**MEMORANDUM TO THE EXECUTIVE DIRECTORS**  
**Proposed Extension of the Term of the Forest Carbon Partnership Facility Carbon Fund**

**1. Introduction**

I submit for approval a proposal to extend the term of the Carbon Fund of the Forest Carbon Partnership Facility (FCPF) from December 31, 2020 to December 31, 2025, in order to enable the Carbon Fund to meet one of its main objectives of piloting performance-based payments for Emission Reductions from REDD+ activities<sup>1</sup>.

The Executive Directors approved the establishment of the Facility on September 25, 2007 as recorded in the Minutes of Meeting of the Executive Directors of the Bank and IDA (M2007-0065). A final Instrument (Charter, attached) was agreed in June 2008 which specified a termination date for the Facility of December 31, 2020.

The Facility consists of two funds, the Readiness Fund and the Carbon Fund. The Readiness Fund, with current financial contributions of approximately \$370 million, is focused on technical assistance to 47 tropical and sub-tropical forest countries. The Carbon Fund, with current financial contributions of in excess of \$450 million, is focused on results-based payments for large-scale REDD+ Emission Reduction programs. The International Bank for Reconstruction and Development (IBRD) acts as Trustee, Secretariat and sole Implementing Agency for the Carbon Fund. IBRD is also the Implementing Agency for almost 40 of the 47 countries receiving technical assistance through the Readiness Fund.

The governing bodies of the Facility are the Participants Assembly (PA) and the Participants Committee (PC). The PA, which is comprised of all the financial contributors to both funds and all 47 forest countries, meets annually and elects the PC. The PC is made up of equal numbers of financial contributors and forest countries (14 of each), and is also comprised of observers representing indigenous peoples, civil society, international organizations, the UN-REDD Programme, the UNFCCC Secretariat and the private sector. The Committee, which meets twice a year, is the main decision-making body of the FCPF.

Under the Charter of the Facility, the term of the Carbon Fund can be extended by unanimous consent of the Carbon Fund Participants (the financial contributors to the Carbon fund), provided the Board of Executive Directors of the IBRD has expressly agreed to the extension and to the terms of the extension (para 23.2 (b) of the Charter).

The Carbon Fund Participants unanimously agreed to an extension of the term of the Carbon Fund to December 31, 2025 by resolution CFM/12/2015/1 dated April 30, 2015, subject to approval by the Board of Executive Directors (Resolution attached). The Carbon Fund Participants include eight IBRD member countries (United States of America, United Kingdom, France, Germany, Norway, Canada, Australia and Switzerland), plus the European Commission, a private sector participant (BP Technology Ventures) and an environmental NGO (The Nature Conservancy).

---

<sup>1</sup> REDD+ refers to Reducing Emissions from Deforestation and forest Degradation, conservation of forest carbon stocks, sustainable management of forests, and enhancement of forest carbon stocks.

The Participants Assembly (PA), the over-arching governing body of the Facility, which includes an additional six IBRD member countries which are financial contributors to the Readiness Fund of the Facility (Japan, Spain, Denmark, Finland, Italy and the Netherlands) and the 47 forest countries which are all IBRD member countries, was also consulted on the proposed extension of the term of the Carbon Fund and there was overwhelming support from these financial contributors and intended financial recipients in the Facility for the extension.

## **2. Reasons for the proposal to extend the term of the Carbon Fund**

The Carbon Fund builds on the technical assistance provided under the Readiness Fund and is designed to pilot performance-based payments for Emissions Reductions from REDD+. The Carbon Fund became fully operational in May 2011. There are currently 18 countries in the pipeline of the Carbon Fund. These countries will develop their programs and will eventually sign a contract for the sale and purchase of Emission Reductions (an Emission Reductions Payment Agreement or ERPA). In order to effectively pilot performance-based payments the current intention is that these ERPAs will be for at least five year terms, with an additional year for final verification and payment. Thus, at least six years is required between ERPA signing and the termination of the fund.

The earliest approval of final program documents will be the spring of 2016 but many will only submit final program documents for approval in 2017 and 2018. Thus, the need for an extension of the fund to 2025 is clear.

The Carbon Fund contributes in a number of ways to the Bank's twin goals to end extreme poverty and to promote shared prosperity. Forests and landscapes are essential from a climate change mitigation perspective (20% of emissions), from an adaptation and resilience perspective (resilience of ecosystems, provision of vital ecological services such as soil retention and water regulation), and from a poverty and livelihoods perspective (contributing at least 7% of GDP in low-income countries). Forests play a crucial role in the lives of many of the poor on the planet as well as forest-dependent indigenous peoples, and are, in addition, among the most important repositories of terrestrial biological diversity.

All participants were well aware of the establishment and evolution of the Green Climate Fund (GCF) and took that into account in making their decision to extend the term of the Carbon Fund.

