A. EXECUTIVE SUMMARY

Background

1. Government of Gujarat (GoG) has taken up the second Gujarat State Highway Project (GSHP-II), covering up-gradation, maintenance and improvement of identified core road network for loan appraisal with the World Bank. Roads and Buildings Department (R&BD), GoG, has retained M/s LEA Associates South Asia Pvt. Ltd. (LASA) as Project Preparatory Works Consultants to prepare pertinent plans on widening and upgradation of highways including the assessment of social impact, preparation of Resettlement Action Plan (RAP) and Indigenous Peoples Development Plan (IPDP). As a pre-requisite towards loan appraisal with the World Bank, R&BD has selected nine corridors, aggregating to 394 km length for preparation of detailed project report. As part of the project preparation, Social Impact Assessment (SIA) has been undertaken for the proposed roads. This RAP is based on the findings of SIA carried out in Bayad-Lunawada corridor and is in line with Resettlement Policy Framework (RPF) of the project.

Corridor Description

2. The total length of the project corridor is 44.86 km. The corridor starts at Bayad on SH-69 at km 00+000 and joins SH-63 at Chainage 18+250. It continues at SH-63 and runs towards North West for about 0.6 km before joining Village Road (VR)/Major District Road (MDR) which is about 11.8 km. It again joins back SH-63 at km 14+200 which ends at Lunawada at Km 00+000(Reverse Chainage). Bayad- Lunawada corridor enroutes Bayad taluka of Sabarkanta district, Virpur taluka of Kheda and Lunawada taluka of Panchmahal district. Corridor passes through 28 villages and a town (Lunawada).

Resettlement Action Plan: Objectives

3. The RAP is prepared to ensure that the affected persons are: (i) informed about their options and rights pertaining to resettlement; (ii) consulted, provided with technically and economically feasible resettlement alternatives and offered choices among them; (iii) provided prompt and effective compensation at full replacement cost for loss of assets caused due to the project; (iv) provided assistance (such as shifting allowance, transition allowance, etc.) during relocation and for a transition period, to restore their livelihood and standards of living; and, (v) provided with skill development assistance such as training, in addition to compensation. The objectives of RAP are:

4. To identify adverse impacts and determine mitigation measures;

5. To present the entitlements and action plan for the affected persons for payment of compensation and assistance for restoring livelihoods, and improving or at least retaining the living standards in the post resettlement period.

Right of Way and Corridor of Impact

6. The existing RoW along the corridor varies from 10m to 24m. Using available RoW records with the R&BD and Revenue Department, the social team verified the boundaries of private properties within and in the vicinity of potential corridor of impact (CoI)¹. The CoI for the project corridor vary between 13m to 24m². In the present context, impacts are assessed up to CoI (Fig 1.2). Adopting the CoI approach, the impacts on land and other assets have been minimized, within acceptable design principles and standards. Development within available RoW has been considered, wherever feasible, for avoiding or minimizing impact on residential and commercial structures, water-yielding wells, schools, religious structures and agricultural land. The proposed treatment has minimal impact on land and structures.

Resettlement Policy Framework

7. Resettlement Policy Framework (RPF) has been formulated based on the applicable and relevant laws relating to the project and also based on the bank OP 4.12 on involuntary resettlement. RPF suggests avoiding or minimizing adverse impacts by exploring all viable alternative project design. The core principles of RPF are as follows:

8. Entitlements for project affected persons to cover the loss of land, structures and other assets, such as standing crops or trees. The broad categorisation of affected persons is (i) Titleholders; and (ii) Non-titleholders.

9. The vulnerable sections among each of the above categories will receive additional support.

10. Compensation for land at replacement cost, plus allowances for fees or other charges will be provided along with other assistances. Land will be acquired following Land Acquisition Act, 1894 and its amendments. The difference between the land cost decided as per LA Act and the updated Jantri values for the specific land parcel to be acquired will be paid by the project in the form of assistance.

11. Compensation for residual unviable land parcels will be provided to those affected persons who are eligible and opting for the same.

12. Compensation for loss of structures, other assets will be provided at replacement cost and will be paid before physical displacement from the occupied or affected area.

13. Assistance will be provided to those affected persons who lose their livelihood due to the acquisition carried out as part of the project.

14. Cut-off date for titleholders will be the date of publication of notification under Section 4(1) of Land Acquisition Act, 1894. For non-titleholders, the date of project census survey or a similar designated date declared by project authority will be considered as cut-off date.

¹The Right of Way (RoW) is the lawfully acquired corridor of public land owned by the State Government and administered by R&BD for transit. The CoI is the width required for the actual construction of road, including carriageway, shoulder and embankments.

² 24 m CoI is proposed in Sathamba settlement where four lane section is proposed for the length of 1.4 km.

15. The households/land owners who are absent during the time of census survey will be entitled for assistance and budget provisions will include them also. However, people moving to the CoI after the cut-off date will not be entitled for any compensation or assistance.

16. Loss of common property resources will be compensated and reconstructed at project cost. Enhancement measures also will be provided for community assets located alongside the project corridor in consultation with the community.

Cut-off Date

17. Cut-off date for titleholders is date of section 4(1) notification and for non-titleholders cutoff date is the 31st May 2012 (date of socio economic survey).

Impact on Land and Structures

18. Census and socio-economic surveys were conducted along the proposed project stretch, considering the Corridor of Impact (CoI) of 13m and 24m. Minimum acquisition and disturbance to the existing features is the prime objective of design. Impacts on sensitive features and settlement areas is minimised through realignment, and CoI approach.

19. **Land Acquisition:** A total of 2.61 ha of government land and 18.05 ha private agricultural land will be acquired for geometric improvement in 10 villages – Tajpur, Lalsar, Dhamod, Sadhakpur, Hadod, Khantana Bhensavada, Madia Vakhatpur, Ucharpi and Undra. Land acquisition and resettlement of the affected persons will be carried out in accordance with the provisions of the RPF of the project.

20. **Categories of Impact:** Agricultural land of 313 households, 1 mixed property (residential-cum-commercial), 34 commercial structures and fencing of a vacant land will be affected. 34 Commercial structures affected belong to non-titleholders (squatters) as well as one mixed property and 1 vacant land belongs to titleholders (encroachers).

21. Other assets affected within the affected portion of the properties are 555 trees (private trees), 2 water taps, 3 water tanks, 8 motor pumps, 25 open/dug wells, 3 hand pumps, 1 barbed-wire fence and 3 boundary walls.

22. **Impact on Cultural Properties and Community Assets:** The boundary wall of a school will be affected and there will not be any impact on religious structures.

Socio-Economic Profile

23. Total number of PAHs are 349 wherein 315 are titleholders (TH) and remaining 34 are non-titleholders (NTH). Total 349 PAHs comprises 2567 PAPs (based on the household size). Vulnerable groups of affected household are 41 (1 ST as well as BPL, 5 WHH and 35 BPL).

Public Consultations

24. Five public consultation meetings were held along the project corridor with the communities to obtain their views and suggestions regarding the proposed project interventions. The consultations have provided inputs towards mitigation of impacts, improvement in designs, and preparation of resettlement plan and its implementation. Based on the suggestions design modifications including curve improvement, provision of road safety measures such as pedestrian crossings, warning signs, markings, etc., has been carried out.

Implementation Arrangement

25. Environmental and Social Management Unit (ESMU): The Chief Engineer at PIU will be overall head of the project. An ESMU will be set up by R&BD within the PIU to look into the social and environmental aspects of the project and will have overall responsibility for policy guidance, coordination and planning, internal monitoring and overall reporting.

26. ESMU will be headed by an officer of the rank of Executive Engineer (EE), and will be responsible for all activities related to resettlement and rehabilitation. Chief Engineer (World Bank Projects) will be assisted by Superintending Engineer (SE). The EE will be assisted by an Environmental Specialist and a Social Specialist. ESMU will be housed in R&BD headquarters in Gandhinagar. One each Executive Engineers at field divisions³ will be responsible for E&S activities.

Implementation Support by NGO

27. RAP will be implemented by the ESMU with support from a Non-Governmental Organisation (NGO) which will be selected as part of the project. The roles and responsibilities of NGO are summarized as follows:

- Explain to PAPs about the potential adverse impacts and proposed mitigation measures and, R&R entitlements;
- Distribute the dissemination materials including pamphlets on RAP and other aspects;
- Facilitate ESMU in organizing public information campaign at the commencement of R&R activities;
- Prepare the micro plans;
- Participate in the meetings organized by ESMU;
- Provide support for implementation of RAP;
- Prepare and issue identity cards to identified PAFs;
- Facilitate opening of joint bank accounts (PAPs and his/her spouse) for individual PAPs;
- Ensure that all benefits are provided in joint account where women will be the first beneficiary;
- Assist PAPs in receiving compensation, focusing on vulnerable PAPs to ensure that they get their dues on time;
- Generate awareness about the productive use of compensation money and R&R grants;
- Explain the resource base and other opportunities to enable them to make informed choices and participate in their own development;
- Ensure that vulnerable PAPs are given their dues both for payment of compensation and rehabilitation assistance;
- Submit monthly progress reports to ESMU;
- Identify training needs of PAPs for income generating activities and ensure they are adequately supported during the post-training period on respective income generating activities, and,
- Ensure that the grievances and problems faced by PAPs are presented to the Grievance Redress Committee for their resolution.

Grievance Redress Mechanism

28. A Grievance Redress Committee (GRC) at the district level will be constituted to hear the complaints of project affected persons and resolve the same. The process will promote settlement

³ The Field Divisions of R&BD are located at Rajkot, Mehsana and Vadodara.

of disputes and reduce litigation. GRC will be set up at the district level with District Collector as head. The following persons will be the members of GRC:

- District Collector or his designated representative of at least the rank of Assistant District Collector (preference would be given to women officers);
- The District Development Officer of the Department of Revenue;
- The Executive Engineer, PIU; and
- Representative from Social Sector/Local NGO (not involved with implementation) /Person conversant with similar issues and he/she should be widely respected and having problem solving skills (to be selected by DM / Collector).

29. GRC will be responsible for the following: (i) Support PAPs in resolving issues related to R&R and LA; (ii) Record grievance and resolve them within stipulated time; and (iii) Inform PIU about any serious cases.

Monitoring and Evaluation

30. Internal monitoring of the implementation of social safeguards will be carried out by the PIU with support of Project Management Consultant/Supervision Consultant. Towards enhancing the quality of RAP/IPDP implementation, in addition to the internal monitoring by the PIU, external monitoring will be done by a third-party agency or Project Management Consultant (PMC) for technical as well as environmental/social aspects.

Public Consultation and Disclosure

31. In order to make the RAP implementation process transparent, a series of public disclosure meetings will be arranged. The RAP Executive Summary and Full RPF, translated in Gujarati language along with List of PAPs with impacted assets will be disclosed through public consultations and will also be made available through GSHP Website (<http://gshp2.gov.in>). The full RAP would also be disclosed at Bank's Infoshop.

