

# INTEGRATED SAFEGUARDS DATA SHEET

## IDENTIFICATION / CONCEPT STAGE

Report No.: ISDSC20375

Date ISDS Prepared/Updated: 21-Oct-2016

### I. BASIC INFORMATION

#### A. Basic Project Data

<b>Country:</b>	Nigeria	<b>Project ID:</b>	P162344
<b>Project Name:</b>			
<b>Team Leader(s):</b>	Masami Kojima		
<b>Estimated Date of Approval:</b>	14-Nov-2016		
<b>Managing Unit:</b>		<b>Lending Instrument:</b>	IPF
<b>Financing (in USD Million)</b>			
Total Project Cost:	0.32	Total Bank Financing:	0
Financing Gap:	0		
<b>Financing Source</b>			<b>Amount</b>
Extractives Global Programmatic Support			0.32
<b>Environment Category:</b>	C - Not Required		

#### B. Project Development Objective(s)

The project development objective is to assist Nigeria in meeting the EITI requirement for data timeliness.

#### C. Project Description

EITI implementation in Nigeria has been supported by the EITI-MDTF with three grants to date. The first MDTF grant was US\$1.2 million and provided support to establish NEITI. The support from the grant led, amongst others, to the passage of the NEITI Act in 2007. A second grant was US \$900,000, completed in March 2012, and contributed to Nigeria's validation as an EITI-compliant country. The grant also helped NEITI to expand coverage to the solid minerals sector.

The third grant closed in December 2015 and was partially satisfactory. The grant amount was originally US\$900,000 and later increased to US\$1,280,000. However, NEITI had to cancel US \$500,564.47 when the EITI-MDTF closed on December 31, 2015. Two incomplete activities were pilot remediation projects for taking corrective actions on problems identified in oil and gas reports, and automation of data collection in the petroleum sector to help speed up production of NEITI reports. Both were due to unsatisfactory performance of the contractors hired to perform the tasks.

NEITI and the World Bank had been discussing options for a data platform to collect data and carry

out basic analysis for reconciliation of payments and revenues for the oil and gas reports, when the discussion was overtaken by the fiscal crisis in Nigeria, which became increasingly serious in the latter half of 2016. The situation was considered sufficiently serious that the International Secretariat for EITI approached the World Bank to find out if the World Bank's next engagement phase could be redirected to help with publication of the 2014 NEITI reports, and get a timely start on the 2015 oil and gas report.

**D. Project location and salient physical characteristics relevant to the safeguard analysis (if known)**

**E. Borrower's Institutional Capacity for Safeguard Policies**

**F. Environmental and Social Safeguards Specialists on the Team**

**II. SAFEGUARD POLICIES THAT MIGHT APPLY**

Safeguard Policies	Triggered?	Explanation (Optional)
Environmental Assessment OP/ BP 4.01	No	
Natural Habitats OP/BP 4.04	No	
Forests OP/BP 4.36	No	
Pest Management OP 4.09	No	
Physical Cultural Resources OP/ BP 4.11	No	
Indigenous Peoples OP/BP 4.10	No	
Involuntary Resettlement OP/BP 4.12	No	
Safety of Dams OP/BP 4.37	No	
Projects on International Waterways OP/BP 7.50	No	
Projects in Disputed Areas OP/BP 7.60	No	

**III. SAFEGUARD PREPARATION PLAN**

Appraisal stage ISDS required?: No

**IV. APPROVALS**

Team Leader(s):	Name: Masami Kojima	
<b>Approved By:</b>		
Safeguards Advisor:	Name: Maman-Sani Issa (SA)	Date: 21-Oct-2016
Practice Manager/ Manager:	Name: Silvana Tordo (PMGR)	Date: 21-Oct-2016

<sup>1</sup> Reminder: The Bank's Disclosure Policy requires that safeguard-related documents be disclosed before appraisal (i) at the InfoShop and (ii) in country, at publicly accessible locations and in a form and language that are accessible to potentially affected persons.
