facilities for inland deck personnel. Total project cost US\$64.2 million. <u>Environmental assessment identified issues of dredging material and waste management, and regulatory/enforcement capability which are being addressed under the project. Environmental Assessment Category B.</u>	Consultants financed under UNDP, United States Trade & Development Program, UK and Netherlands Trust Funds and ILO experts are presently engaged in project preparation.	Negotiations complete. Board date tentatively scheduled for April 30, 1991. (Co-financing from FINNIDA of US\$5.0 million, and from Japanese, Environmental Grant Facility of US\$0.7 million).
Bangladesh Bank	50.0 (IDA)	(R) Agricultural and Rural Credit II - To support further reform of agricultural credit system, strengthen agricultural financial institutions and to provide credit for agricultural investments. <u>Environmental Assessment Category B.</u>	Consultants would be required to assist in technical assistance.	Negotiations completed. Board presentation scheduled for March 12, 1991. (Co-financing from ADB for US\$60.0 million and USAID for US\$3.3 million).
Bangladesh Bank	25.0 (IDA)	Industrial Investment - Provision of term financing to private sector industry through private financial institutions to be selected. <u>Environmental Assessment Category B.</u>	ADB-executed UNDP technical assistance being undertaken as part of project preparation.	Appraisal report under preparation.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>BANGLADESH</u> (Cont'd)				
Ministry of Finance	140.0 (IDA)	(R) Public Resource Management - To assist in resource mobilization and use. To cover reforms and institutional development in public revenue mobilization through taxation and public pricing policies; and public expenditure planning and implementation. <u>Environmental Assessment Category C.</u>	UNDP is expected to provide technical assistance in budget and accounting reform.	Appraisal mission scheduled for May 1991.
Bangladesh Oil, Gas & Mineral Corporation/ Bangladesh Petroleum Corporation	63.0 (IDA)	(R) LPG Transport and Distribution (formerly LPG Recovery and Distribution) - To promote the substitution of LPG for kerosene and firewood, resulting in foreign exchange savings; install LPG transport and bottling facilities; develop institutional framework for operation of facilities; develop policy for pricing of LPG at various stages of production and distribution; optimize role of private investors. <u>Environmental Assessment Category B.</u>	Consulting services may be required for implementation and supervision.	Appraisal report under preparation.
Jamuna Multipurpose Bridge Authority	100.0 (IDA)	(R) Jamuna Multipurpose Bridge - Construction of a major multi-purpose (road-energy telecommunications bridge across the Jamuna (Brahmaputra) River to reduce transport costs and support the Northwest's economic integration with the rest of the country. Total project cost estimated at \$528.7 million. <u>Supplementary Environmental studies under way. Some involuntary resettlement will be required.</u> <u>Environmental Assessment Category A.</u>	Consultants will be required for project management and civil works supervision.	Appraisal mission expected in early 1991. (Co-financing from AIJ for US\$150.0 million; Japan). <u>Procurement: Civil works components to be financed by IDA, and co-financiers. Pre-qualification completed. Bidding documents completed.</u>
Ministry of Industry	55.0 (IDA)	(R) Industrial Sector II (Adjustment) - The credit would support GOB's further liberalization of quantitative restrictions on imports, the structure of tariff rates, export incentives and investment sanctioning procedures to facilitate private sector development. <u>Environmental Assessment Category C.</u>	Consultants will be required for tariff restructuring. Consultants may also be required for work on regulatory constraints and/or export strategy.	Project preparation underway.
Bangladesh Power Development Board	136.0 (IDA)	(R) Power Rehabilitation and Distribution - Project includes: rehabilitation of selected power plants, grid substations and transmission lines to restore rated generating capacity/extend plant life and improve system efficiency/reliability of supply; and installation of capacitors in selected areas of distribution system to reduce losses/improve voltage. <u>Environmental Assessment Category B.</u>	Consultants will be required for project implementation.	Negotiations completed. Board presentation scheduled for August 1991.

Number Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>GLADESH</u> (cont'd)				
MC	95.0 (IDA)	Gas Infrastructure - (a) integration of gas grid (Bakhrabad-Ashuganj pipeline); (b) grid control and operations safety systems; (c) further appraisal drilling; and (d) technical assistance in gas network management. <u>Environmental Assessment Category B.</u>	Experts on gas network analysis, pipeline engineering and environmental safety covered by Japanese Grant Facility.	Project preparation under way.
<u>TAN</u>				
Forest Department	5.0 (IDA)	Third Forestry - To support environmental protection and management, and improve the sustainability of natural resource use through afforestation of vulnerable roadsides, management and protection of forest and grassland areas, and management and restocking of forest areas designated to supply urban, industrial and institutional needs. <u>Environmental Assessment Category D.</u>	To be determined.	Project preparation under way.
<u>NA</u>				
Sichuan Petroleum Administration	200.0 (Bank)	(N) Sichuan Gas Development and Conservation - To support Sichuan gas exploration, development, aging field rehabilitation, transmission, distribution, energy conservation and pollution abatement for selected fertilizer plants. <u>Environmental Assessment Category A.</u>	To be determined.	Identification mission tentatively scheduled for April 1991.
Gansu Provincial Government	145.0 (IDA)	Shule River Irrigation & Poverty Alleviation (Hexi Corridor) - To improve and expand 74,500 ha irrigated land in Shule River Basin and to provide resettlement for 200,000 poor residents of eastern Gansu. To expand soil conservation and sustainable agricultural programs and liberalize rural economy. <u>Environmental Impact Assessment (EIA) required on the proposed Changma Dam and resettlement plan to be prepared for 200,000 new settlers on newly developed irrigated land. Environmental Assessment Category A: Changma Dam. Environmental Assessment Category D: Resettlement and Soil Conservation and Sustainable Agricultural Programs.</u>	To be determined.	Project under preparation by Gansu Provincial Government and formal approval from Central Government is pending. Preparation mission proposed for June 1991. Gansu Government has been advised to seek Technical Corporation Credit (TCC) funds to carry out Environmental Impact Assessment (EIA) and design review of Changma Dam by a panel of experts.
Ministry of Agriculture	300.0 (IDA)	Second Red Soils Land Rehabilitation - Disseminate techniques of ecologically sustainable and economically viable land rehabilitation and voluntary settlement over a wide area of degraded red soils across Jiangxi, Fujian, Hunan, Zhejiang and Guangxi--involves watershed development, and technical assistance to support research and strengthen extension systems. <u>Environmental Assessment Categories B/D.</u>	Consultants likely to be required.	Project under preparation.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
CHINA (Cont'd)				
Ministry of Agriculture	110.0 (IDA)	Agricultural Support Services - The project would support the production of foodgrains, oil crops, cotton and livestock through improvement of support services to farmers--crop, livestock, regulatory and management services, and project management. Services to be emphasized would be applied research, agricultural extension, seed production, veterinary and quarantine. <u>Environmental Assessment Category C.</u>	To be determined.	Second preparation mission scheduled for March/April 1991.
Sichuan Province Planning Commission	125.0 (IDA)	Sichuan Agricultural Development - To support comprehensive agricultural development in Sichuan Province with a focus on irrigation, soil conservation, and agro-processing development with a particular emphasis on poverty alleviation. The irrigation, soil conservation and processing components would have environmental impact and will require environmental assessment. <u>Environmental Assessment Category B.</u>	Consultants required for project preparation, evaluation, technical assistance and training.	A full scale joint World Bank and FAO/CP preparation mission scheduled for April 1991.
Ministry of Public Health	150.0 (IDA)	(R) Infectious and Endemic Disease Control - Control and reduction of schistosomiasis and tuberculosis. <u>Environmental Assessment Category C.</u>	To be determined.	Findings of pre-appraisal mission under review.
People's Bank of China (PBC)/ Ministry of Finance	Up to 50.0 (IDA)	Financial Sector Technical Assistance - To support PBC's central banking functions and strengthen financial sector development through possible components for improving bank regulation, supervision and accounting, payments and clearing system, legal framework, research and statistics and domestic debt management. <u>Environmental Assessment Category C.</u>	Consulting services required for project preparation and implementation.	Preparation under way.
Anhui Provincial Planning Commission	200.0 (Bank)	(R) Anhui Province Transport - A number of possible components, including highways, railways, canals, and river ports have been proposed for consideration at this early stage. <u>Environmental Assessment Category B.</u>	To be determined.	Identification of project is in abeyance pending completion of the Yangtze River Economic Transport Study which includes Anhui in the study area.
Guangdong Province Planning Commission	400.0 (Bank)	(R) Guangdong Provincial Transport - Would focus on highway -- new construction of perhaps two major expressways, upgrading and rehabilitation of secondary roads. <u>Environmental Assessment Category A.</u>	To be determined.	Preparation under way.