RAP Implementation Schedule

32. The construction tenure of the corridor is 24 months⁴. The on-ground rehabilitation and resettlement exercises and handing over the encumbrance free stretch for civil works will take 5 months and afterwards, the NGO will carry out awareness programmes on road safety, HIV/AIDS prevention campaign, repeat training for PAPs, facilitate overall monitoring, etc.

Table 1.1: RAP Implementation Schedule: Major Activities

Sl. No.	Major Activities	Months
1.	NGO in place	1 st month
2.	GRC in place	2 nd month
3.	Information campaign and community consultation	2 nd month onwards till 24 th month [on 6-month interval]
4.	Compensation / R&R / Clearance of CoI	2 nd month onwards – to complete by 5 th month
5.	Awareness on Road Safety	3 rd month onwards – every alternate month till 24 th month
6.	External monitoring	2 nd month onwards – every 6 month till 24 th month

⁴ The construction tenure of individual corridors ranges from 18 months to 30 months spread across an overall period of 36 months and accordingly, R&BD has envisaged tenure of 36 months for the RAP implementing NGO.

Resettlement Budget

33. The resettlement budget include components such as compensation for land, compensation for structure (private property, cultural property and community assets), R&R assistance and contingency to cover unforeseen / unanticipated costs. The estimated total budget for the implementation of RAP for the corridor is INR 23.08 million.

34. Apart from this, an amount of INR 29.6 million is earmarked for cost of trainings, RAP implementing NGO, monitoring and evaluation, awareness programmes on road safety, HIV/AIDS awareness, etc., for all the project corridors to be taken up. Escalation of these components have been considered at an annual inflation rate of 7% based on consumer price index and the escalated amount for Year-I is INR 31.7 million and for Year-II, the amount is INR 33.9 million.

1. INTRODUCTION

1.1 PROJECT BACKGROUND

35. Government of Gujarat (GoG) has taken up the second Gujarat State Highway Project (GSHP-II), covering up-gradation, maintenance and improvement of identified core road network for loan appraisal with the World Bank. Roads and Buildings Department (R&BD), the responsible body for managing the project, has retained M/s LEA Associates South Asia Pvt. Ltd. (LASA) as Project Preparatory Works Consultants to prepare pertinent plans on widening and upgradation of highways including the assessment of social impact, preparation of Resettlement Action Plan (RAP) and) Indigenous Peoples Development Plan (IPDP). As a pre-requisite towards loan appraisal with the World Bank, R&BD has selected nine corridors, aggregating to 394 km length for detailed project report (DPR) preparation. As part of DPR preparation, Social Impact Assessment (SIA) has been undertaken for the proposed roads.

36. The total length of Bayad-Lunawada corridor is 44.86 km. The existing RoW along corridor varies from 10m-245 m. The proposed improvement is 2 lane with hard shoulder having carriageway width 7m to 15.5m along with hard shoulder of 1m to 1.2m. The existing two lane and intermediate lane corridor is proposed to be widened to a standard two lane facility with hard shoulder. Chainage-wise details of proposed treatment are given in Appendix 1.1. Cross-sections were designed accommodating the proposed road improvement within the available RoW, avoiding land acquisition to the extent possible.

37. This report presents the RAP, prepared based on the finding of SIA carried out along Bayad-Lunawada corridor and is in line with Resettlement Policy Framework (RPF) of the project.

1.1.1 Project Corridor

38. The corridor starts at Bayad on SH-69 at km 00+000 and joins SH-63 at Chainage 18+250. It continues at SH-63 and runs towards North West for about 0.6 km before joining Village Road (VR)/Major District Road (MDR) which is about 11.8 km. It again joins back SH-63 at km 14+200 which ends at Lunawada at Km 00+000 (Reverse Chainage). Bayad- Lunawada corridor enroutes Bayad taluka of Sabarkanta district, Virpur taluka of Kheda and Lunawada taluka of Panchmahal district. Corridor passes through 28 villages and a town (Lunawada).

1.2 RESETTLEMENT ACTION PLAN: OBJECTIVES

39. The RAP is prepared to ensure that the affected persons are: (i) informed about their options and rights pertaining to resettlement; (ii) consulted, offered choices among, and provided with technically and economically feasible resettlement alternatives; (iii) provided prompt and effective compensation at full replacement cost for losses of assets caused due to the project; (iv) provided assistance (such as shifting allowance, transition allowance, etc.) during relocation and

for a transition period, to restore their livelihood and standards of living; and, (v) provided with development assistance such as training, in addition to compensation. The objectives of RAP are:

- To identify adverse impacts and determine mitigation measures;
- To present the entitlements and action plan for the affected persons for payment of compensation and assistance for restoring livelihoods, and improving or at least retaining the living standards in the post resettlement period.

1.3 RIGHT OF WAY AND CORRIDOR OF IMPACT

40. The existing RoW along the corridor varies from 10m to 24m. Using available RoW records with the R&BD and Revenue Department, the social team verified the boundaries of private properties within and in the vicinity of potential corridor of impact (CoI)⁶. The CoI for the project corridor vary between 13m to 24m⁷. In the present context, impacts are assessed up to CoI (Fig 1.2). Adopting the CoI approach, the impacts on land and other assets have been minimized, within acceptable design principles and standards. Development within available RoW has been considered, wherever feasible, for avoiding or minimizing impact on residential and commercial structures, water-yielding wells, schools, religious structures and agricultural land. The proposed treatment has minimal impact on land and structures.

⁶The Right of Way (RoW) is the lawfully acquired corridor of public land owned by the State Government and administered by R&BD for transit. The CoI is the width required for the actual construction of road, including carriageway, shoulder and embankments.

⁷ 24 m CoI is proposed in Sathamba settlement where four lane section is proposed for the length of 1.4 km.

1.4 REPORT STRUCTURE

41. The chapters in the report are arranged as follows:

- **Chapter 1- Introduction:** details about the proposed project, rationale and objectives of RAP and approach to resettlement planning.
- **Chapter 2 - Legal and Policy Framework:** provides an overview of the RPF of the project and also gives details about respective affected categories of project, land acquisition requirements, etc.
- **Chapter 3 - Socio Economic Profile:** describes socio-economic profile of the project area, the work participation ratio of population and a brief account of scheduled caste and scheduled tribe population.
- **Chapter 4 - Impact on People and Community Assets:** presents the nature and extent of impact on various properties alongside the corridor and the socio-economic profile of the affected population.
- **Chapter 5 - Stakeholder Consultations:** key outcomes of consultations carried out along the corridor and the ways in which the concerns and suggestions of the community were integrated into the project design are presented.
- **Chapter 6 – Mitigation Measures and Processes:** provides details of issues related to compensation and assistance, income restoration, gender, road safety and HIV/ AIDS.
- **Chapter 7- Implementation Arrangements:** describes the institutional arrangement for the smooth implementation of RAP and the roles and responsibilities of various officials.
- **Chapter 8 - Resettlement Budget:** the compensation for affected land and structures, other assets (trees, water tap and gate, etc) and R&R assistance as per the Entitlement Matrix of the project.

2. LEGAL AND POLICY FRAMEWORK

2.1 RESETTLEMENT POLICY FRAMEWORK

42. Resettlement Policy Framework (RPF) has been formulated based on the applicable and relevant laws relating to the project and also based on the World Bank's Operational Policies 4.12 and on Involuntary Resettlement and OP 4.10 on Indigenous Peoples. The RPF intends to ensure that the principles and procedures set forth in compliance with national and international policy guidelines are followed. This framework will guide in the effective management of social impacts caused by the proposed project. The RPF is based on the principle that affected persons should be in a better-off position or at least at the same level as compared to the pre-project scenario. RPF ensures greater acceptability of the project among the community and is expected to facilitate effective communication.

- Entitlements for project affected persons to cover the loss of land, structures and other assets, such as standing crops or trees. The broad categorisation of affected persons is (i) Titleholders; and (ii) Non-titleholders.
- The vulnerable sections among each of the above categories will receive additional support.
- Adverse impacts would be avoided or minimized by exploring all viable alternative project design. Where the impacts are unavoidable, the project-affected persons will be assisted for retaining or upgrading their standard of living.
- Compensation for land at replacement cost, plus allowances for fees or other charges will be provided along with other assistances. Land will be acquired following Land Acquisition Act, 1894. The difference between the land cost decided as per LA Act and the updated Jantri values for the specific land parcel to be acquired will be paid by the project in the form of assistance.
- Compensation for residual unviable land parcels will be provided to those affected persons who are eligible and opting for the same.
- Compensation for loss of structures, other assets will be provided at replacement rate and will be paid before physical displacement from the occupied or affected area.
- Assistance will be provided to those affected persons who lose their livelihood due to the acquisition carried out as part of the project.
- Cut-off date for titleholders will be the date of publication of notification under Section 4(1) of Land Acquisition Act, 1894. For non-titleholders, the date of project census survey or a similar designated date declared by project authority will be considered as cut-off date.
- The households/land owners who are absent during the time of census survey will be entitled for assistance and budget provisions will include them also. However, people moving to the CoI after the cut-off date will not be entitled for any compensation or assistance.
- Vulnerable groups will be identified and given additional support and assistance in re-establishing or enhancing livelihood.
- Loss of common property resources will be compensated and reconstructed at project cost. Enhancement measures also will be provided for community assets located alongside the project corridor in consultation with the community.
- Information related to the preparation and implementation of resettlement plan will be disclosed to all stakeholders and people's participation will be ensured in planning and implementation.
- Appropriate grievance redress mechanism will be established at the district level to ensure speedy resolution of disputes.
- All consultations with PAPs shall be documented. Consultations will continue during the implementation of resettlement and rehabilitation works.
- Effective monitoring and evaluation mechanism will be established to ensure consistent implementation of resettlement activities planned under the project including third party monitoring.

