The Government of Malawi with support from the International Development Agency (IDA) (World Bank (WB) is implementing the Energy Support Sector Project which aims at increasing the reliability and quality of electricity supply in the major load centres. The project is financed with a grant of US\$ 65.4 million and a credit amounting to USD19.3 million and it became effective on 30 January, 2012 and its original closing date is 30<sup>th</sup> October, 2016. However, the project has been extended for a further twenty-one months to 31<sup>st</sup> July 2018.

## 2.0 Goal of the Project

## FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

## Project Achievements at the date of financial Statements ...cont'd

The major challenge has been the loss of Grant and Loan proceeds as a result of the appreciation of the United States Dollar (US\$) against the Special Drawing Rights (XDR). The time the project became effective, the dollar was 1.6 to the Special Drawing Rights but now it is hovering around 1.4 to the XDR which is a loss in value of 13%

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on my judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, I consider internal control system relevant to the project's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the project's internal control system.

An audit also includes evaluating the appropriateness of accounting policies used, as well as evaluating the overall presentation of financial statements.