Lending Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4

Liaoning Environmental Protection Bureau; Liaoning Construction Commission	100.0 (IDA)	Liaoning Environmental - Continuing support to improve water management and water pollution control in the Hun/Taizi River Basin; consists of physical and institutional development for works for waste water and hazardous waste management for the cities of Shenyang, Fushun and Anshan. <u>Environmental Assessment Category D.</u>	Consultants required for project preparation.	Preparation under way.
Shanghai Harbour Bureau, Ministry of Communications	100.0 (Bank)	Shanghai Port II - Expansion of port and cargo handling facilities of Shanghai. <u>Environmental Assessment Category A.</u>	To be determined.	Preparation under way.
State Education Commission	175.0 (IDA)	(R) Education Development in Poor Provinces (formerly Provincial Education) - To support local efforts aimed at improving efficiency and quality of education in six provinces; Shaanxi, Guizhou, Hubei, Yunnan, Hunan and Shanxi. <u>Environmental Assessment Category C.</u>	Consultants likely to be required for improving planning at provincial level.	Preparation/pre-appraisal mission in the field.
State Education Commission	100.0 (IDA)	Teacher Training II - Support reform of teacher education for lower middle school teachers including curriculum reform, strengthening and establishing departments, research in teaching, synthesis and dissemination of innovative teaching experiments and strengthening of alternative delivery systems. <u>Environmental Assessment Category C.</u>	Consultants are likely to be required for technical assistance and in teacher education and distance education.	Studies prior to identification are under way.
Foreign Loan Office, Ministry of Public Health	110.0 (IDA)	Rural Water Supply and Sanitation (formerly Rural Water Supply II) - To improve rural productivity and health, particularly in poor, remote areas, by increasing coverage of water supply and sanitation. The project would provide potable water to about 11 million rural inhabitants in 75 counties of 6 of China's poorest provinces. Project would also provide funds for water quality monitoring, demonstration and communal/public latrines and health education in the project areas. <u>Environmental Assessment Category B.</u>	Consultants required for technical assistance and training in project preparation and implementation.	Pre-appraisal mission completed. Financing of consultants for first phase project preparation provided by UNDP umbrella project. UNDP assistance for further preparation, implementation and technical assistance under consideration.
Planning and Economic Commission of Jiangsu Province	150.0 (Bank)	Southern Jiangsu Environment - To support investments in urban and industrial projects that demonstrate significant environmental payoffs and to strengthen institutional, regulatory and environmental management capabilities of the provincial agencies. <u>Province to formulate environmental management strategy. Significant technical assistance component anticipated. Environmental Assessment Category D.</u>	Consultant services will be required for a number of studies expected to be financed under the Japan Grant Facility. Selection of consultants in progress.	Preparation under way.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
CHINA (Cont'd)				
Ministry of Public Health	100.0 (IDA)	Rural Health Manpower Development - Assistance in training and re-training rural health manpower in the poorest counties of five provinces. <u>Environmental Assessment Category C.</u>	Consultants services required for technical assistance in project preparation.	Preparation under way
Department of Rural Works of Jiangsu Province, Planning Commission of Anhui Province and Finance Bureau of Shandong Province	335.0 (Bank)/ (IDA)	(R) Irrigated Agriculture Intensification - To support a broad program of irrigation and drainage improvements, forestry shelter belts, crop varietal improvements, agricultural input supplies, and intensified agricultural services for 1.1 million ha of the North China Plain in three provinces (Jiangsu, Anhui and Shandong). <u>Environmental aspects: control and monitoring of existing water pollution; management of silt retention basins.</u> <u>Environmental Assessment Category B.</u>	Consultant services will be required to: (a) plan and design monitor/control system for irrigation water transfer and supply in the Grand Canal, Jiangsu Province; and (b) to conduct workshops on groundwater modeling techniques in Shandong and a series of agricultural topics.	Negotiations tentatively scheduled for March <u>Retroactive financing US\$15.0 million requested for earthworks, small structures, land improvement, on-farm works and afforestation carried out by farmer from November 1, 1990 signing of Loan/Credit Agreement.</u>
Xinjiang Autonomous Region	125.0 (IDA)	(R) Tarim Basin (formerly Tarim Irrigation) - upgrading of 120,000 ha of oasis irrigation in the Tarim Basin of Xinjiang, and reclamation and irrigation of 80,000 ha of desert wasteland facilitated by water savings in existing systems, for production of cotton, wheat, fodder, fruit, vegetables, oil seeds and timber. <u>Project includes a component to guarantee essential flow of Tarim River and associated desert ecology. Environmental assessment report has been received from the Government and is presently being reviewed. Environmental Assessment Category A.</u>	Consultants may be required in drainage and salinity monitoring.	Appraisal report under preparation. <u>Retroactive financing be requested for up to \$10 million for preparatory works.</u>
Ministry of Machinery and Electronics Industry	150.0 (Bank)	Fertilizer and General Process Equipment Manufacturing - Restructuring of the fertilizer and general process equipment manufacturing industry and selected enterprises to enable them to upgrade their products and improve their efficiency. <u>Environmental Assessment Category B.</u>	Consultants will be required for project preparation and related sector study for which the terms of reference have been finalized. Invitations for proposals are expected to be issued shortly.	Preparation under way
Beijing Municipal Environmental Protection Bureau	100.0 (Bank)/ (IDA)	(R) Beijing Environment - Physical works and institutional strengthening to address air and water pollution solid waste and hazardous waste problems in Beijing city arising from industrial and domestic wastewater, solid and toxic wastes discharges and burning of low grade coal. <u>Project will assist municipality to strengthen environmental policies and pollution control.</u> <u>Environmental Assessment Category D.</u>	Consultants may be required to assist in detailed design and preparation of contract documents.	Appraisal mission in field.

CHINA (Cont'd)				
Zhejiang Province Communications Department	350.0 (Bank)/ (IDA)	Zhejiang Provincial Highway - Provincial transport, including Hangzhou-Ningbo Highway. <u>Environmental Assessment Category A.</u>	Consultants will be recruited for the review of highway design and construction supervision.	Preparation under way. <u>Retroactive financing about US\$4.0 million expenditures on design and the initial cost construction of a section of the highway requested.</u>
Guangdong Provincial Government/ Guangzhou Municipal Government	160.0 (IDA)	Guangdong Agriculture Development - Includes development of marine fishing within 200 mile Extended Economic Zone, aquaculture, mariculture, land reclamation, fruit development, and agroprocessing. <u>Environmental Impact Assessment being translated for Bank review. Environmental Assessment Category B.</u>	To be determined.	Appraisal mission in field.
Ministry of Energy	300.0 (Bank)	Zouxian Thermal Power - Construction of two generating units of 600 MW each and associated transmission lines and substations, and technical assistance including technical assistance for a study of air quality impact of thermal power plants in China's coastal region. Environmental impact statement has been reviewed by the Bank. The analysis indicated that the project will meet World Bank's guidelines and all applicable Chinese environmental norms. <u>Environmental Assessment Category A.</u>	Consultants are already in place.	Appraisal report under preparation. <u>Procurement: Advance procurement required boilers and auxiliary turbine auxiliaries, other electrical and mechanical equipment two 600-MW coal-fire generating units.</u>
Ministry of Energy	200.0 (Bank)	Shuikou Hydro Power II - Second phase construction of dam and powerhouse. <u>Program to enhance resettlement and environmental management are currently being executed under the existing loan. Environmental Assessment Category A.</u>	Consultants advisory services will be required.	Preparation under way
Shanghai Municipal Government	60.0 (IDA)	(R) Shanghai Metropolitan Transport - Urban transport project in metropolitan area of Shanghai to relieve key bottlenecks and improve transport system. <u>Environmental Assessment Category A.</u>	Consultants have been engaged to finalize bidding documents.	Negotiations date to be determined.

Lending Agency	Amount & Probable Lender	Project	Consulting Services	Stage of Processing and Action on Procurement
NA (not'd)				
Liaoning Provincial Government/Municipal Governments of Shenyang, Yingkou and Fuxin	70.0 (IDA)	(R) Liaoning Urban - First stage of program to improve urban conditions in cities in Liaoning; consists of physical and institutional strengthening work for water supply in the cities of Shenyang, Yingkou and Fuxin and works to improve urban transport in the city of Shenyang. <u>Environmental Assessment Category B.</u>	Consultants have been engaged to assist in detailed design and preparation on bidding documents. Work has now been completed.	Negotiations completed. Board presentation to be determined. <u>Procurement: Advance procurement required for 5 contracts with a total value of \$57.0 million. Contracts for pipe material procurement and road improvement works awarded.</u> <u>Retroactive financing of up to \$7.0 million has been proposed.</u>
Tianjin Municipal Government	100.0 (IDA)	Tianjin Urban - To improve municipal planning, environmental sanitation, and transport. <u>Environmental Assessment Category B.</u>	Consultants assistance required for preparation of detailed design and bid documents.	Appraisal mission tentatively scheduled for April 19, 1991.
Shanghai Municipal Government	100.0 (IDA)	Shanghai Environmental - Continuing program to improve water supply sewerage and environmental pollution control in the city of Shanghai. <u>Environmental Assessment Category D.</u>	Consultants required for project preparation.	Scope of project under discussion.
Shanghai Administration for Building Materials Industry	79.9 (Bank)	(R) Cement - To establish a new high strength cement plant based on regional cooperation in the Shanghai Economic Region; rehabilitate an existing cement plant and provide technical assistance for design and research capabilities of local cement-related institutes. <u>Plant design changes have been agreed to enhance de-dusting capacities to meet stricter environmental standards. Agreement has been obtained that asbestos cement will not be used for plant construction. Environmental Assessment Category A.</u>	Consultants have provided technical assistance for engineering design.	Post-appraisal mission in the field. <u>Procurement: Key tender packages will be issued soon.</u> <u>Retroactive financing requirement is being estimated during post-appraisal mission.</u>
Ministry of Energy	180.0 (Bank)	Yanshi Thermal Power (formerly Yanshi Power) - Assist in construction of 2 x 300 MW coal-fired thermal power units located at Yanshi in the vicinity of coal mines in Henan province. <u>Project design conforms to internationally accepted environmental norms. Agreement has been reached that the owner will take appropriate steps to implement an environmental program agreed with the Bank. Environmental Assessment Category A.</u>	Consultants are in place.	Documents circulated to the Executive Directors on May 25, 1989. Date of Board presentation to be determined. <u>Procurement: Advance procurement is in process for steam turbine generators and boilers for two 300 MW coal fired generating units.</u>