Terms and Definitions

- a. **Agricultural land** means land being used for the purpose of: (i) agriculture or horticulture; (ii) raising of crops, grass or garden produce; and (iii) land used by an agriculturist for the grazing of cattle, but does not include land used for cutting of wood only;
- b. **Assistance** refers to the support provided to PAPs in the form of ex-gratia payments, loans, asset services, etc. in order to improve the standard of living and reduce the negative impacts of the project.
- c. **Below poverty line or BPL Family** means below poverty line families as defined by the Planning Commission of India, from time to time, and those included in the State BPL list in force.
- d. **Compensation** refers to the amount paid under Consent Award as part of The Land Acquisition Act, 1894. For private property, structures and other assets acquired for the project, it refers to the amount as given in the Entitlement Matrix for the project.
- e. **Cutoff Date:** the date of Notification under Section 4(1) of Land Acquisition Act, 1894 shall be the cutoff date where the land acquisition will be required. For non-titleholders the date of census survey shall be considered as the cutoff date.
- f. **Encroachers** are those person/family, who transgresses into the public land (prior to the cut-off date), adjacent to his/her own land or other immovable assets and derives his/her additional source of shelter/livelihood.
- g. **Family** includes a person, his or her spouse, minor sons, unmarried daughters, minor brothers, unmarried sisters, father, mother and other relatives residing with him or her and dependent on him or her for their livelihood; and includes “nuclear family” consisting of a person, his or her spouse and minor children.
- h. **Government** refers to the Government of Gujarat.
- i. **Land acquisition** means acquisition of land under the Land Acquisition Act, 1894, as amended from time to time.
- j. **Marginal farmer** means a cultivator with an unirrigated land holding up to one hectare or irrigated land holding up to half hectare;
- k. **Non-Perennial Crop:** Any plant species, either grown naturally or through cultivation that lives for a season and perishes with harvesting of its yields has been considered as a non-perennial crop in the project. For example, paddy, sugarcane, groundnut, etc.
- l. **Notification** means a notification published in the Gazette of India, or as the case may be, the Gazette of State;
- m. **Perennial Crop:** Any plant species that live for years and yields its products after a certain age of maturity is a perennial crop. Generally trees, either grown naturally or by horticultural and yield fruits or timber have been considered as perennial crop in the project. For example, tamarind, coconut, mango, etc. are perennial crops.
- n. **Project Affected Family (PAF)** means- (i) a family whose primary place of residence or other property or source of livelihood is adversely affected or involuntarily displaced by the acquisition of land for the project (ii) any tenure holder, tenant, lessee or owner of other property, who on account of acquisition of land in the affected area of otherwise, has been involuntarily displaced from such land or other property; (iii) any agricultural or non-agricultural labourer, landless person (not having homestead land or agricultural land) rural artisan, small trader or self-employed person; who has been residing or engaged in any trade, business, occupation or vocation in the affected area, and who has been deprived of earning his livelihood or alienated wholly or substantially from the main source of his trade, business, occupation or vocation because of the acquisition of land in the affected area or being involuntarily displaced for any other reason.
- o. **Project Affected Household (PAH):** A social unit consisting of a family and/or non-family members living together, and is affected by the project adversely and/or positively.
- p. **Project Affected Persons (PAPs),** any persons who have economic interests or residence within the project impact corridor and who may be adversely affected directly by the project. PAP include those losing commercial or residential structures in whole or part, those losing agricultural land or homestead land in whole or part, and those losing income

sources as a result of project action. PAPs would be of two broad categories, 'PAPs with Major Impact' and 'PAPs with Minor Impact'.

- a. **Major Impact:** those properties where the major part of the structure/land is affected and becomes untenable and the affected party is unable to live/do business in the unaffected portion of the property, OR, 25% or more portion of the property is affected.
- b. **Minor Impact:** all other impacts other than major impact will be treated as minor impacts, OR, those properties where a part of the structure/land is acquired and the remaining portion is intact and the affected party can continue to live/do business in the unaffected portion of the property.
- q. **Replacement Cost** of the acquired assets and property is the amount required for the affected household to replace/reconstruct the lost assets through purchase in the open market. Replacement cost will be calculated at R&BD current Schedule of Rates without depreciation. Replacement cost shall be in line with the provisos of the Entitlement Matrix of the project.
- r. **Small farmer** means a cultivator with an un-irrigated land holding upto two hectares or with an irrigated land holding upto one hectare, but more than the holding of a marginal farmer.
- s. **Squatter** means a person/family that has settled on the public land without permission or has been occupying public building without authority prior to cut-off date and is depending for his or her shelter or livelihood and has no other source of shelter or livelihood.
- t. **Tenants** are those persons having bonafide tenancy agreements, written or unwritten, with a private property owner with clear property titles, to occupy a structure or land for residence, business or other purposes.
- u. **Vulnerable Persons:** persons who are physically challenged, widows, persons above sixty years of age, below-poverty line households and woman-headed household.
- v. **Woman-Headed Household:** A household that is headed by a woman who is the major bread-earner of the household. This woman may be a widow, separated or deserted person.

2.2 ENTITLEMENT MATRIX

3. SOCIO-ECONOMIC PROFILE

3.1 PROFILE

45. The chapter presents socioeconomic profile of villages/settlements adjoining Bayad-Lunawada corridor. The corridor Bayad-Lunawada enroute Bayad taluka of Sabarkantha district, Virpur taluka of Kheda and Lunawada taluka of Panchmahal district entailing a total length of nearly 44.5km. Project corridor adjoins 28 villages and 1 town with a population of 80,884 as per Census 2001. Summary of demographic details of talukas and villages are given in Appendix 3.1.

46. **Population Distribution:** Project talukas through which the corridor passes comprises total population of 5.64 lakh in 2011 which was 5.03 lakh during 2001. Population of these talukas grew at an Average Annual Growth Rate (AAGR) of 1.2% during the year 2001 to 2011. The project corridor passes through 28 villages and 1 town (Lunawada). Total population of villages and towns abutting corridor is 80,884 which is almost 16% of the taluka population (Census 2001). Settlements located along the corridor are Sathamba, Hatipura, Lalsar, Salwada and Lunawada town.

47. **Household Size:** The total number of HH along project corridor is 15,695. Average Household (HH) size along the project corridor villages is 5.2.

48. **Population Composition:** The overall population below 6 years age in project corridor taluka is 13%. The average sex ratio for project corridor talukas is 932 (as per 2001 census). Sex ratio for project corridor villages is 925. The Juvenile sex ratio is 878 for project corridor talukas and 864 for the project corridor villages.

49. **Social Characteristics:** The literacy rate is 67% (as per 2001 census) in project corridor talukas.

50. As per Census 2001, total SC and ST population for settlements and villages along the corridor was 7,985 which is nearly 10% of total population for settlements along the project corridor.

51. **Occupational Structure:** Total workers according to census 2001 in project corridor taluka was 2.50 lakh, this comprises 71% workers classified as main workers¹¹ and rest 29% as marginal workers¹². Taking into account the composition of workers majority of workers are cultivators (49%) followed by workers engaged in other activities¹³ (26%).

⁹ Census 2011 information at village level is not yet published and relevant details at Taluka level has been given in Appendix 3.1.

¹⁰ Juvenile Sex Ratio is the sex ratio of population in age-group 0-6 years

¹¹ Main workers were those who had worked for the major part of the year preceding the date of enumeration i.e., those who were engaged in any economically productive activity for 183 days (or six months) or more during the year

¹² Marginal workers were those who worked any time at all in the year preceding the enumeration but did not work for a major part of the year, i.e., those who worked for less than 183 days (or six months).

¹³ Other Workers: all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'. The type of workers that come under this category of 'OW' include all government servants, municipal

52. The total workers in project corridor settlements are 33,561. Workers composition for the villages/settlements along the corridor shows highest share of workers engaged in others sector (54%) followed by cultivators(27%).

53. **Workforce Participation Ratio (WPR):**The WPR for project corridor taluka in 2001 was 50%.Comparing and analysing the male WPR and Female WPR, it was recorded that the female WPR is 31% as against male WPR of 51%.The average WPR for Project corridor settlements is 41% which is lower than the talukas WPR.

employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'

4. IMPACTS ON PEOPLE AND COMMUNITY ASSETS

4.1 MINIMISATION OF RESETTLEMENT IMPACTS

54. The proposed road improvement will be carried out within the available RoW throughout the corridor, except in 10 village locations where, 18.05 ha of private land outside RoW will be acquired for geometric improvements. Efforts are made to minimise any adverse impact on structures and other assets located within the proposed CoI.

4.2 POTENTIAL IMPACTS

55. A total of 2.61 ha of government land and 18.05 ha of private agricultural , belonging to 313 households will be affected due to curve improvement in 10 villages. Land acquisition along the corridor is envisaged at Tajpur (0+000 km to 0+825 km), Dhamod (0+825 km to 4+650 km), Sadhakpur (4+550 km to 5+300 km), Lalsar(5+300 km to 7+900 km), Vakhampur(7+900 to 8+600 km), Ucharpi (8+600 km to 10+775 km), Undra(10+775 km to 12+400 km) Hadod(8+400 km to 7+400 km), Khantana Bhensavada (7+400 km to 6+570 km), and Madia (3+083 km to 2+581 km). Other than these 10 village locations, the proposed improvement will be carried out within the existing RoW of 24m throughout the corridor.

56. A total of 34 commercial structures (kiosks), 1mixed property (residential-cum-commercial) and 1 vacant land will be affected due to the proposed improvement. The commercial structure affected, belong to non-titleholders.

57. Other assets affected within the affected portion of the properties are 555 trees (private), 2 water taps, 3 water tanks, 8 motor pumps, 25 open/dug wells, 3 hand pumps, 1 barbed-wire fence and 3 boundary walls.

58. The proposed road improvement will not affect any cultural properties. Boundary wall of a school located at km 11+650 in Sathamba village will be impacted.

59. The potential resettlement impacts and respective categories of affected population are given in Table 4.1.

Table 4.1: Potential Resettlement Impacts

4.2.1 Cut-Off Date

60. Cut-off date for non-titleholders is 31st May 2012 (date of socio-economic survey) and for titleholders the date of section 4 (1) notification as per LA Act, 1894 is the cut-off date.

4.2.2 Overview of Design Modifications

61. The concerns raised by the community have been documented and discussed in detail with the Design Team. The views and suggestions of the community are integrated into the road design wherever feasible. This includes road safety measures such as pedestrian crossings, warning signs, markings, provision for parking spaces, provision for retaining wall at road section traversing water bodies, limiting curve improvements within the existing RoW etc. Efforts are made to minimise any adverse impact on structures and other assets located within the RoW.

4.2.3 Videography of the Project Corridor

62. Videography of the project corridor, covering the entire RoW has been carried out on 07.05.2012, prior to the conduct of the census surveys. This exercise formed the basis for the inventory of non-titleholders.

4.2.4 Census and Socio-Economic Surveys

63. The Census survey was carried out for all affected households within the CoI and detailed socio-economic survey has been carried out on representative basis. Census and socio-economic survey of the affected households was carried out on 22.05.2012 to 31.05.2012. The surveys were administered through a structured questionnaire (Appendix 4.1). Data was collected for each affected property, the details were documented and photographs of structures were taken. The list of impacted structures is enclosed in Appendix 4.2 and corresponding Map is given in Appendix 4.3. The findings of the survey has been analyzed and presented in succeeding sections. The survey information helped to generate necessary input for the preparation of RAP. It also provided a baseline assessment of potential impacts on affected households and formed the basis for estimating the entitlement-based resettlement budget.

4.3 IMPACT ON PROPERTIES

4.3.1 Major and Minor Impacts

64. Impact on the affected properties has been classified into major and minor impacts, which are defined below.

- **Major impact:** those properties where the major part of the structure/land is affected and becomes untenable and the affected party are unable to live/do business in the unaffected portion of the property, OR, 25% or more portion of the property is affected.
- **Minor impact:** all other impacts other than major impact will be treated as minor impacts, OR, those properties where a part of the structure/land is acquired and the remaining portion is intact and the affected party can continue to live/do business in the unaffected portion of the property.

