**Note:** The East Asia and Pacific (EAP) region includes 37 countries (all income levels), as classified by The World Bank Group. China is an upper middle income (UMC) country, which includes 54 countries with a Gross National Income (GNI) per capita from \$4,466 to \$13,845 (calculated using the World Bank Atlas method). Data and definitions can be found on the [Gender Data Portal](#). Data is as of March 17, 2024. Country Baseline provides a reference from 1990 to 2011. Latest Value shows the latest available value from 2012 onwards. The arrow icon represents country increases or decreases over 10 percent relative to the base year. Peer Comparison shows how China performs relative to its peers in the region, income group, and the world. Color coding represents values 10 percent above or below its peers in the region.

# CHINA GENDER LANDSCAPE

## Women, Business and the Law in China

**Women, Business and the Law (WBL) 2023** presents an index covering 190 economies, structured around the life cycle of a working woman. In total, 35 questions are scored across eight indicators. **China scores 78 out of 100**, while the regional average across East Asia and Pacific is 73.

## A Closer Look at Gender Equality in China

Despite some progress, gender gaps, gender-based violence, and disadvantageous social norms facing women and girls persist, and gains in human capital of women and girls remain untapped. Turning human capital investments into economic gains means addressing multiple barriers to women's economic empowerment, including improving their voice and agency.