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
CHINA (Cont'd)				
Hainan Electric Power Company	67.0 (Bank)/ (IDA)	Daguangba Multipurpose - Provide power, irrigation and improved water supply to economically backward southwest area of Hainan Island. In addition, technical assistance and training will be provided. <u>Project includes programs to enhance resettlement and environmental activities. Environmental Assessment Category A.</u>	Consulting services for technical assistance will be required.	Negotiations complete. Date of Board presentation to be determined. <u>Advance Procurement expected for urgent needed materials (cement and timber) consulting services</u> <u>Retroactive financing up to US\$6.7 million been requested.</u>
Urban Development Project Office of Zhejiang Province	150.0 (IDA)	Zhejiang Multi-Cities - Provision of urban services, in particular water supply and wastewater treatment, reduce environmental pollution, implement new land development schemes in Shaoxing city, improve public transport and traffic management in Hangzhou, improve institutional strength and financial performance in urban services. <u>Environmental Assessment Category B.</u>	Infrastructure and urban consultants submitted their interim reports. Consultant services will be required for technical assistance.	First Phase of consultants' review the feasibility study completed. Interim reports have been reviewed. Second Phase of consultants' work commence in spring.
Ertan Hydroelectric Development Corp (EHDC)	380.0 (Bank)	Ertan Hydro Power - Construction of a 240 m high dam with 3300 MW power station, a log conveyance system, resettlement of 30,000 people, and an environmental science station. The principal objectives of the project are to alleviate the severe power shortage in Sichuan Province and to promote institutional/ financial development of EHDC. <u>A satisfactory environmental assessment has been completed. A program to resettle about 30,000 people will be executed according to criteria satisfactory to the Bank. Environmental Assessment Category A.</u>	Consultants for assistance on procurement have been appointed. Consulting services for electro-mechanical equipment, construction management and system studies will be required.	Appraisal report completed. Negotiations date to be determined. <u>Advance Procurement civil works started, evaluation under way</u>
Municipal Governments of Changzhou, Luoyang and Shashi	168.4 (Bank)/ (IDA)	(R) Medium-Size Cities Integrated Development - Consists of the design and implementation of a planning system and the financing of urban infrastructure works designed to improve urban planning capability, implementation coordination and cost recovery across subsectors. <u>Environmental Assessment Category B.</u>	Project implementation has begun and consultants have been recruited. Consulting services for technical assistance will be required.	Approved by the Executive Directors on January 1991. Loan/Credit signed on January 30, 1991. <u>Retroactive financing \$16 million for eligible expenditures approved from May 1, 1989.</u>
State Education Commission, Chinese Academy of Sciences	120.0 (IDA)	(R) Key Studies Development - To support about 130 laboratories in key universities and research institutes under the China Academy of Sciences in science and technology which are important to China's development during the Eighth Five-Year Plan period (1991-95). <u>Environmental Assessment Category C.</u>	Consultants are likely to be required for technical assistance and training.	Board presentation scheduled for February 26, 1991.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
NA (not'd)				
Jiangsu Province	100.0 (Bank)	(R) Jiangsu Chemical Sector - Support development of provincial chemical industry, including associated institution building. <u>All subprojects will be subject to government of China's environmental impact assessment process which is satisfactory. Project will also establish a center to oversee hazardous and toxic waste management in Jiangsu. Environmental Assessment Category B.</u>	Consultants have been hired to assist in technology identification. Consultants are being recruited for various technical assistance activities.	Post-appraisal mission in the field.
Shanghai Municipal Finance Bureau	150.0 (Bank)	(R) Shanghai Industrial Development - To help provincial government with preparation and implementation of its overall industrial strategy including subsector development plans in a selected number of electronic, optical, electrical and printing and packaging enterprises together with associated institution building. <u>The financial intermediaries will assess the environmental impact of all subsector projects and ensure that they meet Bank standards. Environmental Assessment Category B.</u>	Two consulting companies prepared sub-sector development plans. The same firms will be used during project implementation to provide management assistance to the subsectors under the projects.	Approved by the Executive Directors on January 29, 1991. <u>The Shanghai Municipal Government has requested retroactive financing for \$5.0 million for cover costs incurred after March 15, 1989, for consultancy services, travel abroad and for acquiring foreign technology.</u>
Ministry of Finance	300.0 (Bank)	Finance I - Loan for development of two major financial institutions (Bank of Communications and Construction Bank of China); and technical assistance to the Ministry of Finance. <u>Environmental Assessment Category C.</u>	To be determined.	Project preparation delayed, pending the preparation of a technical assistance project for People's Bank of China.
Ministry of Railways (MOR)	350.0 (Bank)	Railway V - (a) To contribute to MOR's capacity expansion with two infrastructure components, the doubling of the Zhegan line and the expansion of the Xuzhou marshalling yards; (b) to improve maintenance practices with two system-wide components for permanent way and locomotives/rolling stock; (c) to carry out studies and prepare action plans for future investments in permanent way and locomotive/rolling stock maintenance, electrification and telecommunications; and (d) to carry out the Railway Investment Study. <u>Environmental Assessment Category B.</u>	Consulting services required for construction supervision.	Negotiations date to be determined.
Jiangsu Provincial Communications Department	150.0 (Bank/ IDA)	Jiangsu Provincial Transport - To rehabilitate canal and road network in Jiangsu Province; to build bridges and ship locks; to carry out a Transport Corridor Study; to develop transport construction units; and technical assistance for transport planning, budgeting and design work. <u>Environmental Assessment Category B.</u>	Consultant services required for construction supervision.	Negotiations completed. Date of Board presentation to be determined. <u>Retroactive financing of about US\$15.0 million is proposed.</u>

INDIA				
Govt. of Karnataka and Rajasthan	20.0 (Bank) 180.0 (IDA)	(R) Agriculture Development II - Promote improved strategy for development and rationalization of public expenditures in agriculture in Karnataka and Rajasthan. Help finance specific priority investments consistent with an acceptable agricultural strategy. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Preparation to be carried out by state government
West Bengal Forest Department	58.5 (Bank)/ (IDA)	West Bengal Forest (Forestry II) - To initiate comprehensive approach to forest resource management in West Bengal in environmentally sound way, mainly in the field of afforestation, horticulture and silvi pasture development on degraded forest land; regeneration of degraded sal forests, wildlife sanctuary improvements; farm forestry; nursery development; seed production, and adaptive forestry research. would include vegetative soil and moisture conservation measures. Institutional strengthening provided to rationalize forest administration, support NGO's and strengthen the village level Forest Protection Committees. Improvements in monitoring forest resources and improving production/marketing linkages between the forest department, farm forest producers and wood industries. <u>Environmental Assessment Category D.</u>	Consultants being financed by Japanese Grant.	Project being prepared by consultants.
Department of Rural Development, Government of India	About 70.0 (IDA)	Karnataka Rural Water Supply & Environmental Sanitation - Would improve health and productivity in rural areas through provision of rural water supply, environmental sanitation and health education services in Maharashtra. <u>Project would focus on improving environmental sanitation.</u> <u>Environmental Assessment Category B.</u>	To be determined.	Preparation underway.
Ministry of Surface Transport	200.0 (Bank)	(R) Port Modernization - Project will focus on port modernization and productivity improvements with no major new construction works. <u>Environmental Assessment Category B.</u>	To be determined.	Preparatory study expected to start in spring 1991.
Ministry of Environment & Forests	200.0 (Bank/ IDA)	(R) Industrial Pollution Control II - Set up toxic and hazardous industrial waste treatment and disposal program. Other objectives include: a) pollution abatement in industry; b) training of technical personnel; and c) installation of environmental monitoring network. <u>Project would be specifically designed to control industrial pollution.</u> <u>Environmental Assessment Category D.</u>	To be determined.	Identification mission scheduled for April 1991 (Co-financing will be sought).

Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
d) EXIM Bank;	200.0 (Bank)	(R) Export Development II - To maintain and Strengthen efforts of exporters through coordinated efforts to: (a) further improve incentive framework and efficiency of the export administration system; (b) provide general lines of credit for financing investment in modernization and upgrading of export production; and (c) stimulate further specialization through technical assistance and infrastructure investment. <u>Environmental Assessment Category C.</u>	To be determined.	Preparation under way.
Ministry of Health and Family Welfare	200.0 (IDA)	(R) Health I (MCH) - Project would support national maternal-child health (MCH) program through support for equipment, supplies, training and management components. <u>Environmental Assessment Category C.</u>	No expatriate consultants required.	Preparation under way.
Resettlement, and Rehabilitation Department	125.0 (IDA)/ 75.00 (Bank)	Subernarekha Multi-Purpose II (Bihar) - A follow-up project to complete dam and canal construction; establish irrigation system for about 160,000 ha, support on farm development activities, provide agricultural support service, environmental protection, support some resettlement and rehabilitation activities for displaced families as a result of dam and canal construction, supply water for municipality and industrial use and generate hydropower for industrial use. <u>An environmental impact assessment will be prepared.</u> <u>Environmental Assessment Category A.</u>	To be determined.	Resettlement and rehabilitation issue resolved. Project preparation under way.
Ministry of Railways, and Transport	250.0 (Bank)	Railways Modernization IV - The project would support the efforts of Indian Railways to accelerate introduction and dissemination of more cost-efficient and less polluting locomotives and modern higher capacity freight wagons and coaches and to improve the efficiency of their production, maintenance and operation. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparation under way.
Ministry of Natural Resources	300.0 (Bank)	(R) Gas Flaring Reduction - To support efforts to eliminate flaring of associated gas in the Bombay High Oilfield. <u>Environmental Assessment Category B.</u>	To be determined.	Pre-appraisal completed.
To be determined	70.0 (Bank)	Mini Hydro Demonstration - Construction of about 45 mini hydro plants (for a total capacity of 150 MW) on existing irrigation canals. <u>Environmental Assessment Category B.</u>	No consultants required.	Project preparation under way.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Process: Action on Procurement
<u>INDIA</u> (Cont'd)				
Department of Education; Ministry of Human Resource Development; Department of Education, Government of Uttar Pradesh	200.0 (IDA)	First Primary Education - Project would be implemented in selected districts of Uttar Pradesh and would address issues of enrollment of girls and quality and efficiency improvement through teacher training, curriculum improvement, supply of materials, improvements in teacher utilization and low-cost school construction. Estimated project cost US\$370 million. <u>Environmental Assessment Category C.</u>	No expatriate consultants required.	Project preparatory way.
Tamil Nadu Newsprint and Paper Limited (TNPL)	100.0 (Bank)	(R) Tamil Nadu Reforestation and Bagasse Paper (formerly Bagasse Newsprint and Paper) - Would finance part of forest plantation to cover wood needs of cellulose industry in Tamil Nadu (which would cut supply from natural forest), and foreign exchange cost of expansion of TNPL's plant for bagasse-based newsprint. <u>Environmental Assessment Category A.</u>	To be determined.	Paper plant feasibility study in progress. Plantation feasibility study to begin.
Departments of Women and Child Developments; Governments of India and Madhya Pradesh; Department of Welfare, Government of Bihar	170.0 (IDA)	(R) Integrated Child Development Services II - Project would aim to improve health and nutritional status of pre-school children, pregnant women and lactating mothers by means of improved health services, nutritional supplementation and health education through the Integrated Child Development Services Program. <u>Environmental Assessment Category C.</u>	No expatriate consultants required.	Pre-appraisal mission scheduled for September 1991.
Municipal Health Departments of Hyderabad, Calcutta, Bangalore, Ahmadabad, Kanpur and other cities	100.00 (IDA)	Population VIII - Project would support strengthening of family welfare (family planning and maternal-child health) services in slum areas of municipalities through establishment and staffing of urban health posts and support for training, communication and improved management components under the family welfare urban revamping scheme. <u>Environmental Assessment Category C.</u>	No expatriate consultants required.	Preparation mission scheduled for March 1991.
Ministry of Human Resources Development, Government of India; Departments of Education, States of Andhra Pradesh, Maharashtra, Tamil Nadu, West Bengal, Panjab, Haryana, Assam and Himadral Pradesh and Union Territory of Delhi	32.8 (Bank); 274.3 (IDA)	(R) Technical Education II - Project would include capacity expansion of existing and construction of some new polytechnics; modernization of polytechnic equipment and facilities; and training and institutional strengthening in eight States and one union territory. <u>Project cost is estimated at US\$362.1 million. Environmental Assessment Category C.</u>	To be determined.	Negotiations complete. Board presentation scheduled for March 1991.