1. Details of properties having major and minor impacts are presented in Table 4.2.

4.4 SOCIO-ECONOMIC PROFILE OF AFFECTED POPULATION

69. The strategy for socio-economic survey has been drawn up based on the findings of SIA exercises¹⁵ and the sample drawn for the detailed socio-economic survey is representative and includes all categories of impacted population. Socio-economic details were collected for 76 households (in which 65 are landholders) and the remaining 273 households will be covered during the PAP verification and preparation of Micro-plan exercises to be carried out by NGO during RAP implementation. The non-surveyed households are basically landholders.

70. 76 PAHs comprises 559 project affected persons (PAPs). Out of 559 PAPs, 264 are female. The socio-economic profile of the affected population is analyzed and presented in the following section.

71. **Social Category:** Of the total affected households, 36 belong to General community, 14 belong to SC community and 25 to Other Backward Community (OBC) and 1 to ST community.

72. **Woman Headed Households:** The project will affect 5 woman-headed households.

73. **Vulnerable Group:** 85% of the total Vulnerable Household are belong to BPL Category. Vulnerable households along the corridor are presented in Table 4.7.

Table 4.7: Distribution of Vulnerable Group

5. STAKEHOLDER CONSULTATIONS

5.1 CONSULTATION

79. Project affected people were informed about the proposed road development and potential impacts during consultations. Consultations with the roadside communities were undertaken at 5 locations as part of the Social Impact Assessment. Peoples' representatives, affected people and common public participated in the consultations. Details of consultation are presented in Table 5.1. A format for consultation has been developed incorporating 'open-ended' discussion points to gather information. Copy of the consultation-format is given in Appendix 5.1.

- In general, the community welcomed the proposed project and was of the opinion that the proposed road improvement should minimize land acquisition to the extent possible. PAPs have requested for adequate time in case the structure requires to be removed.
- The people wanted to know more details about the project, the likely time of land and structure acquisition, the probable time of project initiation and completion and also more about compensation for affected structures.

80. At the start of the consultation sessions, the project objectives, proposed improvements for the corridors were informed to the participants. It was informed to the participants that there was a conscious effort to minimize land acquisition and impacts on private lands and assets. Accordingly designs are being worked out to avoid land acquisition, especially in the settlement stretches. Only at very constricted locations, where the safety and design standards shall warrant, the acquisition of land has been proposed in the project. Further, it was clarified that, the consultations will form inputs to further refine the project designs to minimize lands on private and community structures and assets.

5.2 OUTCOMES OF CONSULTATIONS

81. The outcomes of consultations were discussed with the design team, and all attempts were made to integrate the views and suggestions of the community into the project design. The outcomes of consultation and its integration into the project design are documented in Table 5.2.

Some of the land owners are willing to part with their land; provided alternative land is made available to them as compensation for the affected land. Agricultural land along the project corridor is very fertile and productive. Loss of land will adversely affect their livelihood. The proposed road improvements should be carried out within the available government land. 	<ul style="list-style-type: none"> Affected land will be compensated based on most recent Jantri value following the provisions of RPF and compensation amount will be disbursed before the initiation of civil works. Apart from providing compensation for affected land based on most recent Jantri value, (i) registration and stamp duty charges for acquired land; and (ii) all fees, taxes and other charges as applicable under the relevant laws will be provided following the provisions of RPF. 5.3 DETAILS OF CONSULTATIONS WITH OTHER STAKEHOLDERS

5.3.1 Consultation with Government Officials

82. Consultations were carried out with officials to study the current land acquisition and compensation practices in Gujarat. The outcomes of the various meeting have been discussed in Table 5-3. The discussion revealed that the current practice for fixing of land value for payment of compensation was based primarily on average of five year sale deeds. These processes are being increasingly adopted as it provides for a satisfactory compensation to the affected persons, thereby, facilitating timely project implementation. The suggestions received have provided

significant input towards selection of the most suitable method for land acquisition and compensation payment for GHSP II.

Table 5-3: Outcomes of Consultation with Government Officials

Sl. No.	Name of Agency	Key Issues Discussed
1.	Gujarat State Road Development Corporation, Gandhinagar	Method of Land acquisition and compensation followed for recent highway projects <ul style="list-style-type: none"> Land acquisition is based on Land Acquisition Act, 1894. For some road projects, the acquisition of land was under emergency clause (section 17) of the Land Acquisition Act, 1894. Land rate estimated was the average of registry rate of land in past five years in respective villages Valuation of the affected structure was carried out by concerned subdivisions of R&BD based on Schedule of Rates considering depreciation. Cost of standing crops were assessed by concerned Agriculture Offices.
2.	Town Planning and Valuation Department, Gandhinagar	Process of land valuation <ul style="list-style-type: none"> <i>For acquisition of land for public purpose:</i> land rate is based on last five-year sale-deed instead of Jantri value. <i>For allotment of private land for public purpose:</i> Land value is finalized by considering one-year sale-deeds. After considering average rate of comparable sale-deeds, multiplicative factors are applied to arrive at the final value of land. These factors include development plan proposals, development level of the area, connectivity, upcoming and proposed projects, land use conversion etc. The allotment rate thus decided by the TPVD is generally considered as the 'market rate' of land in respective locations and is nearly 4-5 times higher than the sale-deed estimates.
3.	Land Acquisition, Revenue Department, Gujarat	Ascertaining of land value for projects undertaken by GIDC, GIPCL or GPCL <ul style="list-style-type: none"> Land acquisition was as per LA Act, 1894. Land rates were decided based on both Jantri value (the mention is about the pre-revised version of Jantri rates) and average of five-year sale-deed-estimates done by District Level Price Committee. Both the rates were then disclosed to the affected persons for choosing the preferred option. Near 80% accepted the sale- deed estimates and were paid compensation as per Section 11(2) of LA Act, 1894, by using consent method for payment of compensation. Land owners who did not agree to sale deed estimate were compensated through "regular award" process which is decided by the Court. The same procedure is being followed for land acquisition in road projects of NHAI, following the provision of National Highway Act 1956.
4.	Office of Superintendent of Stamp, Government of Gujarat	Process of fixing Jantri Value by the GoG <ul style="list-style-type: none"> Land values are collected from every square kilometre area, termed as 'Grids'. Separate Information Schedules are used for urban areas and rural areas. In case of village area: <ul style="list-style-type: none"> rates are collected for both agricultural and non-agricultural land; and land rates are recorded for various categories such as those abutting National Highway/State Highway/MDR/ODR; In case of urban areas: rates of open plot, flat/apartment, office space, shop, industrial, agricultural land are considered. The Jantri value reflects the market rate prevailing in respective areas, however in areas where there are no transactions done in recent past, the rates may not be true reflection of market rates. The finalised Jantri value is finally published for every plot (survey number based).
5.	Heduva Hanumat Gram Panchayat Office	Current cost of land and other assets in the area <ul style="list-style-type: none"> The Jantri rate (the mention is about the pre-revised version of Jantri rates) of land is lower than the market rate with differences between the two going up nearly 2-times. Bore wells cost about Rs.10 lakh, including installation charges.
6.	Vasai Gram Panchayat Office	

Sl. No.	Name of Agency	Key Issues Discussed
		Presently, one bore-well installed in a farmland is used for watering adjacent farmland, on cost-sharing basis. These water sources should be saved to the extent possible.
7.	Advocates dealing with cases of land acquisition related to Narmada Main Canal Project	Ascertaining of compensation for acquisition of land <ul style="list-style-type: none"> Nomination of an Expert Committee to decide on the market value of land. The Committee studied the rates of land in adjacent villages and considered the rate of land (Rs.35 per sq.mt) in the nearby village Javaraj, where the rate was previously decided upon through a Court Judgement. Allowing for 10% increase per year, the Expert Committee decided the rate of land as Rs.45.50 per sq.mt. The land-owners will thus entitled for rate decided by the Expert Committee in addition to all statutory benefits (includes 30% solatium, 12% per year for the period from date of Section 4(1) Notification to date of taking possession of land, 9% / year as market rate for one year and 15% / year as market rate after the first year). Negotiation has not taken place in any phase of land acquisition in the case of Narmada Main Canal Project, in the villages under consideration.
8.	Gujarat State Water Supply and Sewerage Board (GWSSB)	<ul style="list-style-type: none"> Valuation of Bore-wells, pipelines in the affected land is done by GWSSB based on the latest published Schedule of Rates. For assessing the value of any water sources or related equipment located within a parcel of land to be acquired will be done by GWSSB on request by respective government agency/body which requires the land.
9.	Department of Agriculture and Cooperation, GoG	<ul style="list-style-type: none"> Valuation of agriculture/horticulture crops is done by District Agriculture Office/District Horticulture Office respectively. The valuation is based on the District-wise production and yield statistics published by Directorate of Agriculture, Krishi Bhavan and the current market rate of the affected crop obtained from respective Agriculture Produce Market Committee (APMC).
10.	Gujarat State AIDS Control Society	<ul style="list-style-type: none"> GSACS provided all sorts of cooperation and given necessary instructions to Target Intervention NGOs functioning in respective corridors. It is opined that GSACS will not fund any intervention initiatives taken up by other government agencies. Technical advisory services in the form of advocacy measures shall be provided to the PIU of R&BD. IEC materials developed by NACO/GSACS can be utilized in generating awareness and for exploring measures towards prevention of the diseases.

5.3.2 Consultation with Non-Governmental Organisations

83. NGO operational in the project area was consulted to understand the issues of tribal and social development, livelihood, health, gender specific concerns etc. Interactions with the NGO was necessary to create an encouraging environment for carrying out social mobility survey, trucker survey for HIV/AIDS Prevention plan and public consultations. The details of the meetings have been summarized in Table 5-4.

Table 5-4: Outcomes of Consultation with NGOs

Name of Organisation	Location	Key Function Areas	Key Issues Discussed
SARTHI	Bayad-Lunawada	Tribal development, Women empowerment	Mobilization of tribal communities and spreading awareness about their rights and entitlements by forming and strengthening their Community Based Organizations such as women Self Help Groups and Village Development Committees.

6. MITIGATION MEASURES AND PROCESSES

6.1 COMPENSATION AND ASSISTANCE PROCEDURES

84. Compensation and eligible assistances shall be provided as per the Entitlement Matrix. ESMU will facilitate for joint verification of land by LAO. Valuation of assets within affected land will be carried out by respective Departments¹⁶. Implementing NGO will facilitate and assist in the valuation of assets.

85. NGO will prepare the Micro-Plan for each affected person. Micro-Plan will have details of affected area of land and the compensation for the same (including compensation for various assets located within the affected land) along with entitlements as per the Resettlement Policy Framework for respective members of households. The compensation for land and other assets for titleholders (assets alone in the case of non-titleholders) will be disbursed through Revenue Department. Assistance as per entitlement provisions for both titleholders and non-titleholders will be disbursed through PIU.

