* Latest value shows the latest available country value for the indicator. Color coding of the latest country value represents a more than 10 percent change upward or downward from the country's baseline value from 10 years (+/- 2 years) prior to latest value. No coloring applied whenever there is no data for baseline or when latest available value is prior to 2020.

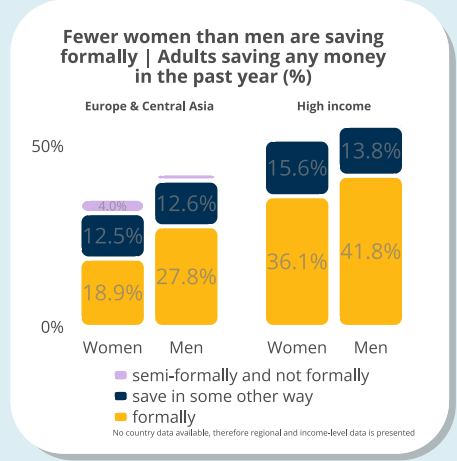

Account ownership unlocks access to financial products

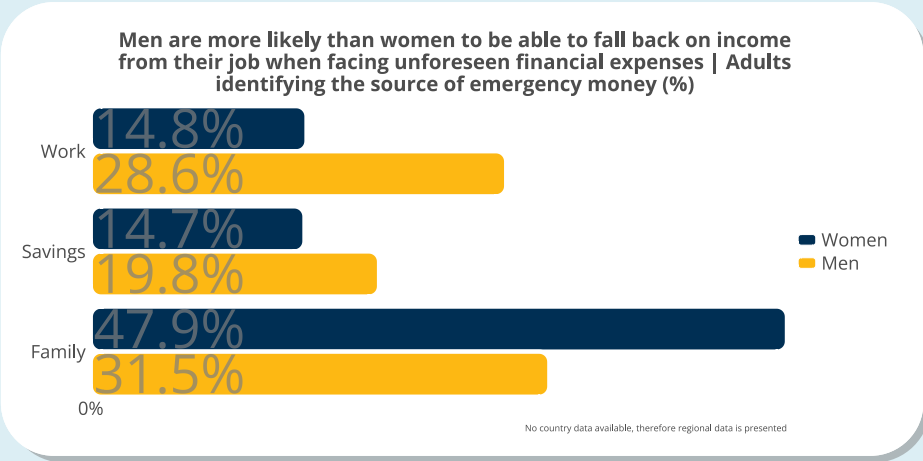

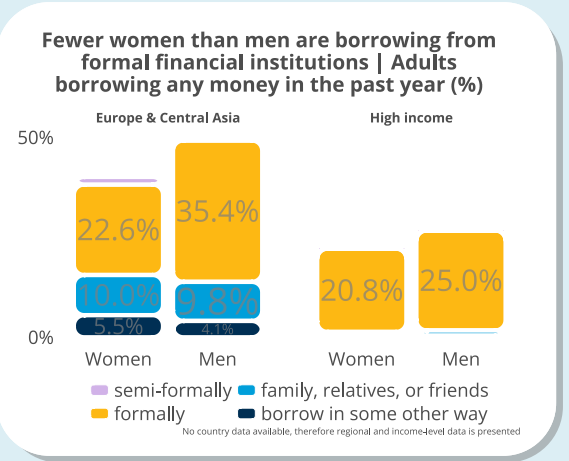

Women in the labor force are more likely to have an account

85% of women who are in the labor force have a bank account, but only **58%** of women out of the labor force have a bank account

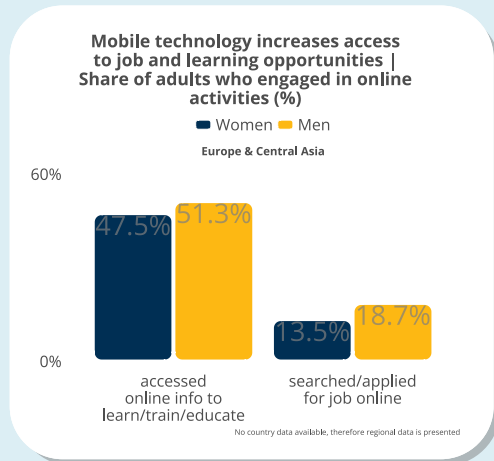

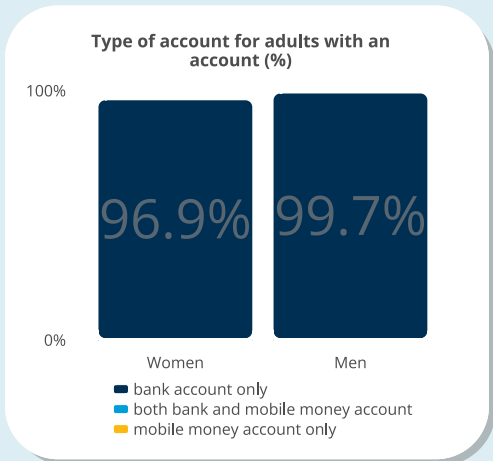

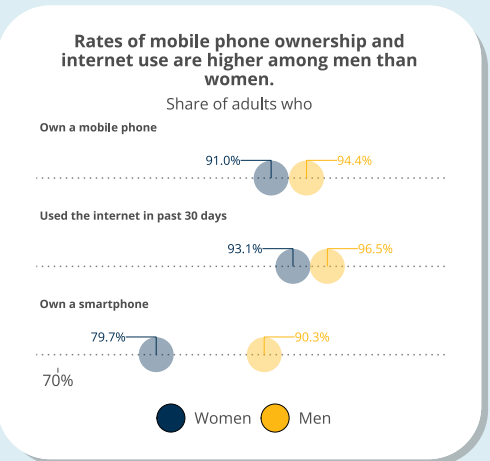

* No country data available, therefore regional data is presented.

Access to capital helps build businesses and create jobs

Digital connectivity can unlock and accelerate access to finance and jobs