Parent Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4

Housing Development Finance Corporation	150.0 (Bank)	Housing Development Finance Corporation II - Project would provide support for market-oriented housing finance; and would support development of a regulatory framework to promote financial integrity in housing finance institutions and enhance their ability to mobilize resources at market rates. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparation under way.
National Thermal Power Corporation	250.0 (Bank)	NTPC Gas Based Generation - The proposed project comprises one or more combined cycle generating plants utilizing natural gas. Total project cost estimated at US\$700.0 million. <u>Environmental Assessment: To Be Determined.</u>	To be determined.	Content and scope of project still to be defined.
Madras Municipal Water Supply and Sanitation Board (Tamil Nadu)	200.0 (IDA)/ (Bank)	(R) Madras Water Supply and Sanitation II - Project would support major expansion of water supply and extension and operational improvements of sewage collection and disposal. It would also finance an environmental sanitation program and institutional development. <u>Environmental Assessment Category B.</u>	To be determined.	Preparation under way.
National Hydroelectric Power Corporation	200.0 (Bank)	Baglihar Hydroelectric - Project would comprise a 450 MW hydroelectric power plant on the river Chenab in the state of Jammu and Kashmir. <u>Environmental Assessment Category A.</u>	To be determined.	Preparation under way.
Municipal Corporation of Mumbai	100.0 (Bank)	(R) Bombay Sewage Disposal - Would finance construction of two 3-km marine outfalls and two aerated lagoons. Technical assistance would be included for construction supervision. Total project cost estimated at \$143.0 million. <u>Environmental Assessment Category A.</u>	Expatriate consultants have been retained to assist with project preparation.	Appraisal mission planned for March 1992.
Steel Authority of India, Ltd (SAIL)	150.0 (Bank)	Steel Energy Conservation and Pollution Control (formerly Steel Marketing Distribution) - To assist SAIL's effort to improve its energy consumption to international standards and address the major pollution problem in steel making. Would also address major policy constraints facing the steel sector. <u>Environmental Assessment: To Be Determined.</u>	To be determined.	Preparation mission scheduled for mid-March 1991.
As determined	300.0 (Bank)	(R) Financial Intermediation/DFI (formerly Industrial Finance II) - Loan to support the strengthening of development finance institutions by helping them to restore their problem portfolio, and implement prudential guidelines to ensure future health, autonomy and competition within the sector. <u>Environmental Assessment Category B.</u>	To be determined.	Pre-appraisal mission in the field.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Process Action on Procurement
INDIA (Cont'd)				
Gas Authority of India Limited	125.0 (Bank)	Bombay Gas Development - The scope of the project under discussion with the government. <u>Environmental Assessment Category B.</u>	To be determined.	Further processing awaiting government approval.
To be determined	150.0 (IDA)	(R) Narmada River Basin Development - Assistance for catchment treatment (watershed development) in the Sardar Sarovar project catchment area, mainly in Madhya Pradesh (M.P.) but also Gujarat and possibly Maharashtra; assistance for catchment treatment in the upper Narmada basin in Madhya Pradesh. Assistance for fisheries development in the Sardar Sarovar reservoir on the Narmada river in the Narmada estuary and the Sardar Sarovar command area. Assistance for management and preservation of wildlife sanctuaries in Gujarat. <u>Technical assistance for training and basin wide environmental management. Environmental Assessment Category D.</u>	To be determined.	Pre-appraisal mission in the field.
Department of Forestry of Maharashtra State Government	150.0 (IDA)	(R) Maharashtra State Forestry - To initiate a comprehensive approach to forestry resource management in an environmentally sound way in the Maharashtra State. <u>The project would not be subject to a separate environmental assessment. Environmental Assessment Category D.</u>	To be determined.	Final preparation mission in the field.
Indian Council for Agricultural Research (ICAR)	100.0 (IDA)	Agricultural Research III - To assist further development of agricultural research by improving management systems, increased devolution and extensive laboratory re-equipping. <u>Environmental Assessment Category C.</u>	To be determined.	Project preparation on hold while the need for a third research project is being re-evaluated.
Department of Rural Development, Government of India	10.0 (Bank)/ 97.5 (IDA)	(R) Maharashtra Rural Water Supply & Environmental Sanitation - Project would improve health and productivity in rural areas through provision of rural water supply, environmental sanitation and health education services in Maharashtra. Total project cost about \$124.0 million. <u>Project would focus on improving environmental sanitation. Environmental Assessment Category B.</u>	No expatriate consultants required.	Appraisal completed. Negotiations scheduled for February 25, 1991. <u>Retroactive financing approximately US\$5.0 million is expected.</u>
Government of Orissa, Department of Irrigation	About 155.4 (Bank) 24.6 (IDA)	Subarnarekha (Orissa) Irrigation - To develop a new irrigation system of about 100,000 ha including the construction of three buffer reservoirs, major and distributory canals, field channels, on-farm development and to provide additional agricultural support services, improved irrigation water management, and environmental protection works. <u>An environmental impact assessment is under preparation. Environmental Assessment Category A.</u>	To be determined.	Appraisal mission tentatively scheduled April 1991.

Ministry of Culture & Sports	20.0 (IDA)	(R) National Forestry Management and Conservation (formerly Forestry Subsector) - To support recommendations of Tropical Forestry Action Plan, including development of improved legislative and institutional framework for the forestry sector; completion of forest resource inventory work; strengthening of forestry and wood industry management; and implementation of forest resource protection and watershed management programs. <u>Environmental Assessment Category D.</u>	To be determined.	Pre-appraisal mission in the field.
Ministry of Education and Sports	20.0 (IDA)	(R) Education Reform - To respond to immediate needs for quality improvements in basic education through the urgently needed rehabilitation of school infrastructure and improvements of teaching and learning conditions in schools, to reduce teacher turnover and increase students' achievement and retention. It would also lay the groundwork for a comprehensive reform of the sector. <u>Environmental Assessment Category C.</u>	Consultants will be required for preparation and implementation.	Pre-appraisal mission scheduled for February 18, 1991. Japan grant facility agreement for project preparation. Was signed on February 6, 1991. (Co-financing is being explored with UNICEF and the French, Japanese, Swedish, Swiss and Canadian governments). <u>Retroactive financing is likely to be needed in early 1991.</u>
Ministry of Health Social Welfare	10.0 (IDA)	(R) First Health - To reduce the high incidence of preventable communicable diseases in three priority provinces and increase the efficiency of health services delivery through strengthening selected provincial and district systems and infrastructure. It would also adapt training curricula to health needs and strengthen the government's capability to formulate, analyze and implement health policies. <u>Environmental Assessment Category C.</u>	Consulting services required for preparing and implementing the project.	Project preparation under way. Japan grant facility has been approved for project preparation. (Co-financing to be sought for implementation.)
Ministry of Transport, Construction, & Communications	45.0 (IDA)	(R) Highways Improvement - Improvements to National Route 13 between Savannakhet and Nam Kading and road maintenance components. The project consists of road rehabilitation and maintenance. <u>Upgrading to paved standard would reduce dust and improve drainage so the overall effect on the environment will be positive.</u> <u>Environmental Assessment Category B.</u>	Consulting services will be required for construction supervision and technical assistance to road maintenance. Previously engaged consultants are expected to continue construction supervision.	Negotiations completed. Board presentation scheduled for March 21, 1991. (Co-financing from Nordic Development Fund secured.)

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>MALAYSIA</u>				
Ministry of National and Rural Development	30.0 (Bank)	(N) Nonformal Education and Training (NFET) - To assist the Government to build up a national institutional capability for developing and implementing NFET, and to support selected priority social programs targeted at urban and rural poor, less-educated women, and unemployed school drop-outs.	To be determined.	Preparation mission scheduled for February 26, 1991.
Tenaga Nasional Berhad (TNB)	200.0 (Bank)	(R) Power System Development - Would involve financing a time slice of the Tenaga Nasional Berhad's (TNB) investment in power generation and transmission in the period FY91-93. <u>Environmental Assessment Category A.</u>	To be determined.	Appraisal mission in field.
Federal Land Consolidation and Rehabilitation Authority (FELCRA)	75.0 (Bank)	(R) Third FELCRA Land Development - Time slice financing of most of FELCRA's program including the rehabilitation of low yielding small farms with tree crops under group farming arrangements for the benefit of modern production technology and management systems, the construction of oil palm processing mills and the promotion of small farmer entrepreneurship. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparation way.
Ministry of Health and Chemistry Department of Science, Technology and Environment	40.0 (Bank)	Health Development - To improve the capacity to monitor environmental health and infectious diseases, enhance equity in access to health development through primary health care, support health development through use of appropriate health technology, and to strengthen Ministry of Health's institutional capacity through management and personnel training, health technology assessment and quality assurance, occupational health and other policy development. <u>Environmental Assessment Category C.</u>	Consultants required for project preparation and implementation.	Project preparation way. Japan T.A. grant facility has been approved for project preparation.
Ministry of Agriculture, through Department of Irrigation and Drainage	30.0 (Bank)	Drainage and Flood Mitigation - Time slice of national drainage program, covering 5-8 schemes throughout Malaysia, and including infrastructural investments and related agricultural development, as well as institutional strengthening of the drainage and irrigation department. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparation way. Japan T.A. grant facility has committed funds for preparation assistance).

<u>ASIA</u> (t'd)				
Ministry of Education	100.0 (Bank)	(R) Primary and Secondary Education III - Improve quality of education, increase managerial efficiency, improve access to better education. Reinforce and complement ongoing projects through addition of project processing resources; additional schools, and state and school resource centers; new teacher training colleges; establishment of an effective educational technology network; strengthening of school-based evaluation; expansion of teaching and managerial staff development program; and studies on major sectoral issues. <u>Environmental Assessment Category C.</u>	To be determined.	Pre-appraisal mission scheduled for May 1991.
Sabah Forestry Department (SFD) Sabah Forest Development Authority (SAFODA)	30.0 (Bank)	Sabah Forestry II - Follow-on to the Sabah Forestry Technical Assistance project. The project would support institution building in the Sabah Forestry Department by augmenting its capacity in research, sustainable management of natural forests, plantation development, and in design and enforcement of regulations to conserve natural resources. The project would also reforest about 35,000 ha of cleared land and support commercial tree growing by smallholders and shifting cultivators to supply an identified market. <u>Environmental Assessment Category A.</u>	Consulting services required for project environmental studies.	Appraisal report under preparation. Japan technical assistance grant facility has committed funds for preparation assistance. (Co-financing by the Commonwealth Development Corporation under discussion).
<u>AFES</u>				
Trading, Investment, Services	5.0 (IDA)	(R) Fisheries III - Support the fisheries sector through: (a) construction and provision of equipment and support facilities for a fish freezing/cold storage complex; (b) construction of port facilities for and provision of collector vessels; (c) provision for improving tuna fish stock assessment; (d) technical assistance to develop and start-up the proposed cold storage complex, and for institutional strengthening, and to encourage increased private sector participation in the fisheries sector. <u>Environmental Assessment Category B.</u>	Consultant services will be required for detailed design of project post and fish freezing/cold storage plant.	Appraisal scheduled for late March 1991, subject to closing financial gap. (Co-financing from Nordic Development Fund (NDF) and possibly Saudi Fund, Kuwait Fund for Arab Economic Development (KFAED) and NORAD).
Ministry of Agriculture	13.0 (IDA)	Agriculture Research - (a) Strengthen research outreach program with special emphasis on regional research stations and on upland farming; (b) strengthen key commodity research program as well as priority disciplinary research; (c) support pilot efforts to promote crop diversification and agro-business opportunities. <u>Environmental Assessment Category C.</u>	To be determined.	Preparation under way.

