

Program Information Document (PID)

Concept Stage | Date Prepared/Updated: 20-Nov-2020 | Report No: PIDC30994

BASIC INFORMATION

A. Basic Project Data

Country Mexico	Project ID P174000	Project Name Environmental Sustainability and Urban Resilience DPF (P174000)	Parent Project ID (if any)
Region LATIN AMERICA AND CARIBBEAN	Estimated Board Date Dec 17, 2020	Practice Area (Lead) Environment, Natural Resources & the Blue Economy	Financing Instrument Development Policy Financing
Borrower(s) UNITED MEXICAN STATES	Implementing Agency SECRETARÍA DE HACIENDA Y CRÉDITO PÚBLICO		

Proposed Development Objective(s)

Support (i) strengthening environmental sustainability and resilience, and (ii) expanding access to resilient urban infrastructure and social housing.

Financing (in US\$, Millions)

SUMMARY

Total Financing	750.00
------------------------	--------

DETAILS

Total World Bank Group Financing	750.00
World Bank Lending	750.00

Decision

The review did authorize the preparation to continue

B. Introduction and Context

Country Context

1. The country has been experiencing supply and demand shocks to the economy, generating negative impacts on firms, employment, and households. As in other emerging economies, the path is likely to be complex and it will need to be supported by critical economic reforms. At the same, the current juncture presents an opportunity to complement

those efforts with reforms to enable more resilience to the shocks arising from climate change.

Relationship to CPF

2. The proposed operation is fully aligned with the CPF. Specifically, the authorities' policies supported by this operation will contribute to reach the CPF's objectives 6 and 7.

C. Proposed Development Objective(s)

3. The Program Development Objectives of this operation are to support the authorities' program of: (i) strengthening environmental sustainability and resilience, and (ii) expanding access to resilient urban infrastructure and social housing.

Key Results

4. The policies are expected to enable more resilience to the shocks arising from climate change by fostering the reduction of air pollution (which also leads to significant health gains), reducing deforestation, strengthening mechanisms to help mitigate emissions of greenhouse gases and short-lived climate pollutants, and improve urban and social housing resilience.

D. Concept Description

5. This operation supports specifically the authorities' program of strengthening environmental, urban and social housing resilience, as part of a broader aim of building better and with more climate change sustainability over the medium term.

E. Poverty and Social Impacts, and Environmental, Forests, and Other Natural Resource Aspects

Poverty and Social Impacts

6. The policy actions supported by the DPF are expected to contribute to poverty reduction and have positive social impacts in short, medium and long terms. Policy measures related to support environmental sustainability and resilience would have positive impacts on the poor and vulnerable over the medium to long term. Policy measures aimed at supporting a more climate and disaster resilient housing and local infrastructure are expected to have a monetary impact on the poor and vulnerable in the short-term.

Environmental, Forests, and Other Natural Resource Aspects

7. The policy measures supported by this operation would have significant positive effects on Mexico's climate change and environmental health priorities.
