

NEPAL GENDER LANDSCAPE

This briefing showcases the gender landscape in Nepal on key indicators helpful for monitoring gender equality and designing effective policy interventions. Gender equality fosters productivity gains, minimizes losses in wealth, reduces poverty, boosts shared prosperity, and supports green, resilient, and inclusive development.

Note: The South Asia (SAS) region includes 8 countries (all income levels), as classified by The World Bank Group. Nepal is a lower middle income (LMC) country, which includes 54 countries with a Gross National Income (GNI) per capita from \$1,136 to \$4,465 (calculated using the World Bank Atlas method). Data and definitions can be found on the [Gender Data Portal](#). Data is as of March 17, 2024.

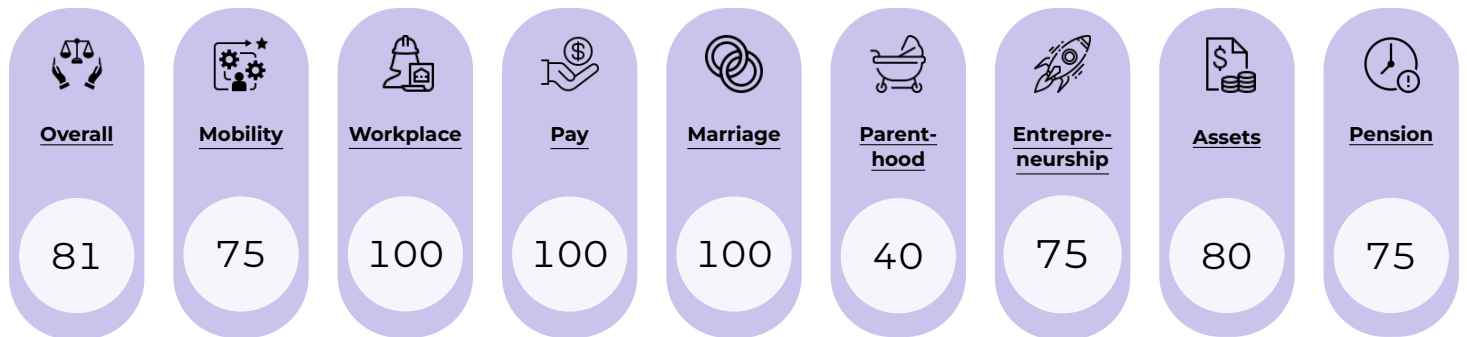

Country Baseline provides a reference from 1990 to 2011. Latest Value shows the latest available value from 2012 onwards. The arrow icon represents country increases or decreases over 10 percent relative to the base year. Peer Comparison shows how Nepal performs relative to its peers in the region, income group, and the world. Color coding represents values 10 percent above or below its peers in the region.

NEPAL GENDER LANDSCAPE

Women, Business and the Law in Nepal

Women, Business and the Law (WBL) 2023 presents an index covering 190 economies, structured around the life cycle of a working woman. In total, 35 questions are scored across eight indicators. **Nepal scores 81 out of 100**, while the regional average across South Asia is 64.

A Closer Look at Gender Equality in Nepal

Despite some progress, gender gaps, gender-based violence, and disadvantageous social norms facing women and girls persist, and gains in human capital of women and girls remain untapped. Turning human capital investments into economic gains means addressing multiple barriers to women's economic empowerment, including improving their voice and agency.