NEPAL (Cont'd)				
Nepal Telecommunications Corporation	35.0 (IDA)	Telecommunications V - Includes 50,000 local telephone lines, rural transmission to 26 districts, outside plant network, main trunk network. Total cost US\$120 million of which US\$100 million in foreign exchange. <u>No major environmental impact.</u> <u>Environmental Assessment Category C.</u>	To be determined.	Project preparatory way. (Co-financing from FINNIDA, Japan International Coop Agency (JICA), and and possibly from and Belgium Govern
Nepal Electricity Authority	60.0 (IDA)	(R) Power Sector Efficiency - Consists of components aimed at rehabilitation/upgrading of the Nepal interconnected system (generation, transmission and distribution as well as continue institutional strengthening of the Nepal Electricity Authority (NEA)). <u>Because the proposed project will be primarily confined to upgrading the efficiency of the existing system, it is not expected to have major environmental impacts; the Marsyangdi Watershed Management component would assist in improving environmental management of the Marsyangdi water shed.</u> <u>Environmental Assessment Category B/D.</u>	To be determined.	Negotiations tentatively scheduled for mid-1991.
Department of Irrigation	60.0 (IDA)	Irrigation Sector - To (a) construct small and medium farmer managed surface schemes and rehabilitate existing farmer managed surface schemes in the Hills and Terai areas; (b) construct farmer-group managed groundwater schemes on the Terai; (c) institutional development support. <u>Environmental Assessment Category B.</u>	Consulting services to be provided by individual consultants financed under an ongoing UNDP project.	Project preparation way.
Ministry of Education and Culture	30.0 (IDA)	(R) Basic and Primary Education - To continue support to primary education and non-formal education. <u>Environmental Assessment Category C.</u>	To be determined.	Pre-appraisal mission tentatively scheduled mid-March 1991.
Ministry of Health	15.0 (IDA)	(R) Population and Health - To improve health conditions and reduce population growth by strengthening of family planning and maternal child health programs. <u>Environmental Assessment Category C.</u>	To be determined.	Pre-appraisal mission tentatively scheduled April 1991.

Parent Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
Water Supply Operation	60.0 (IDA)	(R) Urban Water Supply and Sanitation Rehabilitation - First in a series of projects in a 15-year program comprising water supply, operational and management improvements, rehabilitation, source development and sewerage and appropriate sanitation for urban and peri urban areas. Likely components to include: (a) rehabilitation and improvements of distribution network and treatment plants and pumping stations; (b) reduction of unaccounted for water; (c) ground water treatment; and (d) financial management and operational improvements; and (e) technical assistance including detailed design and tender document preparation. Total project cost US\$69.5 million of which US\$50.0 in foreign exchange. <u>Rehabilitation of the sewer system including the treatment facility and on-site sanitation proposals would have positive environmental impact.</u> <u>Environmental Assessment Category B.</u>	Contract was extended to complete preparation activities. Consultants are about to be retained for detailed design and supervision of project.	Board presentation scheduled for April 30, 1991 pending fulfillment of Board conditions. (Co-financing from UNDP of US\$3.1 million. Japanese co-financing of about US\$15.0 million secured; and Norway co-financing of US\$2.0 million possible.) Pre-qualification of international contractors is under way. A PPF advance of US\$1.5 million has been approved. <u>Retroactive financing amounting to US\$3.0 million is proposed.</u>
Country of Works Transport; Transport Operation (NTC)	22.0 (IDA)	Multimodal Transport - Will focus on introduction of intermodal container services and will implement administrative/operational improvement measures and training programs for improved transit management. Project components are: procurement of container chassis, trucks, handling equipment, construction of combined container terminal, technical assistance, and training. Total project cost estimated at \$26.0 million. <u>Environmental impact is expected to be insignificant. Environmental Assessment Category C.</u>	All consultancy activities have been suspended.	Trade and Transit Treaty with India has delayed project processing. Project will need to be re-appraised when this issue is resolved.
Development of	25.0 (IDA)	Financial Institution Development -To support the formulation and financing of industrial development programs of high priority, and to develop a more viable and competitive industrial financing system. <u>Environmental Assessment Category C.</u>	Consultants may be required. More information on consultant requirements will be known at a later date.	Appraisal report under preparation.
Country of Culture	25.0 (IDA)	(R) Third Agriculture Extension and Adaptive Research - (a) Increase agricultural, horticultural and livestock production; (b) Improve institutional framework of extension; (c) integrate extension services for agriculture, horticulture and livestock production at field level; and (d) strengthen extension/research linkage in the Terai and Western Hill regions of Nepal. <u>Environmental Assessment Category C.</u>	To be determined.	Project in abeyance pending agreement with Government on extension strategy.

<u>IPPINES</u>				
rtment of nce	150.0 (Bank)	(N) Privatization and Corporate Restructuring - Would facilitate the privatization of several large government corporations by restructuring their finances (including debt buy-back), and would strengthen the performances and efficiency of remaining government corporations. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Preparation mission scheduled for March 1991.
rtment of nce	40.0 (Bank)	(N) Tax Computerization Study - Would improve administration of all taxes in the Philippines by establishing an integrated, computerized tax system. <u>Environmental Assessment Category: To Be Determined.</u>	An ADB grant will finance initial studies by consultants.	IMF Technical Assistance mission completed.
rtment of th	30.0 (Bank)	(N) Urban Health and Nutrition - To assist the Government to expand and improve public health and nutrition services for high-risk urban slum dwellers, especially women and children, in Metro Manila, Cebu and Cagayan de Oro. <u>Environmental Assessment Category C.</u>	To be determined.	Project preparation under way.
onal gation nistration)	150.0 (Bank)	(N) Irrigation Operations Support II - Second Phase of nine-year operations and maintenance support program, with special emphasis on development of irrigation associations to assume direct responsibility for operations and management of parts of all major national systems. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Project identified.
rtment of ic Works and ways (DPWH)	100.0 (Bank)	Rural Infrastructure - To reduce poverty and accelerate development in the rural areas through: (a) provision of basic infrastructure (rural roads, minor drainages, etc.) through improved targeting of DPWH investments in line with the geographical distribution of poverty; and (b) employment generation in construction through increased civil works. <u>Environmental Assessment Category B.</u>	To be determined.	Project preparation under way.
rtment of ian Reform	25.0 (Bank)	(R) Land Reform Support/Nucleus Estate Development (formerly Land Reform/Nucleus Estate Development - To provide managerial, technical and financial assistance to smallholder beneficiaries of agrarian reform; as well as to smallholder outgrowers in the vicinity of estates to be transferred. <u>Environmental Assessment Category B.</u>	Consultants already appointed.	Project preparation under way.
nal rification nistration	80.0 (Bank)	Rural Electrification - Revitalization project to finance the uncovered portion of the Sector's investment program for 1992-94. The loan would include components for financing institutional development for NEA and the Rural Electric Coops (REC). <u>Environmental Assessment Category C.</u>	A consultancy for a rural electrification master plan has begun using USAID financing. The same consultancy will address accounting weaknesses in some 40 RECs. Other consultancies to be determined.	Appraisal mission scheduled for March 1, 1991.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>PHILIPPINES</u> (Cont'd)				
Department of Public Works and Highway (DPWH)	150.0 (Bank)	Highway Sector - Upgrade, rehabilitate, and strengthen 1200 km of arterial highways, provision of specialized equipment for road and bridge inspection and evaluation. Strengthen DPWH management of highway network. Strengthen environmental management and the construction industry. <u>Environmental Assessment Category B.</u>	To be determined.	Appraisal mission completed.
Department of Finance, Central Bank Agricultural Credit Policy Council, Land Bank of Philippines; Quedan Guarantee Fund Board; Guarantee Fund for Small and Medium Enterprises; Philippine Crop Insurance Corporation	150.0 (Bank)	(R) Rural Finance (formerly Rural Credit) - To support program of actions designed to increase flow of private commercial credit to the agricultural sector. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal mission scheduled for March 1991.
Department of Science and Technology	30.0 (Bank)	Technology Development - The project would stimulate more rapid technology development in industry through building links between key technology institutions and industry, and through creation and restructuring of key institutions in the technology infrastructure. <u>No adverse environmental effects. Environmental Assessment Category C.</u>	Consulting services required for (a) identification and analysis of appropriate ways of stimulating productivity improvement; and (b) more appropriate institutional arrangements and policies for industrial technology development.	Project preparation way.
Development Bank of the Philippines	175.0 (Bank)	Industrial Restructuring - Project would provide credit line to industrial sector, including special support to selected subsectors (cement, pulp and paper, textiles, shipping/ship repair). <u>Project involves strengthening the institutional framework for environmental protection through training and technical assistance. Environmental Assessment Category B.</u>	Consulting services required for training and technical assistance in selected subsectors and in environmental protection against industrial pollution.	Approved by the Executive Directors on January 1991. (Co-financing for training and technical assistance is needed. Export credits under Excel program sought
Development Bank of the Philippines; Department of Trade and Industry	15.0 (Bank)	(R) Cottage Enterprise Finance - The project would establish financial channels and investments to provide investment and working capital finance to cottage enterprises. <u>Environmental Assessment Category B.</u>	Consultant services will be required during project implementation to monitor, assist and establish mutual guarantee associations.	Negotiations completed Board presentation scheduled for March 1991.

