M&E Monitoring and Evaluation

PSD Private Sector Development

SSTTF Southern Sudan Transitional Trust Fund

Regional Vice President:	Obiageli Katryn Ezekwesili
Acting Country Director:	Ian Bannon
Sector Manager:	Michael J. Fuchs
Task Team Leader:	Alwaleed Alatabani

Restructuring Data Sheet

R	RestructuringStatus: Draft
R	Restructuring Type: Level two
L	ast modified on date: 06/08/2011

1. Basic Information		
Project ID & Name	P102319: Southern Sudan Private Sector Development	
	Project	
Country	Sudan	
Task Team Leader	Alwaleed Fareed Alatabani	
Sector Manager/Director	Michael J. Fuchs	
Country Director	Ian Bannon	
Original Board Approval Date	05/10/2007	
Original Closing Date:	06/30/2011	
Current Closing Date	06/30/2011	
Proposed Closing Date [if applicable]	01/31/2012	
EA Category	C-Not Required	
Revised EA Category	C-Not Required-Not Required	
EA Completion Date		
Revised EA Completion Date		

2. Revised Financing Plan (US US\$m)		
Source	Original	Revised
BORR	0.60	0.60
MDTF-SS	8.46	8.46
Total	9.06	9.06

3. Borrower			
Organization	Department	Location	
Ministry of Finance and			
Economic Planning			

4. Implementing Agency			
Organization	Department	Location	
Ministry of Commerce and	Private Sector Development	Juba	
Industry			

5. Disbursement Estimates (US US\$m)				
Actual amount disbursed as of 06/06/2011 8.41				
Fiscal Year Annual Cumulative				
2011	2.60	8.46		
	Total	8.46		

6. Policy Exceptions and Safeguard Policies	
Does the restructured project require any exceptions to Bank policies?	N
Does the restructured projects trigger any new safeguard policies? If yes, please select	N
from the checklist below and update ISDS accordingly before submitting the package.	

7a. Project Development Objectives/Outcomes Original/Current Project Development Objectives/Outcomes

The PDOs are to develop the enabling environment for private sector development, and support formal private sector growth.

7b. Revised Project Development Objectives/Outcomes [if applicable]

SUDAN- SOUTHERN SUDAN MULTI-DONOR TRUST FUND FOR PRIVATE SECTOR DEVELOPMENT PROJECT

P102319

TF090186

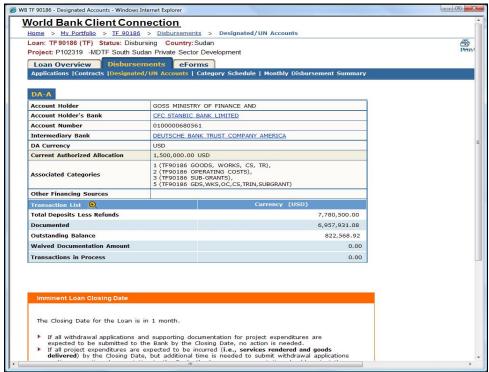

Restructuring paper

- 1. The Closing Date for the South Sudan Private Sector Development Project, MDTF-SS, and Project ID: P102319 will be extended from June 30, 2011 until January 31, 2012.
- Activities in project components are progressing well and project objectives continue to be achievable. The project development objective and overall implementation progress are rated as Moderately Satisfactory and Satisfactory, respectively. The framework for creating a conductive environment for private sector growth has been initiated. A trade and investment policy and a national microfinance policy were prepared and are in the process of being finalized, a draft Mining Bill and accompanying regulations have been completed, and five trade-related Bills have been drafted. An industrial competitiveness strategy has also been completed. In the area of access to finance and building entrepreneurship among Southern Sudanese, loanable funds and technical assistance for capacity building have been availed to Microfinance Institutions and block collateral has been provided for loans from Kenya Commercial Bank-Sudan to 44 entrepreneurs who emerged winners in the Business Plan Competition. The collateral will eventually be turned into equity for the entrepreneurs who successfully pay off the initial loans. The design of the Juba food wholesale market has been completed but construction of the market has been postponed due to shortage of funds in the MDTF following a request for additional financing. In terms of disbursements, the project has disbursed US\$7.58 million out of a total of US\$8.46 million, representing a disbursement rate of 90 percent (while the loan overview shows a disbursement rate of 99.4 percent, aside from the US\$52,000 undisbursed, there is an additional US\$822,569 available in the special/deposit account in the form of advance as shown in Annex 1).
- 3. There is a discrepancy between the development objective of the project in its Final Project Proposal and the Grant Agreement (GA). In the Final Project Proposal, the objective is to establish the enabling environment for private sector development, and support formal private sector growth. In comparison, in the Grant Agreement, the objective is to develop an enabling environment, and to sustainably increase formal employment in Southern Sudan. The objective of the Grant Agreement remains.
- 4. The development objective of the project continues to be achievable despite the initial delays in start-up operations of the project. The proposed extension is necessary to help the project complete outstanding activities. The Ministry of Industry and Commerce has prepared an action plan including an implementation plan to meet the revised project closing date.

