## BOTSWANA GENDER LANDSCAPE

Gender data helps to inform smart development policy. This briefing provides key indicators for Botswana which help in monitoring gender equality and designing effective policy interventions. The arrows indicate longer term progress on outcomes from a base year, while the color coded elements compare the latest gender data in Botswana with its regional peers.

Note: The Sub-Saharan Africa (SSA) region includes 48 countries (all income levels), as classified by The World Bank Group. Botswana is an upper middle income (UMC) country, which includes 54 countries with a Gross National Income (GNI) per capita from $\$ 4,466$ to $\$ 13,845$ (calculated using the World Bank Atlas method). Data and definitions can be found on the Gender Data Portal. Data is as of September $15,2023$.
Country Baseline provides a reference from 1990 to 2011 . Latest Value shows the latest available value from 2012 onwards. The arrow icon represents country increases or decreases over 10 percent relative to the base year. Peer Comparison shows how Botswana performs relative to its peers in the region, income group, and the world. Color coding represents values 10 percent above or below its peers in the region.

THE WORLD BANK

## Women, Business and the Law in Botswana <br> Women, Business and the Law (WBL) 2022 presents an index covering 190 economies, structured around the life cycle of a working woman. In total, 35 questions are scored across eight indicators. Botswana scores 64 out of 100, while the regional average across Sub-Saharan Africa is 73.

## A Closer Look at Gender Equality in Botswana

Human Capital Index Score (0-1)

Baseline compared to 2020

Despite some progress, gender gaps, gender-based violence, and disadvantageous social norms facing women and girls persist, and gains in human capital of women and girls remain untapped. Turning human capital investments into economic gains means addressing multiple barriers to women's economic empowerment, including improving their voice and agency.

_- Unpacking the Numbers in Botswana -

## 44 percent

A girl born today will be 44 percent as productive as if she enjoyed full education, health, and employment
(2020)

10 points
Men and women have a 10
percentage point gap in labor force participation
(2022)

8 times