Ministry of Economy; (National Agency for Cadastre (ANC); Conservation Financiere (CF))	25.0 (Bank)	Cadastre - Improve land registration system in urban as well as agricultural areas to foster the private investment and provide an improved basis for land taxation. <u>Environmental Assessment Category B.</u>	Consultants likely to be required for institution building purposes.	Project preparation way.
Ministry of Interior and Environment	100.0 (Bank)	Local Government Development - Strengthen local capacities in planning, budgeting and implementing investments in infrastructure, housing and environmental protection and public services; increase generation of local resources to reduce dependence on central government budget. <u>Environmental Assessment Category B.</u>	Consultants services are required to prepare a training program for each wilaya and to study the feasibility of investments in priority environmental sub-projects.	Project preparation way.
To be determined	250.0 (Bank)	Financial and Industrial Sector Reform - On the financial side, will strengthen the Central Bank's autonomy, introduce indirect instruments of monetary policy, restructure and recapitalize the banking system, while developing new financial instruments and policies. On the industrial side, reforms will aim at a more market-based incentive system, the restructuring of public enterprises and the promotion of private sector initiative. <u>Environmental Assessment Category C.</u>	Consultants are likely to be required to help with reforms in banking regulations and to undertake industrial restructuring studies.	Project preparation way.
To be determined	100.0 (Bank)	Education - Contribute to enhanced quality and efficiency in basic education by improving effectiveness in targetted institutions (grade schools and teacher training institutes). <u>Environmental Assessment Category C.</u>	To be determined.	Project preparation way.
Ministry of Agriculture	25.0 (Bank)	Forestry and Watershed Management - Pilot project to (a) design environmentally sound and technically appropriate forest management and exploitation techniques to be used in subsequent larger scale operations; (b) reduce operating costs and strengthen forestry institutions; and (c) prepare erosion control/land management program. <u>Nature conservation component will have a positive impact on the environment, especially El-Kala Wetland component. Environmental Assessment Category B.</u>	Consultants to be required.	Appraisal mission completed. El-Kala Wetland component to be financed by METAP and possibly by GEF (Global Environment Facility)

Donor Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>ERIA</u> (t'd)	To be determined 57.0 (Bank)	(R) Sahara Development - To assist government in defining and implementing an environmentally balanced water development plan of Northern Sahara; to strengthen organizations dealing with water management and control and to increase agricultural production through: (a) technical assistance and preparation of studies; (b) institution building; (c) rehabilitation of water extraction and distribution systems, and on farm development in existing oases. <u>Environmental benefits will result from improved drainage, integrated pest management practices, proper use of available water resources, and better water management. Environmental Assessment Category D.</u>	To be determined.	Negotiations expected by March 1991.
Ministere de l'Environnement et de l'Aménagement	20.0 (Bank)	Environmental Management - Provide technical assistance to strengthen the institutional framework for environmental management; provide assistance to industry for temporary storage of hazardous wastes and surveillance systems. Assist Government with establishment of water resource management system and water pollution surveillance. <u>Environmental Assessment Category B.</u>	Consultants required.	Project under preparation.
Ministry of Finance	250.0 (Bank)	Fiscal Adjustment and Trade Reform - To support implementation of fiscal reform and adjustment measures in concert with trade reform. Fiscal reform will focus on rationalizing direct and indirect taxes, linking capital and current expenditures, and introducing new Treasury financing instruments. Trade reform will focus on rationalizing tariffs and liberalizing foreign exchange allocation.	Consultants likely to be required.	Project under preparation.
Ministere de l'Agriculture et du Développement (BADR)	150.0 (Bank)	Agricultural Credit II - To extend line of credit for on-lending to private farmers; agroindustries and rural activities; consistent with the proposed Financial Sector Reform Loan; the project would be a vehicle for institution building and restructuring. <u>Environmental Assessment Category B.</u>	Consultants likely to be required.	Project under preparation.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>ALGERIA</u> (Cont'd)				
Ministry of Equipment	135.0 (Bank)	Highways VI - (a) improve Wilaya capabilities for road management and strengthen ME and Wilayas in program monitoring; (b) provide a more adequate balance between contracted and force account maintenance and foster increased competitiveness in the contracting of road works; and (c) rationalize transport sector planning and policy making. <u>Appropriate conditions would be incorporated in the standard tender and supervision documents covering drainage and erosion, cultural property, borrowing pits, and materials disposal. Environmental Assessment Category B.</u>	To be determined.	Project under preparation.
To be determined	200.0 (Bank)	Fertilizer and Petrochemical Restructuring - Restructuring of specific sub-sectors to be agreed upon on basis of on-going sector work. <u>Will have positive environmental impact through efficiency improvement. Project has an environmental protection investment component. Environmental Assessment Category A.</u>	To be determined.	Project under preparation.
Ministry of Transport	135.0 (Bank)	Urban Transport Enterprise - Expansion of the provision of bus services in main Algerian cities, through the: (a) achievement of an adequate balance of public and private participation; (b) rationalization of enterprises operating and management practices; (c) rehabilitation of existing bus fleets and acquisition of new buses; and (d) training and technical assistance for enterprise operations and financial management, and for the preparation of traffic management studies. <u>The project is foreseen to have a positive impact on the environment, mostly as a result of reduced engine emissions arising from improved operation and maintenance of the bus fleets. Environmental Assessment Category B.</u>	To be determined.	Project under identification.
Ministry of Agriculture	25.0 (Bank)	Farm Equipment Rehabilitation and Distribution - Establish a sustainable system for the import, distribution and sale of spare parts for agricultural equipment. <u>New equipment introduced under the project would be better adapted to Algerian conditions and would minimize soil erosion. Environmental Assessment Category C.</u>	Consultant services likely to be required.	Project under preparation.

Donor Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
ERIA				
nt'd)				
to be determined	125.0 (Bank)	(R) Construction Industry - Foster the efficiency of construction industry by improving its operational environment, extending credit for modernization investments, promoting private sector initiatives, supporting the preparation of enterprise restructuring programs, and developing training program for enterprise managers. <u>Ensure that investment projects financed by credit component take into account environmental concerns.</u> <u>Environmental Assessment Category B.</u>	Consulting services will be required to carry out industrial restructuring studies, and develop training programs.	Appraisal mission scheduled for March/April 1991.
to be determined	100.0 (Bank)	Cement Restructuring - Restructure cement industry through debottlenecking and other improvements to selected cement production units, technical assistance for management, operations and distribution. <u>Environmental Assessment Category B.</u>	Consultant needs have already been assessed.	Project preparation under way.
Centre Nationale de la Recherche, Production, le Sport, la Information et Commercialisation Hydrocarbures (NATRACH)	100.0 (Bank)	(R) First Petroleum - Provide technical assistance to SONATRACH for exploration promotion, technical training, and secondary oil recovery. <u>Will have positive environmental impact through efficiency improvements.</u> <u>Environmental Assessment Category B.</u>	Consultant services likely to be required.	Project dropped from the lending program. Further reporting will be discontinued.
Ministry of Health	16.0 (Bank)	(R) Pilot Public (formerly Health Management) - Improve health management system and planning. <u>Environmental Assessment Category C.</u>	Consultant services likely to be required.	Negotiations completed. Board presentation scheduled for March 5, 1991.
Ministry of Higher Education	65.0 (Bank)	University Development - Improve quality of output at selected universities, assist in sector management and planning. <u>Environmental Assessment Category C.</u>	Consultant services likely to be required.	Approved by the Executive Directors on November 6, 1990.
ARIA				
Ministry of Finance	About 250.0 (Bank)	(R) Structural Adjustment - Support of the Government's economic reform program. <u>Environmental Assessment Category C.</u>	To be determined	Appraisal mission in the field.
Ministry of Finance	About 25.0 (Bank)	(R) Technical Assistance - Support for the government's economic reform program, including assistance for enterprise restructuring and privatization, financial sector reform and strengthening of the social safety net. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal mission in the field. <u>Retroactive financing may be required.</u>

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>CYPRUS</u>				
Larnaca Sewerage and Drainage Board and others to be determined	About 30.0 (Bank)	Southeast Coast Sewerage and Drainage - Sewerage and drainage systems for coastal towns of Larnaca, Paralimni and Ayia Napa. <u>Environmental Assessment Category A.</u>	Consultants are carrying out feasibility studies.	Project preparation way. Appraisal tentatively scheduled mid-March 1991.
Ministry of Finance	300.0 (Bank)	(R) Industrial Financial Restructuring - Support for reform of industrial and financial sectors, line of credit for restructuring projects and technical assistance. <u>Environmental Assessment Category B.</u>	Consultant services may be required.	Negotiations scheduled for March 1991.
Electricity Authority of Cyprus (EAC)	60.0 (Bank)	(R) Electricity Generation - Increase power generating capacity, through financing first phase of investment program to construct coal-fired power plant at Vasilikos, including environmental impact study and technical assistance. Total project cost about \$274.0 million, of which \$191.0 million in foreign exchange. <u>Environmental Assessment Category A.</u>	Consulting services will be required to carry out a management and organization study of EAC and for construction management and other technical assistance. Consultants are carrying out the environmental impact assessment study.	Project content will be revised.
<u>CZECHOSLOVAKIA</u>				
To be determined	About 400.0 (Bank)	(R) Structural Adjustment Loan - Support for the Government's reform program. <u>Environmental Assessment Category C.</u>	To be determined	Preparation under way. Appraisal tentatively scheduled for end-March 1991. (Co-financing possible).
To be determined	About 60.0 (Bank)	(R) Technical and Financial Advisory Assistance (formerly Technical and Economic Advisory Assistance) - Provision of advisory services, training and equipment to Government agencies, State Bank, commercial banks and enterprises, focusing on priority requirements in selected sectors of the economy, as well as key activities needed to facilitate economic transformation, and for institutional development and strengthening. <u>Environmental Assessment Category C.</u>	Consultancy services will be required.	Appraisal under way.
To be determined	About 150.0 (Bank)	(R) Financial Rehabilitation - Scope to be determined; likely to support reform/restructuring of financial sector. <u>Environmental Assessment Category C.</u>	To be determined	Project preparation way. (Co-financing possible.)
To be determined	About 250.0 (Bank)	(R) Energy - Scope to be determined; likely to support rehabilitation of existing facilities, environment import mitigation and institutional development. <u>Environmental Assessment Category: To be Determined.</u>	To be determined	Project preparation way.