6.2 INCOME RESTORATION MEASURES

86. Income restoration (IR) schemes will be designed in consultation with affected persons so as to benefit them. Based on the information collected on IR activities through the census socio-economic surveys, the implementing NGO will identify suitable IR programme for the affected persons. Steps to be followed for income restoration include:

- **Verification of PAPs and choosing respective income restoration activities** – NGO needs to verify the affected persons and prepare a list of feasible income restoration options. While identifying IR options, the following factors shall also be considered:
- education level of affected persons,
- skill possession,
- likely economic activities in the post-displacement period,
- suitability of economic activity to supplement the income, and
- market potential and marketing facilities.

87. The NGO will assist in identifying appropriate alternative economic rehabilitation schemes from the list of government schemes (See Chapter 4). It shall counsel and consult the PAPs on their preferred options. NGO in consultation with the PAPs, other stakeholders prepare IR proposal for PAPs. The proposal will be submitted to project authority for approval. Upon approval, the IR activities will be started by the NGO. The scope of work of the NGO to be engaged for the implementation of RAP includes all the above aspects related income generation/restoration activities for PAPs.

¹⁶ Timber trees – Forest Department; Perennial trees and standing crops – Agriculture and Cooperation Department; Built-up structures – Roads and Buildings Department; Water resources – Gujarat Water Supply and Sewerage Department.

88. **Provision of Training:** Option for training on skill enhancement for those losing their livelihood has been provided in the Entitlement Matrix. Training needs assessment shall be carried out and that shall form the basis of identification of the further training needs. The beneficiary group includes member of the identified ST household. Support shall be provided through the training agency/department to PAP in seeking employment. Training programs will be conducted by PIU with assistance from NGO. Periodic review meeting will be carried out by the PIU to assess the efficacy of training programs and corrective measures, if required, will be suggested for coordination with various training institutes/departments.

89. **Identification of Training Institutes/Departments:** Based on trades selected, NGO shall identify the training institute for different trades / activities who can provide on the job training. NGO shall group the affected persons based on their preferred trades and make all the arrangements such as fixing the venue etc. (See Terms for NGO in Annexure). The suggested institutes include:

- (i) Education Department, Govt. of Gujarat (self employment programmes for women);
- (ii) Tribal Development Department, Govt. of Gujarat (Vanbandhu Kalyan Yojana); and
- (iii) Commissionerate of Rural Development, Govt. of Gujarat.

90. **Monitoring:** After training, the contracted M&E agency shall carry out the monitoring. Internal monitoring is the responsibility of PIU with support from PMC. (See **Section 7.1.3** for list of indicators).

6.3 GENDER PLAN

91. The proposed road development is expected to open up new economic opportunities for women to upgrade their skills and also better accessibility to educational and health facilities. During consultations, women suggested to provide adequate safety measures especially at school locations. There are 5 woman-headed households amongst the affected households. To ensure that women are secure in receiving payments all benefits will be provided in joint account where woman will be first beneficiary.

92. **Women labourers in the construction work force:** there will be requirement of unskilled laborer where women may likely to involve in such work. Women as household members of the skilled and semi-skilled laborers will also stay in the construction camps and will be indirectly involved during the construction phase. The construction contractors are expected to bring along their laborer force. Thus, in most cases the laborers, both male and female, will be migratory laborers and there will be involvement of local laborer force, especially for unskilled activities. There will be involvement of local women also in the local laborer force. Foreseeing the involvement of women both directly and indirectly in the construction activities, certain measures are required to be taken towards welfare and wellbeing of women and children in-particular during the construction phase.

6.3.1 Facilities for Women in Construction Camps

93. For women working at the construction site and staying in the labour camps, the following facilities will be ensured:

- (i) temporary housing - during the construction the families of labourers/workers will be provided with the suitable accommodation and facilities for other civic requirements, particularly health and sanitation;
- (ii) health centre - health problems of the female workers will be taken care of through health centres temporarily set up for the construction camp. These will provide medicines and

minimum medical facilities to tackle first-aid requirements or minor accidental cases will be provided. Additional child care facilities /crèche will be ensured.

- (iii) In addition, linkage to nearest higher medical care will be ensured whenever required. The contractor will arrange the visit of doctor, at least once in week, to provide required medical support to the workers in general and women in particular.

94. A strong vigilance mechanism will have to be developed by the contractor to ensure ceasing abuses at work places. RAP implementing NGO will provide necessary support to check such exploitation. Scheduling of working hours for women also needs to be regulated. Women, especially the mothers with infants will be exempted from the night shifts and from prolonged working hours.

95. The Civil Works Contractor shall be responsible for the above interventions. The Social Specialist at ESMU shall along with the contracted NGO facilitate the preferential provision of work opportunities to those interested women. They shall be also responsible for internal monitoring of these interventions on a periodic basis.

96. The budget for various facilities for women in construction camps as stated above have been provision and included in the bid document [refer Clause 111 on Precautions for safeguarding the environment, Technical Specifications in the Bid Document, which comply with (i) Factory Act 1948; (ii) Building and Other Construction Act (Regulation of Employment and Conditions of Services) Act, 1996; (iii) Contractor (Regulation and Abolition) Act, 1970] and respective Environmental Management Plans (EMPs). The External Monitoring to be undertaken by the PMC shall also monitor the implementation of these provisions based on suitably devised gender sensitive indicators.

6.4 HIV/AIDS ISSUES AND PLAN

97. Detailed consultations have been conducted with medical institutions, trucker community and local leaders along Bayad-Lunawada corridor as part of the study with respect to HIV/AIDS Prevention Plan (HPP). Survey among trucker community has been carried out using structured questionnaires. These information provided inputs towards development of a strategy and action plan outlining measures for addressing impacts on the trucker community, HRGs associating with truckers along the project corridors.

98. There are three CHCs located in the vicinity of the corridor, at Bayad, Vatrak and Lunawada, in which Integrated Counseling and Testing Centre (ICTC) facilities are available in Vatrak and Lunawada. Vatrak CHC is located at a distance of 6 kms from Bayad. The region does not have a Target Intervention NGO. HIV+ve cases have been reported from Lunawada and Vatrak CHCs. HIV+ve cases reported in Bayad town, Demai and Hathipura villages of Bayad Taluka and in Undara and Lunawada villages Lunawada taluka.

99. Detailed account of various issues related to HIV/AIDS based on the consultations carried out with ICTC counselors, NGO personnel, trucker community, etc., along the corridor are presented in the HPP. Strategic action plan for mitigation of identified issues along with budget are also incorporated in HPP.

6.5 ROAD SAFETY ISSUES

100. Road safety audit carried out as part of DPR preparation reveals high number of accidents¹⁷ along the project corridor due to inadequate width of shoulders, poor sight distance in sharp locations, lack of treatment in junctions, narrow width of cross drainage works and the parapets of the culverts. Safety interventions included in the design with respect to curve locations are warning signs on both sides of curves and restricted speed, design of T-junction with channelization, posting of proper markings and designs, etc. A minimum of 1.5 m shoulder has been provided. Wherever feasible the culverts will be expanded in width to accommodate shoulders/extended carriageway. In places where this is not feasible adequate steps have been taken for delineation of the parapets. Delineation of trees with object markers will be done. Details of road safety issues and interventions are provided in Safety Audit Report (Volume III of DPR).

101. Safety interventions in form of warning signs have been taken up for all the curve locations in project corridor. Intersections in form of T junction, Y junctions are provided with properly designed access along with markings and signs. Habitations seeking safety interventions such as Mahadevpura village (002+580 to 003+150), Savela Kampa village (004+250 to 004+500), Anandpura kampa village (007+300 to 007+450), Schools near Sathamba village (010+500 to 010+750), Sathamba village (011+200 to 012+200), Sathamba village quarries (012+500 to 013+000), Kasyavant School (014+175 to 014+250), Hathipura School (015+200 to 015+325), Dhamod village (003+700 to 003+925), Lunawada village (000+000 to 001+100), and Bright School (002+550 to 002+650) are provided with traffic calming measures and informatory signs. Speed limit signs are posted at the entrance along with the termination sign after crossing the village. Raised pedestrian crossing and rumble strips with proper markings and signs are provided near the schools.

¹⁷First Information Report (FIR) details relating to the traffic accidents are collected from Bayad taluka for the period from 2006 to 2011. The data collected from Bayad police station indicates that significant number of accidents is concentrated at Savela Kampa, Talad and Sathmba. There are a total of 24 fatalities and 28 injuries reported in a span of 6 years (2006 – 2011), indicating 4 deaths in a year accounting for about one fatality per 11 km in a year.

7. IMPLEMENTATION ARRANGEMENTS

7.1 INSTITUTIONAL ARRANGEMENTS FOR THE PROJECT

102. A dedicated unit, Environmental and Social Management Unit (ESMU) has been established within the PIU towards implementation of environmental and resettlement provisions in GSHP-II. The PIU, headed by the Chief Engineer will have overall responsibility for policy guidance, coordination and planning, internal monitoring and overall reporting at the project level. The following section illustrates roles and responsibilities of institutional and individual stakeholders with respect to implementation of the RAP provisions.

7.1.1 Environmental and Social Management Unit (ESMU)

103. ESMU will be headed by an officer of the rank of Executive Engineer (EE), and will be responsible for all activities related to resettlement and rehabilitation. Chief Engineer (World Bank Projects) will have overall responsibility of the project, who will be assisted by Superintending Engineer (SE). The EE will be assisted by an Environmental Specialist and a Social Specialist. ESMU will be housed in R&BD headquarters in Gandhinagar. One each Executive Engineers at field divisions¹⁸ will be responsible for E&S activities

Roles and Responsibilities of EE at State Level:

- Co-ordinate the implementation of R&R activities with PIU, field staff, engineering and revenue officials;
- Ensure availability of budget for R&R activities;
- Approve micro plans prepared by the NGOs for implementing RAP;
- Monitor the progress related to R&R and LA carried out by NGO and M&E Consultants;
- Hold periodic meetings on R&R implementation and review of activities at Divisional Offices

104. Respective Divisional Offices at field level will assist the PIU in carrying out the R&R activities in roads passing through respective districts.

Roles and Responsibilities of Divisional Offices at District Level;

- Ensure continued participation of the people in entire project cycle;
- Verify and send the micro plans for approval of the PIU
- Assist the PIU in monitoring the progress related to R&R and LA carried out by NGO and M&E Consultants;
- Hold periodic meetings on R&R implementation and report to the PIU.

105. The proposed implementation arrangement for the management of social issues has been given in Figure 7.1.

¹⁸ The Field Divisions of R&BD are located at Rajkot, Mehsana and Vadodara.

