Project Development Objectives

Project Development Objective (from Project Appraisal Document)

The main objective of the proposed project is to strengthen MNAO's capacity, primarily in financial audit and audit firm contracting and oversight. To achieve this objective a comprehensive and systematic continuing professional development strategy together with a time-bound action plan that is needs-driven, tailored and sustainable will be developed and implemented. For this purpose, the current capacity strengths and gaps in financial audit and related areas will be independently assessed by a peer SAI. In parallel to this assessment, MNAO personnel will be surveyed and participate in focus groups to identify their requests for and perceptions of their professional development needs and alternative means to achieve these objectives. The results of the financial audit peer review and the knowledge and learning needs assessment to be carried out under this proposed project, as well as the 2010 performance audit peer review, will feed into development of a CPD strategy for the institution that will then be developed into a 3-year knowledgeand learning program. Furthermore, as part of the project, tailored training materials will be developed and actual training will be delivered to MNAO staff as per the CPD strategy and the knowledge and learning program. While the specific content and depth of topics to be covered under the CPD program are largely to be identified and tailored as per the assessments to be carried out, an early indication of capacity gaps reveals such areas as MNAO staff's knowledge and understanding of the relevant standards, i.e. IPSAS and the newly translated ISSAIs, quality control, contracting and quality assurance of private audit firm engagements, and audit of the consolidated financial statements of the Government.

Has the Project Development Objective been changed since Board Approval of the Project Objective?

Implementation Status and Key Decisions

During the current ISR period, the project has made good progress in implementing Activity 1: Peer review of MNAO. Based on discussions amongst the MNAO and Bank teams and international experts, MNAO concluded that a peer review by another SAI (Supreme Audit Institution) was its preferred approach. The UK National Audit Office (UK NAO) was at the top of MNAO's short list of SAIs given its familiarity and previous engagement with MNAO, its knowledge and experience with the SAI PMF (the peer review methodology promulgated by INTOSAI, the worldwide body of SAIs), and the ease of using English as the peer review language. UK NAO was contracted for the assignment and the peer review field work took place in Ulaanbaatar from November 14-25, 2016. UK NAO comleted drafting the SAI Performance Report (peer review report) and will deliver it to MNAO in the coming days. The final SAI Performance Report was planned for submission at year-end or shortly thereafter and it now appears that this activity will be completed as planned.

The MNAO project team has commenced preparatory work for the next planned Project activities: Activity 2: Comprehensive training needs assessment; Activity 3: Development of a continuing professional education strategy and an action plan; and Activity 5: Procurement process for selecting private audit firms for outsourced audits. Because of the interrelations between these activities, a combined TOR has been prepared for the consultancy to carry these out and the project aims to immediately start the procurement processes for the consultancy. Timely completion of the peer review was important as it informs these other activities.

MNAO is committed to successfully implementing the project and the MNAO Strategic Management Department continues to be the main counterpart leading project implementation.