Host Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>SLOVAKIA</u>				
determined	About 200.0 (Bank)	Environment - Scope to be determined; likely to support Government in addressing priority environmental issues. <u>Environmental Assessment Category D.</u>	To be determined	Project identification under way.
determined	About 150.0	Small and Medium Enterprise - Scope of this operation to be determined; likely to support development of small and medium enterprises, including technical assistance. <u>Environmental Assessment Category: To be determined.</u>	To be determined	Identification underway.
<u>ARAB REPUBLIC OF</u>				
Economic Public Utility for Water Projects	About 50.0 (Bank)	(R) National Drainage Program - The ten-year program will cover about 2.1 m feddans of tile drainage; remodelling of open drains, rehabilitation of tile drainage networks of about 0.6 m feddans, provision of auxiliary equipment and rehabilitation of PVC pipe factories; and technical assistance for design, research and training. <u>The project does not pose any environmental hazard to the region or the country. Potential negative environmental impact will be addressed by FAO/CP preparation team. Environmental Assessment Category B.</u>	Consulting services likely to be required.	Project preparation under way. FAO/CP expected to submit final preparation report by end-February 1991. (Co-financing will be sought).
Economic Utility	65.0 (Bank)	Energy Development (Kureimat) - Project will likely consist of the first unit for a proposed 2x600 MW dual-fired (fuel oil and natural gas) power plant at Kureimat. <u>Environmental Assessment Category A.</u>	Consultants will be required for design and construction supervision.	Feasibility study completed. Project preparation under way. (Co-financing will be required).
Economic Utility Investment	40.0 (Bank)	Gas Investment I - Likely to include extension of gas distribution system in Greater Cairo, gas processing and pipeline facilities for the Gulf of Suez area. <u>Environmental Assessment Category: To be determined.</u>	Consultants will likely be required for a feasibility study for an ethylene polyethylene plant feasibility.	Appraisal report under preparation. (Co-financing will be sought).
Minister's	To be determined	Social Fund - Program of emergency actions (training; micro enterprise creation; labor-intensive public works including some to improve the environment) to protect most vulnerable from effects of adjustment, as well as returnees from the Gulf. <u>Environmental Assessment Category C.</u>	Consultants would be required for studies on key socio-economic issues.	Project preparation under way. (Co-financing would be sought).

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
<u>EGYPT, ARAB REPUBLIC OF</u> (Cont'd)				
Building Materials Organization	About 65.0 (Bank)	Industrial Restructuring II (Cement) - Debottlenecking and modernization at 4 cement plants, training and environmental protection components and policy reforms covering pricing distribution and management. Total project cost about \$200.0 million, of which foreign exchange would be about \$140.0 million. <u>Environmental Assessment Category B.</u>	Consultants are already involved in project preparation activities. Consulting services for project implementation and further policy studies may be required.	Technical audits to identify investment options at plants r under way, and part environmental prepa completed through F financed study. Preparation of trai component under way market studies and further environment programs will be re prior to appraisal. (Co-financing would sought).
Ministry of Agriculture and Land Reclamation	About 40.0 (Bank)	West Nubaria Agriculture Intensification - Intensify crop production, raise yields, and introduce oilseed crops in West Nubaria reclaimed lands. <u>Social and environmental impact positive. Environmental Assessment Category B.</u>	Consultant services likely to be required.	Project preparation way. Government to complete field stud for irrigation and drainage components
Ministry of Tourism; Misr Iran Development Bank	About 75.0 (Bank)	(R) Regional Development (Tourism) - Provision of infrastructure (water supply, sewerage, solid waste, electricity, telecommunications and navigation facilities), upgrading of airport terminal facilities, improvement of access roads and tourism facilities at or near antiquity sites and other municipal tourism related facilities. <u>An environmental impact study has been undertaken using EEC funds. Environmental Assessment Category B.</u>	Consultants have been appointed as part of first year's implementation.	Project preparation underway. (Co-financing would sought).
Prime Minister's Office	To be deter- mined	Structural Adjustment - Support of government reform program aimed to achieve growth and stabilization, while easing social impact on lower income groups.	To be determined.	Project preparation way. (Co-financing would sought).
Mechanical and Electrical Department; Ministry of Public Works and Water Resources	31.0 (Bank)	(R) Pumping Stations Rehabilitation II - Rehabilitation or replacement of pumping stations, provision of spare parts and strengthening of O&M facilities. The pumping stations are to be rehabilitated to function efficiently. <u>There will not be any environmental hazard due to this project. However, monitoring conditionality on environmental aspects for two pumping stations near Alexandria which pump industrial waste to sea have been included. Environmental Assessment Category B.</u>	Consultant services would be required for Management Information System, Cost Recovery and Environmental studies, to be provided through ongoing programs assisted by USAID, ODA and Dutch assistance.	Approved by the Exe Directors on May 15 1990. Loan signed February 13, 1991.

er Country, menting y 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>E. ARAB UBLIC OF d)</u>				
stry of ulture and Reclamation	About 65.0 (Bank)	(R) Northern Sinai Agricultural Development - As first phase of the agricultural development of Northern Sinai, the project would expand the agricultural base of the country and include construction of irrigation and drainage works and provision of financial support to farmers for on-farm development farm machinery and agricultural inputs. <u>Two studies are being carried out to assess the environmental impact of the project - one on migratory birds and the other on the effect on wetlands including the Bardawil Lake. Appraisal mission will take recommendations of these studies into consideration. Environmental Assessment Category A.</u>	To be determined.	Initial project preparation completed. Timing of further processing subject to confirmation of Government's interest in Bank financing for the project. (Co-financing would be sought).
Transport rity (RTA)	About 50.0 (Bank)	(R) Navigational Canal Improvements - Rehabilitation of the Damietta-Cairo Branch of the Nile, including deepening of the branch, improvement of docks, cargo handling equipment, navigational aids, and technical assistance, and improvement of irrigation facilities. <u>Environmental Assessment Category B.</u>	Consultants selected for project preparations.	Project preparation under way. Final engineering design and preparation of bid document will be undertaken with Japanese Grant financing, as soon as Government takes final decision on lock construction.
try of port	About 200.0 (Bank)	(R) Railways III - To assist Government in improving efficiency of railway operations. It includes track renewal and supply of spare parts for traction, rolling stock and workshop equipment, replacement of old locomotives and coaches and other similar equipment. <u>The project would yield environmental gains through diversion of traffic from roads to railway and replacement of old locomotive with diesel and electric powered units. Environmental Assessment Category B.</u>	Consultant services will be required for financial and tariff studies, traffic costing, economic analysis and supervision.	Appraisal report under preparation. (Parallel financing is being sought).
<u>RY</u>				
determined	125.0 (Bank)	Energy Environment - To support development and implementation of appropriate environmental policies in the power sector, and finance power generation, selective expansion of capacity, dispatching and distribution, upgrading emission control equipment and some district heat upgrading.	To be determined.	Project preparation under way.

Member Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing Action on Procurement
HUNGARY (Cont'd)				
To be determined	200.0 (Bank)	(R) SAL II - Support policy reform for development of a market economy, deregulation, reduction in the role of the state and development of the private sector.	To be determined.	Pre-appraisal mission in the field. (EXIM Bank of Japan financing being pursued.)
To be determined	150.0 (Bank)	(R) Human Resources Technology - Address need to reform employment and the labor market, vocational training and retraining, higher education and professional training; human resources for science and technology research. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal report under preparation. Negotiations tentatively scheduled for February 25, 1991. (EC to make their assistance additional to that of the Bank.)
To be determined	150.0 (Bank)	(R) Enterprise Restructuring & Privatization - Support for efficient restructuring on the public enterprise sector, including enterprise governance reform and a realistic privatization program. <u>Environmental Assessment Category B.</u>	To be determined.	Pre-appraisal mission completed November 1990. Project being transferred into SECAL. Appraisal mission in the field (Possible co-financing from EC and EBRD.)
IRAN, ISLAMIC REPUBLIC OF				
Ministry of Economic Affairs and Finance	250.0 (Bank)	Earthquake Recovery - The project would finance a portion of a broad recovery program, including a positive list of imported material and equipment for emergency reconstruction in the housing and agriculture sectors and technical assistance for earthquake preparedness and mitigation. <u>Environmental Assessment Category B.</u>	Some short-term consultants will be required to provide technical assistance for earthquake prevention and mitigation measures.	Negotiations substantially completed.
JORDAN				
To be determined	About 10.0 (Bank)	(R) Emergency Recovery - To help the Government (i) implement a program to meet the incremental demand for social and infrastructure services and essential goods resulting from the influx of Jordanian returnees as a result of the Gulf crisis; and (ii) provide technical and financial support for private sector export market development and access to credit. <u>Environmental Assessment Category B.</u>	Consultants will be required for the export market development component.	Negotiations scheduled for February 25, 1991 (Co-financing discussion under way).
Ministry of Energy and Mineral Resources	35.0 (Bank)	Energy Sector Adjustment - Support for implementing sector policy reforms.	Consultants will not be required.	Preparation postponed pending agreement on macro framework.

Donor Country, Lending Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
DAN (cont'd)				
Jordanian Potash Company (APC) and other Agencies	About 25.0 (Bank)	(R) Industrial Exports - Optimization of APC's potash operations and assistance in furthering development of other Dead Sea based chemical industries. <u>Environmental Assessment Category B.</u>	To be determined.	Appraisal report under preparation.
Social Development Project	About 5.0 (Bank)	Social Development - Follow-up to social component (mitigating impact of adjustment on economically disadvantaged) of Industry and Trade Policy Adjustment Loan. Will complete institutional development and initiate lending for productive activities benefitting particularly women and rural poor. <u>Environmental Assessment Category C.</u>	To be determined.	Project preparation under way. (Germany's KfW has agreed to co-finance US\$10.0 million equivalent).
Ministry of Agriculture	About 50.0 (Bank)	Agricultural Sector Adjustment - To facilitate agricultural policy reform and adjustments in sectoral institutions through financing imports to meet sectoral and economy-wide needs. <u>Environmental Assessment Category C.</u>	To be determined.	Project preparation postponed pending agreement on macro framework.
Water Authority of Amman	About 30.0 (Bank)	(R) Water Supply and Sewerage Rehabilitation - The project would consist of: (i) the construction of a sewerage system and waste water treatment plant for the Wadi Es-Seer area; (ii) the construction of secondary sewer system to enable connection of the remainder of the population in parts of Amman, Irbid and Zarqa; (iii) a comprehensive action program to improve efficiency in general and unaccounted for water in particular; and (iv) a hydraulic study of the water supply and distribution systems in Irbid, Mafraq and Zarqa districts. <u>Environmental Assessment Category B.</u>	Consultants will be required for the hydraulic study and construction supervision.	Project preparation is well advanced. Bank processing will depend on Government agreement in principle to a financial restructuring program.
Ministry of Health (Jordan)	About 16.0 (Bank)	Health Sector Development (formerly Health Sector Institutional Development) - To assist Government in: (i) strengthening the provision of pre-hospital services (family health, pre-natal/pediatric care and birth spacing); (ii) consolidating and rationalizing physical facilities of the main hospital in the Northern region; (iii) improving the performance of a drug quality control laboratory under MOH; (iv) identifying necessary measures for fee-for-service arrangements and rationalization of health insurance systems; and (v) carrying out and implementing findings of studies on sector and MOH reorganization. (Design for hospital rehabilitation will conform to proper disposal of wastes). <u>Environmental Assessment Category C.</u>	Consultants will be required in health planning, management, organizational development, MIS, materials management, primary and maternal child health care services.	Negotiations tentatively scheduled for March 1991.