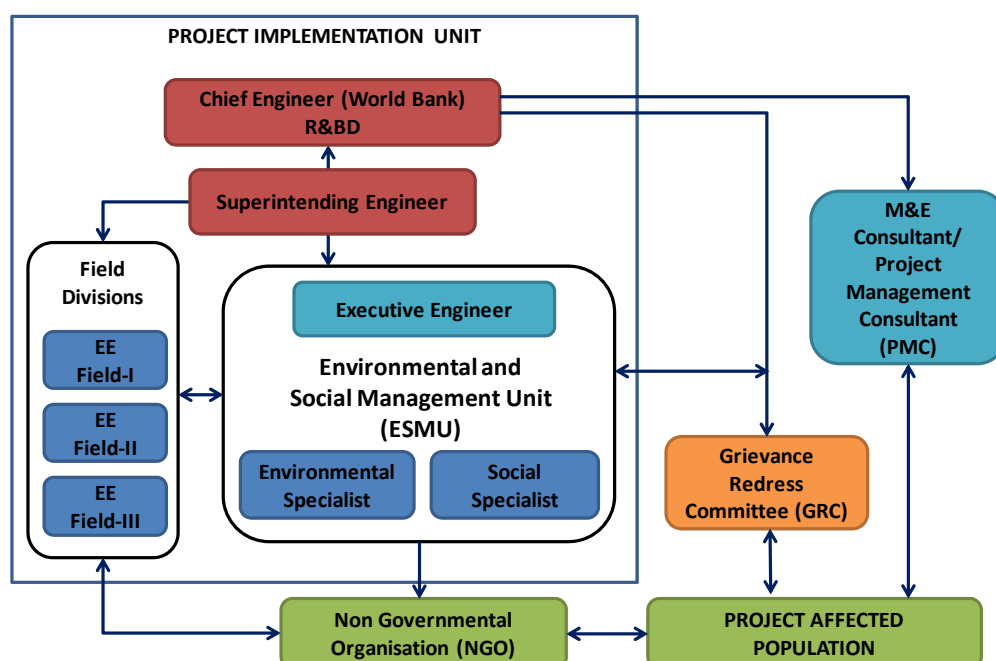

Figure 7.1: Implementation Arrangements

106. The Social Specialist will assist the EE. The Social Specialist shall have a minimum of 5 years of experience in resettlement and rehabilitation in highway projects.

Roles and responsibilities of Social Specialist at the State Level

- Assist SE to perform R&R activities.
- Co-ordinate with the district administration on LA and R&R.
- Facilitate the appointment of external agency for impact evaluation and co-ordinate evaluation activities to be taken up by the implementing NGO.
- Training of NGOs – class –room and on-site.
- Review of reports and documents submitted by the NGO.
- Training to R&BD staff on social aspect management and reporting.
- Preparation of Social Aspect Status Reports for the WB and Government of Gujarat.
- Preparation of periodic progress reports for the WB and Government of Gujarat.
- Documentation of case histories.
- Preparation of reporting formats, checklists, guidelines on social management aspects.
- Translate the executive summary of RAP in Gujarati language and disseminate it among the project stakeholders and at important places along the project road.
- Organize fortnightly meetings with the NGO to review the progress on R&R and report to SE and CE.
- Review micro plan and monthly progress reports submitted by NGO.

Roles and responsibilities of Social Specialist at the District Level

- Participate in public consultations.
- Management of conflict resolution exercises for social issues.
- Assistance in-community property & temple relocation cases.
- Monitoring of community enhancement plans.
- Liaison with district administration and concerned departments for dovetailing government social security schemes for the socio-economic wellbeing of the PAPs.
- Develop and maintain a PAP level database including aspects related to losses, compensation, R&R entitlement, release of funds and utilization.
- Assistance in Cross-verification of PAPs identified by the NGO.

- Finalization of individual entitlements in co-ordination with the NGO and PIU.
- Checking of ID cards submitted by the NGO.
- Participation in the ID card distribution process with NGO and PIU.
- Cross-verification of PAP training details submitted by the NGO.
- Coordination with concerned divisions regarding distribution of shifting, subsistence and training allowances.
- Assistance and coordination with concerned divisions regarding notification process under RAP.
- Assistance and coordination for resettlement cases with State Road Project Divisions and concerned Government departments.
- Supervision of the socio-economic surveys.
- Assistance in redressing grievances and coordination of field activities with the NGO.
- Assistant in Market Value Assessment Procedures.
- Technical assistance in creating socio-economic data base of HHs losing land.

7.1.2 Implementation Support by NGO

107. As prescribed in the World Bank Operational Policy¹⁹, GSHP-II envisages involvement of NGOs in the implementation of RAP. The roles and responsibilities of NGO are summarized as follows:

- Undertake verification of PAPs
- Explain to PAPs about the potential adverse impacts and proposed mitigation measures and, R&R entitlements;
- Distribute the dissemination materials including pamphlets on RAP and other aspects;
- Facilitate ESMU in organizing public information campaign at the commencement of R&R activities;
- Prepare the micro plans;
- Participate in the meetings organized by ESMU;
- Provide support for implementation of RAP;
- Prepare and issue identity cards to identified PAFs;
- Facilitate opening of joint bank accounts (PAPs and his/her spouse) for individual PAPs;
- Ensure that all benefits are provided in joint account where women will be the first beneficiary;
- Assist PAPs in receiving compensation, focusing on vulnerable PAPs to ensure that they get their dues on time;
- Generate awareness about the productive use of compensation money and R&R grants;
- Explain the resource base and other opportunities to enable them to make informed choices and participate in their own development;
- Ensure that vulnerable PAPs are given their dues both for payment of compensation and rehabilitation assistance;
- Submit monthly progress reports to ESMU;
- NGOs will help in HIV awareness;
- Identify training needs of PAPs for income generating activities and ensure they are adequately supported during the post-training period on respective income generating activities, and,

¹⁹ Annex A: Involuntary Resettlement Instruments, OP 4.12. The World Bank Operational Manual. December 2001.

- Ensure that the grievances and problems faced by PAPs are presented to the Grievance Redress Committee for their resolution. (See detailed Terms of Reference for NGO in Annexure)

7.1.3 Monitoring and Evaluation

108. Internal monitoring of the implementation of social safeguards will be carried out by the PIU with support of Project Management Consultant/Supervision Consultant. Towards enhancing the quality of RAP/IPDP implementation, in addition to the internal monitoring by the PIU, external monitoring will be done by a third-party agency or Project Management Consultant (PMC) for technical as well as environmental/social aspects. The role of third-party agency/PMC towards external monitoring of social safeguards will include the following:

- Conduct periodic monitoring of RAP implementation on quarterly basis to provide early alert to redress any potential problems;
- Conduct mid-term and end term evaluation to assess target achievements and slippages with respect to implementation of RAP/IPDP; and
- Grievance redressal mechanisms – its functioning and processes along with complaints received and resolved will be monitored.

109. The RAP will contain indicators and benchmarks for achievement of the objectives under the resettlement programme. These indicators and benchmarks will be of (i): proposed indicators, indicating project inputs, expenditures, staff deployment, etc; (ii) output indicators, indicating results in terms of numbers of affected People compensated and assisted, training held, details of disbursements, etc; and (iii) impact indicators, related to the longer-term effect of the project on communities.

110. The benchmarks and indicators will be limited in number, and combine quantitative and qualitative types of data. The first two types of indicators, related to process and immediate outputs and results, will be monitored to inform project management about progress and results, and to adjust the work programme where necessary if delays or problems arise. The results of this monitoring will be summarized in reports which will be submitted to the PIU on a regular basis. Provision will be made for participatory monitoring involving the PAPs. Illustrative set of monitoring indicators for physical progress, financial progress and grievance redressal have been presented in Table 7.1, Table 7.2 and Table 7.3.

111. The objective of the RAP is to present the entitlements and action plan for the affected persons for payment of compensation and assistance for restoring livelihoods, and improving or at least retaining the living standards in the post resettlement period. In order to assess achievement of the overall objective of the RAP, the project shall carry out Mid and End-Term evaluation exercise to review the project implementation and progress against the pre-project baseline information. The parameters shall include: Economic i.e. households below poverty level, household income, occupational status (including changes following training, if any), changes in ownership of other economic (productive or non productive) assets. It shall form the basis for carrying out any mid-course corrections, if required and as necessary. Table 7.4 presents the mid and end-term evaluation indicators.

7.1.4 Complaint Handling Mechanism²⁰

112. Being a project involving large scale of civil works along with implementation of RAP/IPDP/HPP, the project is likely to receive suggestions, complaints, inquiries, etc. R&BD recognizes the importance of this and hence intends to address such issues through the Complaints Handling Procedures for GSHP-II, under which a centralized monitoring of all the complaints received from and through various mechanisms / individuals can efficiently take place under the information of WB.

113. Complaints Handling Procedure ensures that any citizen can lodge complaints with (i) any officer not below the rank of executive engineer in charge of the work, and (ii) any officer in charge of the redress systems in vogue in the state. Complaints related to (i) project services (new proposal/alteration in the scope of project, ongoing /completed project services in the areas of quality, procurement, R&R, environment and inaction/delayed action) and (ii) personnel (misbehaviour, corruption, service matter).

114. Complaints Handling Procedures assigns SE, PIU as the Chief Complaint Handling Officer with set roles and responsibilities. He is mainly responsible for complaints not related to personnel. Complaints related to personnel require to be dealt with as per the existing system. Training to the employees working under WB wing needs to be given for clear understanding of the procedures involved and to treat the complaints as an opportunity for improvement and not to discriminate / antagonize the complainant in future dealings.

²⁰ The complaint handling mechanism is meant for any citizen to lodge any kind of complaints (including R&R) while the GRC is specifically for R&R related issues. Secondly, the complaint handling mechanism even though it covers R&R aspects does not have any person outside of the project, hence R&R aspects require to be dealt by GRC.

7.1.5 Grievance Redress Committee

115. The project will establish a Grievance Redress Committee (GRC) to hear the complaints of project affected persons and resolve the same. The process will promote settlement of disputes and reduce litigation. GRC will be set up at the district level with District Collector as head. The following persons will be the members of GRC:

- District Collector or his designated representative of at least the rank of Assistant District Collector (preference would be given to women officers);
- The District Development Officer of the Department of Revenue;
- The Executive Engineer, PIU
- Representative from Social Sector/Local NGO (not involved with implementation) /Person conversant with similar issues and he/she should be widely respected and having problem solving skills (to be selected by DM / Collector).

116. GRC will be responsible for the following:

- Support PAPs in resolving issues related to R&R and LA;
- Record grievance and resolve them within stipulated time; and
- Inform PIU about any serious cases;

117. ESMU will provide all necessary help to PAPs in presenting his/her case before the GRC. The GRC will respond to the grievance within 15 days. The GRC will normally meet once in a month but may meet more frequently, if the situation so demands. A time period of 45 days will be available for redressing the grievance of EPs. The decision of the GRC will not be binding to PAPs. PAPs have the option of taking recourse to court of law, if he/she so desires. Broad functions of GRC are as under:

- Record the grievances of PAPs, categorize and prioritize them and provide solution to their grievances related to resettlement and rehabilitation assistance.
- The GRC may undertake site visit, ask for relevant information from Project Authority and other government and non-government agencies, etc in order to resolve the grievances of PAPs.
- Fix a time frame within the stipulated time period of 45 days for resolving the grievance.
- Inform PAPs through ESMU about the status of their case and their decision to PAPs for compliance.