5. This will be the first extension of the project.

ANNEX 1

Balance in Designated Account

Note: Balance in designated account as of June 8, 2011

ANNEX 2

Revised Results Framework and Monitoring

Revisions to the Results Framework		Comments/ Rationale for Change		
PDO indicators				
Current (PAD)	Proposed change			
1. Number of businesses registered in Southern Sudan (target: 25% increase per year over five years).	Number of businesses registered in Southern Sudan (target: 8,900): (Revised)	For initial indicators, data for baseline not easily available hence it is difficult to calculate percentages. Business registration expected to be extended to four other States (Business Hubs) in 2010/11.		
2. Number of licenses issued in Southern Sudan.	Streamline number of steps to register a business (target: 4 steps): (New)	Original indicator dropped as data on licenses issued is not yet available in Southern Sudan		
3. Increase in formal employment by formal registered private sector in Southern Sudan (target: 10% increase per year over five years)	Formal employment by the enterprises supported by the BPC loans (target: 40 jobs): (Revised)	Indicator modified as baseline employment data for private sector firms not easily available hence it is difficult to calculate percentages.		
	People with access to finance through targeted MFIs and BPC (disaggregated by gender): (New)	New indicator to measure progress in access to finance.		
	Of which the beneficiaries are female: (New)	New indicator to measure gender impact of project		
Intermediate Results indicators				
Current (PAD)	Proposed change*			
Component One				
1. PSD strategy endorsed by Cabinet	This indicator has been dropped	A draft PSD strategy was developed by the MCI internally without involvement of the project		
2. Land policy developed and adopted3. Property registry in use4. Business registry in use	These indicators have been dropped	The land policy and registries are out of the control of the project		
5. Microfinance policy and regulatory framework developed and adopted	Microfinance Policy presented to Cabinet; (Revised)	Indicator revised to include timeframe and feasibility		
6. Industrial policy developed and adopted	This indicator has been dropped	UNIDO was not able to carry out this activity in time.		
7. Public-Private Dialogue Forum established	Not changed			
8. M&E system in use	M&E systems developed are functioning and regularly updated by the MCI:	Indicator revised to emphasize sustainability of the system.		

(Revised)	Revisions to the Results Framework		Comments/ Rationale for Change
10. Starting a business, cost (% of income per capita		(Revised)	
Component Two 1. Southern Sudan Microfinance Development Facility established 2. Number of new microfinance institutions (MFIs) operational in Southern Sudan (target : 4) 3. Number of MSMEs recipients (target 8,000 new clients). Moved to the PDO level • Number of loans by gender (Target: 25,000 for women and 16,000 for men): New • Value of loans by gender(Target: 25,000 for women and 9 SDG million for women and 9 SDG million for men): New • Portfolio at Risk (PAR) (Target: 12% by end of the Project): (New) Component Three 1. Number of start-ups established through business plan competition each year (target 10). 2. Number of start-ups established through business plan competition that survive after one year in operation (target 5). 3. Number of business and trade associations that receive training (Target: 5): (New) Moved to the PDO level The original indicator has been moved to the outcome indicator level. New Indicators to measure effectiveness of the support to the financial sector. PAR is currently at 19%. SSMDF is supporting MFIs to improve the portfolio quality. The first two original indicators were not for this component and have been dropped. They should have been in Component One. New indicators have been in Component One. New indicators have been identified Mining Act and supporting regulations are developed: (New) Staff of the MCI and Ministry of Energy and Mining (MEM) are trained (Target: 30 staff): (New)	 10. Starting a business, cost (% of income per capita 11. Dealing with licenses, time (days) 12. Dealing with licenses, cost (% of income per capita) 13. Registering property, time (days) 14. Registering property, cost (% of income per capita) 15. Time for export (days) 	Business Plan Competition (Target: 45): (New) Laws to improve the enabling environment	been dropped due to either lack of monitoring data or being out of the scope of the project. New indicator to measure the funding for entrepreneurs The laws include, Competition
1. Southern Sudan Microfinance Development Facility established 2. Number of new microfinance institutions (MFIs) operational in Southern Sudan (target : 4) 3. Number of MSMEs recipients (target 8,000 new clients). Moved to the PDO level Possible of the outcome indicator level. New lindicators has been moved to the outcome indicator level. New Indicators to measure effectiveness of the support to the financial sector. PAR is currently at 19%. SSMDF is supporting MFIs to improve the portfolio quality. Component Three 1. Number of start-ups established through business plan competition each year (target 10). 2.