Member Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing Action on Procurement
JORDAN (Cont'd)				
To be determined	About 25.0 (Bank)	Transport III - Continuation of efforts started under Transport II, to strengthen sector institutions and policies and support of priority road maintenance and improvements. Project may also include assistance in the privatization of some transport agencies and development of infrastructure maintenance planning and management training. <u>Environmental Assessment Category B.</u>	To be determined.	Appraisal mission tentatively scheduled June 1991.
Jordan Valley Authority	About 30.0 (Bank)	Al Wehdah (Unity) Dam - To secure increased water resources in order to intensify irrigated agriculture in Jordan Valley and provide additional supplies for municipal and industrial use in the Jordan Highlands. Also help strengthen related sector policies and institutions. <u>Environmental Assessment Category A.</u>	To be determined.	Project preparation stalled pending resolutions of Ripa Rights issue. (Co-financing required.)
MOROCCO				
To be determined	50.0 (Bank)	(N) Higher Education Funding Reform - Aims at diversifying higher education financing by promoting cost efficiency, and supporting qualitative improvements. <u>Environmental Assessment Category C.</u>	To be determined.	Preparation under way.
ONCF	30.0 (Bank)	(N) First Railway - Would contribute to improving use of existing infrastructure, reducing costs and ensuring financial viability of railway. <u>Environmental Assessment Category: To Be Determined.</u>	To be determined.	Identification mission scheduled for March (Co-financing to be sought.)
Ministry of Agriculture and Agrarian Reform	35.0 (Bank)	(N) National Watershed Management - To improve land use and natural resources management in mountain areas and reduce siltation in reservoirs and associated hydraulic infrastructure. Main components include: (i) institutional and organizational development; (ii) improvement of legal framework for land use in mountain areas; (iii) investments in selected watersheds; (iv) applied and adaptive research and extension; and (v) technical assistance in training. <u>Environmental Assessment Category D.</u>	To be determined.	Project being identified.
Credit Immobilier Hotelier (CIH) and Commercial Banks (To be determined)	100.0 (Bank)	Housing Finance III - Further development of the urban housing sector and diversification of credit operations with participation of commercial banks to mortgage lending in the context of the reform of the financial sector.	To be determined.	Project identification under way.

Parent Country, Implementing Agency ¹	Amount & Probable Lender ²	Project ³	Consulting Services	Stage of Processing and Action on Procurement ⁴
<u>CCO</u> (t'd)				
/Other Banks	150.0 (Bank)	National Rural Finance - (a) Assistance to Credit Agricole of Morocco (CNCA) to develop the sustainable foundations of a high quality and competitive intermediary within a progressively liberalized financial system in the country. (b) Line of credit to CNCA/other banks to support agricultural/agro-industry credit lending to the private sector. <u>Environmental Assessment Category B.</u>	Consultant services will be required in WID activities, banking training, and institutional building.	Project identification completed. Appraisal expected by December 1991.
e determined	150.0 (Bank)	(R) Private Sector Investment - Will finance industrial investments; and follow up Industrial Finance Project. <u>Environmental Assessment Category B.</u>	To be determined.	Appraisal mission scheduled for March 1991. (IFC co-financing under preparation.)
e determined	125.0 (Bank)	Debt Management - To be determined with Government.	To be determined.	Awaiting indication from commercial banks of willingness to proceed with debt reduction.
ce National de la Potable P) and Regies	125.0 (Bank)	National Water Supply & Sewerage - Regional water supply project for Settat province regions south of Atlas mountains. <u>Environmental Assessment Category B.</u>	To be determined.	Project component being identified.
stry of culture	54.0 (Bank)	(R) Agriculture Sector Investment - Expenditure financing tied to next phase of policy and institutional reform. <u>Environmental Assessment Category B.</u>	Local consultants required for various studies.	Appraisal report under preparation. Negotiations scheduled for March 1991.
stry of culture	150.0 (Bank)	Large Scale Irrigation/Land Use Plan - Will complete the infrastructure rehabilitation and management restructuring of the Regional Office for Agricultural Development. <u>Environmental Assessment Category A.</u>	To be determined.	Project preparation under way.
e determined	225.0 (Bank)	Second Public Enterprise Rationalization - Will support further policy and restructuring programs for public sector enterprise. <u>Environmental Assessment Category B.</u>	Consultant requirements not yet determined.	Appraisal mission scheduled for March 1991.
e determined	300.0 (Bank)	(R) SAL II - Support adjustment in public expenditures, trade policies and the financial sector, ensure the efficient deployment of public investments and consolidate the return of the economy to sustainable growth. <u>Environmental Assessment Category C.</u>	To be determined.	Appraisal mission rescheduled for March 1991. (Co-financing being explored).

Member Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing & Action on Procurement
MOROCCO (Cont'd)				
Office National de l'Electricite (ONE)	114.0 (Bank)	Rural Electrification - Rural electrification of about 465 villages with supply of electricity to about 172,000 domestic consumers. Training of Office National de l'Electricite (ONE) staff.	Will be required to carry out detailed engineering design and institutional building studies.	Approved by the Execu Directors on October 1990.
Office d'Exploitation des Ports; Ministry of Public Works	132.0 (Bank)	(R) Port Sector - Would support further development of port sector including container handling in Casablanca, bulk traffic in other ports and related institutional measures. <u>Environmental</u> <u>effects of dredging have been assessed.</u>	Will be required for construction supervision, port and planning, financial management assistance.	Approved by the Execu Directors on December 1990.
Ministry of Education	145.0 (Bank)	(R) Rural Basic Education Development (formerly Basic Education) - Would increase access to upper basic level (grades 7-9) in rural areas and develop the teaching/learning environment in this cycle nationwide. <u>Environmental</u> <u>Assessment Category B.</u>	Consultants will be required for development of assessment functions and evaluations of school participation in rural areas.	Negotiations complete Board presentation scheduled for February 26, 1991.
Ministry of Interior/Fonds d'Equipement Communal	About 50.0 (Bank)	Municipal Development II - Policies, measures, and interventions to develop local capacity to deliver municipal services. Project will include urban infrastructure and facilities, technical assistance and training. <u>Environmental</u> <u>Assessment Category B.</u>	To be determined.	Project preparation u way.
PAKISTAN				
Ministry of Finance	235.0 (Bank) 14.9 (IDA)	(R) Emergency Adjustment - Program to support Government's macroeconomic program with emphasis on structural measures designed to mitigate impact of Gulf crisis, reduce the country's vulnerability to external shocks and improve the efficiency of domestic resource allocation. <u>Environmental</u> <u>Assessment Category C.</u>	To be determined	Project preparation u way.
To be determined	About 30.0 (Bank) 54.5 (IDA)	Integrated Hill Management - Project will include provision of inputs and support services for increased food and fodder crop production, strengthening of extension, animal health services and input distribution, afforestation of demarcated forests and hillside planting for fuelwood, construction of feeder roads and soil conservation works and technical assistance for project implementation. <u>Environmental</u> <u>Assessment: To Be Determined.</u>	To be determined.	Preparation mission completed. Report un preparation.

Number Country, Implementing Agency 1	Amount & Probable Lender 2	Project 3	Consulting Services	Stage of Processing and Action on Procurement 4
<u>PAKISTAN</u> (cont'd)				
to be determined	80.0 (IDA)	(R) Basic Education - To improve the quality of the delivery of lower secondary education through improved planning, management and administration of schools, supervision, and enhanced educational materials. <u>Environmental Assessment Category C.</u>	Consultants likely to be required for preparation and execution.	Pre-appraisal mission scheduled for early March 1991.
to be determined	About 20.3 (IDA)	(R) Second Scarp Transition - Will cover two areas in Punjab and Sind Provinces. The project would promote the phasing out of public tubewells in fresh ground-water areas by installing private tubewells and/or take over scarp tubewells by individual or groups of farmers. The credit would finance primarily rehabilitation and lining of watercourses and promote diesel/electric private tubewells through agricultural credit. <u>As the project would result in controlling the rising water table, there are no major environmental issues. Environmental Assessment Category B.</u>	Consultants will be required for project implementation, hydrogeological studies and for project impact evaluation studies.	Negotiations tentatively scheduled for March 4, 1991.
Farm Water Management Sectorates in Provincial Department of Agriculture Punjab, Sind, NWFP and Baluchistan) (Federal Government Agencies)	About 50.0 (Bank) 32.5 (IDA)	(R) Third On-Farm Water Management - Located in all four provinces (Punjab, Sind, NWFP and Baluchistan) federally administered tribal areas and northern areas and involving watercourse renovation, storage tank construction, and land levelling. Project will cover irrigation and rainfed areas. <u>Environmental effects expected to be positive. No Environmental Assessment required.</u>	Consultants will be required for implementation.	Negotiations scheduled for February 25, 1991. <u>Retroactive financing is envisaged.</u>
Water and Power Development Authority	About 111.4 (IDA)	(R) Irrigation/Drainage I (formerly Punjab (Saline) Drainage) - Subsurface and surface drainage, canal remodeling, and on-farm water management in the 100,000 ha Fordwah-Eastern Sadiqia (South) canal command in Punjab Province. <u>Environmental effects expected to be positive, however, an environmental study is being undertaken of the proposed evaporation pond. This study to be completed in June 1991. Environmental Assessment to be carried out under the Pakistan National Drainage Program. Environmental Assessment Category A.</u>	Consultants will be required for project implementation.	Draft feasibility report completed in February. Appraisal mission tentatively scheduled for April 1991. (Co-financing of about US\$15.0 million may be required).
Ministry of Environment and Forest Affairs	About 48.5 (IDA)	(R) Environmental Protection and Resource Conservation - Protection and management of environmental resources in Pakistan. <u>Positive environmental impact expected. Environmental Assessment Category D.</u>	Consultants will be required for project implementation.	Project appraisal presently to commence mid-April 1991.