118. The GRC will be constituted within 3 months by an executive order from GoG from the date of mobilization of RAP implementing NGO.

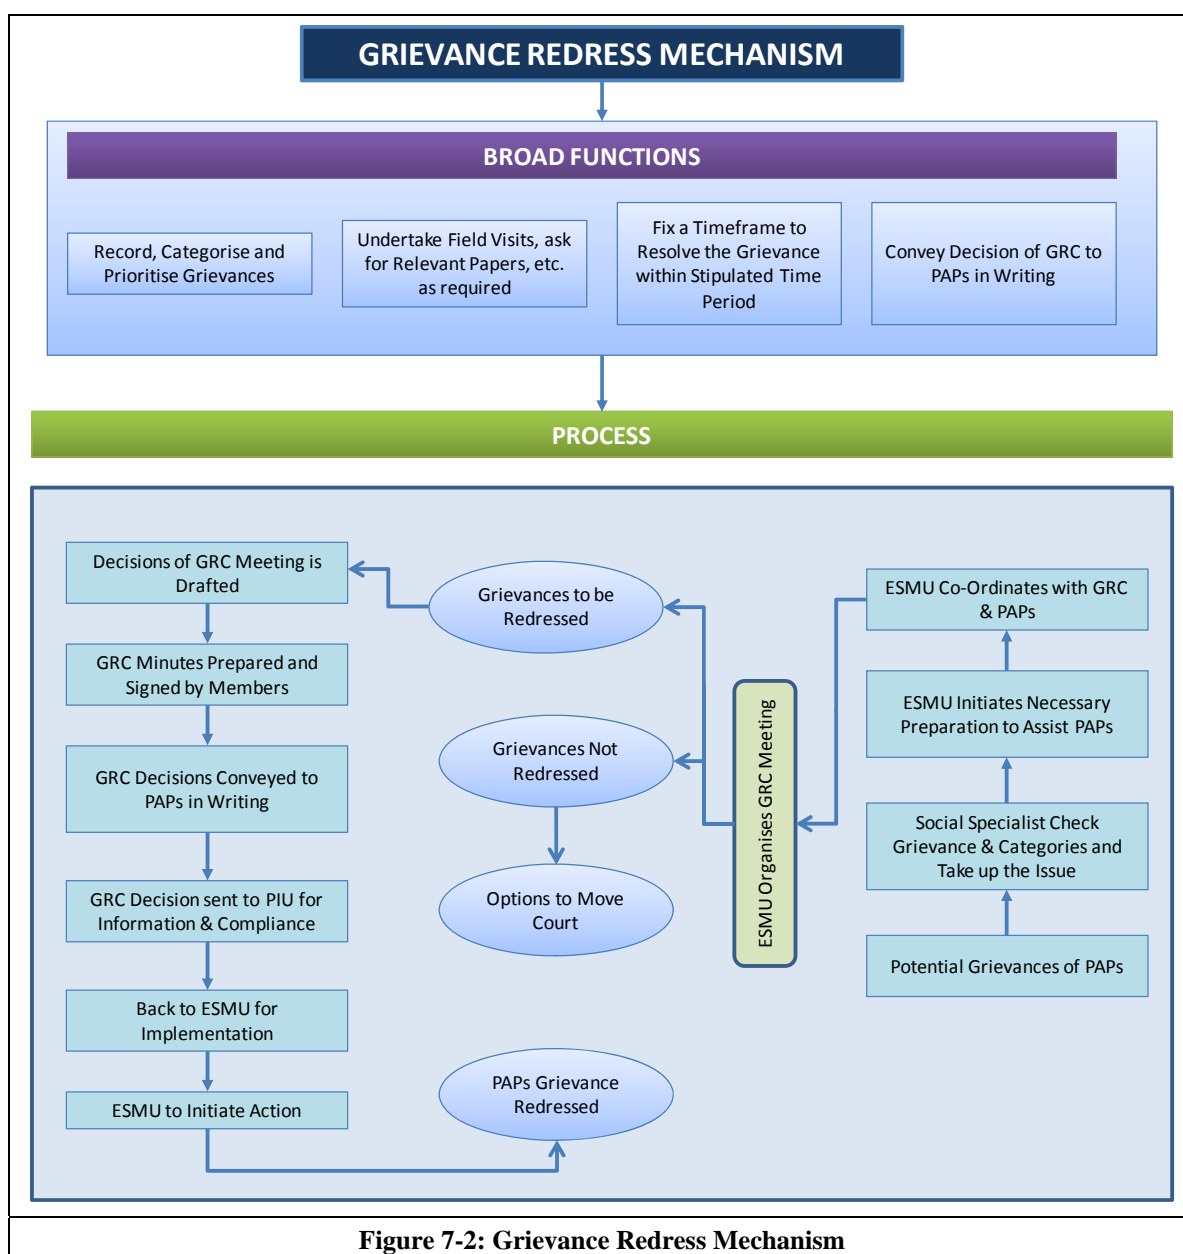

Figure 7-2: Grievance Redress Mechanism

7.1.6 Public Consultation and Disclosure

119. The Disclosure Policy of GSHP-II formulated by R&BD, GoG states that the Policy intends to enhance transparency in decision making process during implementation phase, including those for procurement, financial management, social and environmental safeguards, and to comply with all legal requirements under Right to Information Act, 2005.

120. In order to make the RAP implementation process transparent, a series of public disclosure meetings will be arranged. The RAP Executive Summary along with full RPF, translated in Gujarati language and List of PAPs with impacted assets, will be disclosed through public consultations and will also be made available through GSHP Website (<http://gshp2.gov.in>). The following project specific information related to social safeguards will be disclosed on the website. Relevant topics (first 10 bullet points) shall be disseminated by the implementing NGO among the community to elicit participation.

- Details of construction phase;
- Work opportunities for local labour;
- Notification process;

- Process relating to issuance of identity cards and preparation of microplans;
- Compensation and assistance payment;
- Details of social/cultural and religious properties to be relocated;
- Details of Grievance Redress Committee, its procedures and mechanism;
- Complaint handling procedures;
- NGOs role in implementation of RAP;
- Approved resettlement action plan;
- Approved entitlement matrix;
- Village-wise area of government and private land to be acquired;
- Disbursement status of compensation and assistance given to respective PAPs;
- Details of public consultation;
- Details of compensation given to land looser and PAP (Quarterly);
- Details of benefits of project to the public;
- Details of NGO involved in implementation of RAP;
- Progress Reports

121. The objective of the consultations is to (i) understand the view of the affected persons on rehabilitation and resettlement issues; and (ii) facilitate delivery of appropriate and acceptable entitlement options.

122. The process and proceedings of such consultations shall be documented and PIU respond to the issues raised during the consultations.

7.1.7 Mechanism for Training and Capacity Building

123. Training and development of project staff is an integral part for implementation GSHP-II. Training needs identification shall be carried out at State level (PIU), Regional level (Divisional offices of R&BD) and at Field level, based on which focused training modules shall be developed. This is with the objective of (i) strengthening in-house capacity to implement the RPF/RAP/IPDP/HPP; (ii) creating awareness, providing the tools for implementation and accompanying set of management procedures to all departments; and (iii) developing competence within key officials to provide training in their respective level.

124. The topics for training and capacity building includes:

125. Introduction to social & R&R issues (R&R policies at state/national/international level, social issues pertaining to R&R (participation of women, poverty assessment, anti-poverty programmes, highway related diseases, road safety, transparency, right to information);

126. Land acquisition (Acts, policies, valuation of land, concept of replacement value, /market value, institutional mechanism etc.);

127. Social Impact Assessment and RAP/IPDP/HIV/AIDS Awareness, prevention plan (social screening, census survey, socioeconomic survey, methodology, focus group discussions, institutional survey, free, prior informed consultation, data analysis report preparation);

128. Resettlement Policy Framework (category of PAPs, category of impacts, valuation of assets (land, structure, crops, trees, community assets, etc.), entitlements, women and vulnerable groups, temporary impacts, disruption/damage during construction and respective mitigation measures);

129. RAP/IPDP/HPP implementation (updating PAP database, joint verification of affected structures/land and affected population, preparation of Micro Plan, grievance redress

procedures, conflict resolution packages, assistance and training for income restoration, monitoring and evaluation of social safeguards implementation.

130. The training programs are to be conducted with the help of local, state and national level training institutions and experts in various aspects of social management and safeguard issues. PIU will also identify courses offered by the premier institutions in India on social management and safeguard issues and enable participation of project staff. Towards enhancing the capacity of the R&BD engineers on social safeguards management, R&BD has over the past few years deputed engineers for participation in various safeguards training and capacity building programs.

7.1.8 Coordination with Civil Works and Certification

131. The resettlement program will be co-coordinated with the timing of civil works. The required co-ordination has contractual implications, and will be considered in procurement and bidding schedules, award of contracts, and release of cleared CoI sections to project contractors. The project will provide adequate notification, counseling and assistance to affected persons so that they are able to move or give up their assets without undue hardship before commencement of civil works and after receiving the compensation.

132. Actions to be completed prior to bid and award of contract include: (i) resettlement action plan should be approved by the GoG; (ii) the action plan should be disclosed in the web site and other public places accessible to the local people; (iii) the first notification for private land acquisition should be issued; (iv) the issue of identity cards to eligible PAPs should be completed.

133. The actions to be completed prior to handing over the stretch to the contractor includes: (i) acquisition of private land should be completed and compensation for land and assistance as per entitlement matrix should be disbursed; and (ii) transfer of Government land should be completed or no objection should be obtained from the land owning agency.

7.1.9 Implementation Schedule

134. RAP Implementation Schedule is provided in Table 7.5. This provides the key benchmarks of implementing RAP. The construction tenure of the corridor is 24 months²¹. The on-ground rehabilitation and resettlement exercises and handing over the encumbrance free stretch for civil works will take 5 months and simultaneously, the NGO will carry out awareness programmes on road safety, HIV/AIDS prevention campaign, repeat training for PAPs, facilitate overall monitoring, etc.

²¹ The construction tenure of individual corridors ranges from 18 months to 30 months spread across an overall period of 36 months and accordingly, R&BD has envisaged tenure of 36 months for the RAP implementing NGO.

8. RESETTLEMENT BUDGET

8.1 SUMMARY OF RESETTLEMENT COSTS

135. The cost for various components such as land, structure, compensation for other assets within affected property, resettlement and rehabilitation assistance, has been estimated. The estimated total budget for the implementation of RAP is INR. 23.08 million.

Table 8.1: RAP Budget

Sr. No.	Category	Amount (INR)
1	Compensation for Land	9,817,288
2	Compensation for Structure and community assets	1,516,000
3	Compensation for other assets within affected property (Trees, water tap and water tank, motor pump, barbed wire fencing, hand pump and boundary wall)	3,943,515
4	Compensation for Encroachers	371,880
5	R&R Assistance	6,763,855
6	Sub Total (1+2+3+4)	22,412,538
7	Contingency (@3%)	672,376
8	GRAND TOTAL (Sub Total + Contingency)	23,084,914

8.1.1 Compensation for Land

136. Compensation for land shall be provided to all the titleholders for the loss of their agricultural land. The cost of land has been calculated based on the most recent Jantri Rates (2011) collected from Department of Stamp Duty and Registration, GoG (Table 8.2). Detailed cost estimates along with Jantri rates for respective lands are given in Appendix 8.1. An area of 2.61 ha of government land will be transferred.