## **3. Terms of the Extension**

The resolution allows BP Technology Ventures to exit the Carbon Fund as if it were terminating on the fund's original termination date of December 31, 2020. The terms of the exit are designed in such a way that BP Technology Ventures have the same financial and other responsibilities and receive the same benefits as if the fund were terminating on December 31, 2020.

## **4. Recommendation**

I therefore recommend that the Executive Directors approve the extension of the term of the Carbon Fund of the Forest Carbon Partnership Facility to December 31, 2025 and to the terms of that extension.

TWELFTH CARBON FUND MEETING  
April 28-30, 2015  
Paris, France**

**Resolution CFM/12/2015/1**

**Extension of the FCPF Carbon Fund**

**Whereas:**

1. Section 22.1(b) of the Charter Establishing the Forest Carbon Partnership Facility (Charter), states that the FCPF Carbon Fund (Carbon Fund) shall be terminated on December 31, 2020 and Section 22.1(c) of the Charter states that the Facility shall be terminated upon termination of both the FCPF Readiness Fund and the Carbon Fund;
2. Section 23.2(b) of the Charter states that, notwithstanding Section 23.1 of the Charter (Extension of Term of the Facility), the Carbon Fund Participants, by unanimous consent, may decide to continue the business of the Carbon Fund, in which case the Charter shall be amended by unanimous consent of such participants, provided that the International Bank for Reconstruction and Development (Bank) will continue to serve as trustee of the Carbon Fund (Trustee) only if the Bank's Board of Executive Directors have expressly agreed to the extension and to the terms of such extension;
3. Carbon Fund Participants intend to extend the Carbon Fund from December 31, 2020 to December 31, 2025;
4. Section 8.5 of the Charter states that contributions by Carbon Fund Participants to a tranche of the Carbon Fund are irrevocable; and
5. BP Technology Ventures Inc., as a participant of Tranche A of the Carbon Fund and with a contribution to Tranche A of the Carbon Fund of USD 5 million (Contribution), has informed the Trustee that, in case of an extension of the Carbon Fund beyond December 31, 2020, it would be allowed to exit Tranche A of the Carbon Fund effective January 1, 2021 and withdraw the remainder of its Contribution (Unused Contribution) which equals the Contribution minus BP Technology Ventures Inc.'s pro rata share of (a) any recoverable costs incurred by the Trustee on or prior to December 31, 2020 or committed by the Trustee to services rendered on or prior to December 31, 2020, (b) any Emission Reductions Payment Agreement (ERPA) payment for contracted emission reductions that have been delivered on or prior to December 31, 2020, and (c) any ERPA advance payment amount which can be recouped through contracted emission reductions that have been delivered on or prior to December 31, 2020.

**The Carbon Fund Participants,**

1. Decide to extend the Carbon Fund until December 31, 2025 and to amend Section 22.1(b) of the Charter accordingly to read as follows:  
  
“(b) The Carbon Fund shall be terminated on December 31, 2025; and”.
2. Request the Trustee (1) to seek the Bank's Board of Executive Directors to expressly agree to the above extension and to the terms of such extension and, thereby, to allow the Bank to continue to serve as Trustee (Board Approval) and (2) to inform Carbon Fund Participants promptly upon the

Bank's Board of Executive Directors' corresponding decision. In the event that the Bank's Board of Executive Directors rejects the above extension of the Carbon Fund or the terms of such extension, the above extension as well as the above amendment to the Charter shall be deemed null and void.

3. Notwithstanding Section 8.5 of the Charter and subject to the Board Approval,
  - a. allow BP Technology Ventures Inc. to exit Tranche A of the Carbon Fund effective January 1, 2021 and to withdraw its Unused Contribution, provided that BP Technology Ventures Inc. has paid to the Trustee in full the portion of its Contribution that has been used by the Trustee on or prior to December 31, 2020, as per Clause 5 of the above preamble;
  - b. instruct the Trustee (1) to terminate BP Technology Ventures Inc.'s participation in Tranche A of the Carbon Fund effective January 1, 2021, (2) to calculate BP Technology Ventures Inc.'s Unused Contribution on December 31, 2020 and (3) if applicable, to return to BP Technology Ventures Inc. any amount of such Unused Contribution which has been paid to but not used by the Trustee, in each case provided that BP Technology Ventures Inc. has paid to the Trustee in full the portion of its Contribution that has been used by the Trustee on or prior to December 31, 2020, as per Clause 5 of the above preamble; and
  - c. instruct the Trustee to forward to BP Technology Ventures Inc. its pro rata share of any contracted emission reductions that have been delivered on or prior to December 31, 2020 and for which the Trustee has received payment from BP Technology Ventures Inc.
4. Request the Facility Management Team to propose, for consideration by the Carbon Fund Participants at their thirteenth meeting, certain interim milestones and associated deadlines to be met by REDD Country Participants, whose Emission Reductions Program Idea Notes have been selected into the pipeline of the Carbon Fund, to encourage such REDD Country Participants to continue their efforts to swiftly move through the Carbon Fund's ER Program development process.
