\* Latest value shows the latest available country value for the indicator. Color coding of the latest country value represents a more than 10 percent change upward or downward from the country's baseline value from 10 years (+/- 2 years) prior to latest value. No coloring applied whenever there is no data for baseline or when latest available value is prior to 2020.

## Account ownership unlocks access to financial products

The gap in account ownership has widened since 2021 | Adults with an account (%)

Women in the labor force are more likely to have an account

**77%** of women who are in the labor force have a bank account, but only **62%** of women out of the labor force have a bank account

Fewer women than men are saving formally | Adults saving any money in the past year (%)

## Access to capital helps build businesses and create jobs

Fewer men than women are borrowing from formal financial institutions | Adults borrowing any money in the past year (%)

Men are more likely than women to be able to fall back on income from their job when facing unforeseen financial expenses | Adults identifying the source of emergency money (%)

## Digital connectivity can unlock and accelerate access to finance and jobs

Small gaps persist in digital technology access and use

Mobile money can accelerate financial inclusion | Type of account for adults with an account (%)

Mobile technology increases access to job and learning opportunities | Share of adults who made or received a digital payment (%)