8.1.2 Compensation for Structures

137. Compensation for structures shall be provided for the loss of commercial, residential or mixed-use structures. Compensation shall be as per the most recent Schedule of Rates of R&BD. Different unit rates of compensation have been adopted based on the type of construction materials used as stated below:

- Pucca Structures @ INR 13,130 / sq.m;
- Semi-Pucca structures @ INR 12,396 / sq.m;
- Kutcha structures @ INR 5,000 / sq.m;
- Commercial and residential squatter (equivalent to construction cost of low-cost commercial and residential units @ Rs.40,000 and Rs. 45,000 respectively).

8.1.3 Compensation for Other Assets

138. Other assets affected such as 555 trees (private), 2 water taps, 3 water tanks, 8 motor pumps, 25 open/dug wells, 3 hand pumps, 1 barbed-wire fence and 3 boundary walls are located within the affected property will be compensated. The total cost estimated for other assets is INR 3,943,515. The unit rates for respective items are as follows:

- Tree @ INR 5,000;
- Water Tap @ INR 1500
- Water tank @ INR 3,120 /sq. m;
- Motor Pump @ INR 6,300
- Barbed wire fencing @ 500/running meter;

140. An amount of INR 29.6 million is earmarked for cost of trainings, RAP implementing NGO, monitoring and evaluation, awareness programmes on road safety, HIV/AIDS awareness, etc. (Table 8-6 gives detailed resettlement budget for all upgradation corridors to be taken up). Escalation of these components (component 5 to 9 in Table that are likely to span across years) have been considered at an annual inflation rate of 7% based on consumer price index and the escalated amount for Year-I is INR 31.7 million and for Year-II, the amount is INR 33.9 million.

COMMUNITY CONSULTATION – DISCUSSION GUIDE Bayad-Lunawada Corridor

ROADS AND BUILDINGS DEPARTMENT, GOVT. OF GUJARAT PPWCS, GUJARAT STATE HIGHWAY PROJECT-II,

Introduction

- Government of Gujarat has taken up the second Gujarat State Highway Project (GSHP-II), covering upgradation, maintenance and improvement of identified core road network for loan appraisal with the World Bank. Roads and Building Department (R&BD), the responsible body for managing the project, has retained M/s LEA Associates South Asia Pvt. Ltd. (LASA) as Project Preparatory Works Consultants to prepare pertinent plans on widening and upgradation of highways.
- As a pre-requisite towards loan appraisal with the World Bank, R&BD has selected ten corridors at this stage, aggregating to 394 km length for detailed project report. This includes widening and upgradation of Bayad-Lunawada corridor.
- The total corridor length is 44.8 km. The project corridor Bayad-Lunawada has four sections starting from Bayad on SH-69 at km to 18+250. It continues at SH-63 towards North West for about 0.6 kms before joining Village Road (VR)/Major District Road (MDR) which is about 11.8 kms. It again joins back SH-63 at km 14+200 which ends at Lunawada at Km 00+000 (Reverse Chainage). CoI along the corridor varies from 13m 16m.
- Consultation intends to disseminate the information regarding the proposed development as well as to know the opinion of the people regarding resettlement issues, road safety measures and potential impacts of the project.

Discussion Points – General

- Awareness and Opinion about the project
- Road safety issues along the corridor [road accidents/avoidance/suggestions etc. – specific cases of accidents taking place in particular locations – reasons for such accidents – increase/decrease in accidents]

Discussion Points for Commercial / industrial Category

- Extent of impact [in terms of loss of property – loss of livelihood – any improvement in business expected due to the project, etc.]
- Will you be able to continue your business in the same location – if relocating to another place, implications on rent, business etc. - how much time required to relocate the structure or restore the affected business/livelihood
- Tenants – usual notice period from land/building owners
- Opinion regarding compensation and assistance for affected properties
- Opinion about Rehabilitation and Resettlement for fully affected structures or if livelihood affected

COMMUNITY CONSULTATION – DISCUSSION GUIDE

Bayada-Lunawada Corridor

Discussion Points – for Residential Category

- Extent of impact [in terms of loss of land – loss of structure – loss of other assets, etc.]
- Will you be able to live in the same building – if you are relocating to another location, what would be the implications
- Tenants – usual notice period from land/building owners
- Opinion regarding compensation and assistance
- Opinion about Rehabilitation and Resettlement for fully affected structures or if livelihood affected

Discussion Points – Religious Structures / Common Property Resources

- Extent of impact [in terms of loss of land – loss of structure – loss of other assets, etc.]
- Age of the structure – important festivals/events of pilgrim/tourist attraction - period of such celebrations – pilgrim/tourist population
- Relocation of religious properties / common property resources – Involvement of Panchayats – Any community based organizations

Discussion Points – Agriculture Land

- Extent of impact [in terms of loss of land – loss of agriculture crops – loss of other assets, etc., any improvement in agriculture production or development in terms of marketing expected due to the project]
- Type of crops cultivated in a year [average farm-gate price of various crops cultivated, marketing centers, area of cultivation]
- Details regarding cropping pattern [number of crops in a year, any share-cropping pattern, usual arrangement of share-cropping or contract farming]
- Dependence on Bore-wells or other irrigation facilities [arrangement for bore-well or other irrigation facilities] – Cost of Bore-well or other irrigation facilities – cost sharing pattern.

APPENDIX 7.1

Implementation of Resettlement Action Plan

Terms of Reference for Non-Government Organizations

I. BACKGROUND OF THE PROJECT

The Government of Gujarat (GoG), through the Roads and Buildings Department (R&BD), has taken up the second Gujarat State Highway Project (GSHP-II), covering up-gradation, maintenance and improvement of identified core road network in the state. The GoG has proposed to take up this project with financial assistance from the World Bank. The improvements of 1577 km in the project includes: (i) upgradation corridors for a length of 983 km, involving the strengthening and upgrading of single/intermediate lane roads to standard 2-lane/ 2-lane-with-paved-shoulders / 4-lanes, and (ii) major maintenance, of the remaining 594 km. In line with the prioritization exercise, R&BD has selected ten corridors, aggregating to about 463 km in length, as projects to be taken up for implementation in the first phase of the project.

Keeping in view the adverse impact the project will have on the people due to the implementation of the project, the Project Implementing Unit (PIU) of R&BD will appropriately resettle and rehabilitate the project affected persons (PAPs)/ project affected families (PAFs) in accordance with the Resettlement Action Plan (RAP) proposed for the purpose. For the implementation of the RAP, the PIU will appoint local NGO having experience in carrying out such activities. The recruited NGO shall associate with the Environmental and Social Management Unit (EMU, SMU) of PIU to implement the RAP.

II. TASKS

The NGO shall be responsible for the implementation of the RAP that includes mitigating the adverse effects of the project. The NGO shall facilitate the land acquisition process on behalf of **R&BD**. In addition, remain responsible for the development of a comprehensive livelihood system to facilitate the PAPs to take advantages of the options available as per the RAP.

Dissemination of Information: Key task is to provide full information to the PAPs on the R&R policy, provisions, approach to land acquisition and R&R, time frame for implementation, roles and responsibilities of implementing agency and grievance redress mechanism.

III. TASKS

NGO shall assist R&BD in all aspect of implementation of Tribal development plan proposed to be implemented under this project

Consultation

The NGO shall educate the PAPs on their rights, entitlements and obligations under the RAP. It shall disseminate information to the PAPs on the possible consequences of the project on the communities' livelihood systems and the options available, so that they do not remain ignorant. It shall explain to the PAPs the need for land acquisition, the provisions of the policy and the entitlements under the RAP. This shall include communication to the roadside squatters and encroachers about the need for their eviction, the timeframe for their removal and their entitlements as per the RAP.

Land Acquisition

The NGO will facilitate PAP in land acquisition process up to receipt of compensation cheques in consultation with R&BD.

NGO will support land losers to complete the required documents to access compensation cheques.

NGOs will facilitate disbursement of compensation cheques.

Verification

The NGO shall undertake joint verification with the Field Offices of R&BD of the project affected persons to identify PAF eligible as per the cut-off date for R&R entitlement and shall update the database accordingly. The NGO shall verify the information already contained in the RAP and the individual losses of PAPs and validate the same and suggest suitable changes if required.

During the identification and verification of the eligible PAPs and PAFs, the NGO shall ensure that each of them are contacted and consulted. The NGO shall conduct consultation with the women including women headed households.

Verification exercise shall include actual measurement of the extent of total property loss/damage, and valuation of the same. Prepare & put up updated data base on individual losses required for preparation of micro-plans before EMU / SMU PIU. After getting approval of the same from EMU / SMU PIU, The NGO shall display the list of eligible PAFs in the affected villages for PAF's to verify. The PAFs will be provided 15 days time period to verify the list. This process will enable eligible PAFs to be included in the list. NGOs will accordingly update and finalize the list, if required in consultation with EMU / SMU PIU.

The NGO will identify and verify the community assets that are likely to be affected by the project.

The NGO will identify PAFs and/or community asset coming within the Right of Way(RoW) / Corridor of Impact (CoI) after the cut-off date, and notify the same to the field office of R&BD and shall remove such properties or community structure from the RoW, through appropriate consultation and shall inform them that any project benefits do not apply to them.

Distribution of Identity Cards

After finalization of verification the NGO shall distribute Identity Cards to all PAPs. The identity card should include a photograph of the head of the PAF, the extent of loss, and entitlement i.e. Compensation and assistance, as applicable. The Identity Cards are to be signed by the responsible person at respective Field Offices of R&BD and counter signed by the R&R Specialist of Social management Unit.

Prepare Micro Plan:

The NGO shall prepare Micro Plans that details out category of PAF, asset lost, compensation and all types of assistance, alternate livelihood options; details of resettlement, specific training requirement for skill up gradation and institutions responsible for training. A separate plan has to be prepared for shifting of community assets.

Training and Support for income restoration

In addition to providing assistance given in the entitlement package, the NGO shall be responsible for training and assistance of PAPs in establishing linkages with government programs.

The NGO shall train PAPs losing their livelihood for suitable income restoration programs, depending on the skills and interest of the PAPs. The NGO shall prepare individual Income Restoration Plan, as a part of the Micro Plan. The NGO shall assist the PAPs to establish linkages with Government departments, district administration, etc., and ensure that the PAPs are included in the development schemes, as applicable especially with reference to vulnerable groups, in pension schemes for senior citizens, widow pensions, schemes for women or women headed households, schemes for handicapped persons etc. NGO shall coordinate with the following training institutes as identified in the RAP.
