#### B. Project Development Objective(s)

To strengthen capacity of DMF-eligible countries to manage debts effectively, so as to enable governments to finance their operations prudently with appropriate cost-risk mix to contribute to macro-economic stability and ensure sustainable debt levels over the long term.

#### C. Project Description

The program builds on the activities and guiding principles DMF Program. This project envisages provision of grants to CEMLA (Public Debt Management Program) to work on the following activities jointly with World Bank teams:

- a) Training of government officials in the application of the Debt Management Performance Assessment (DeMPA) tool at the national and subnational levels. This benchmarks country debt management performance using the Bank's DeMPA tool.
- b) Training of government officials in Debt Sustainability Assessments.
- b) Design of Debt Management Reform Plans. This provides detailed and sequenced country-owned capacity building project plans that aim to alleviate the weaknesses identified and analyzed by the DeMPA or through other assessments. These plans detail expected outputs and outcomes, actions, sequencing and milestones and provide an estimate of budget and resources required to implement the respective plans.
- c) Assistance in developing Medium-Term Debt Management Strategy (MTDS) development. This

provides technical assistance (TA) on the joint Bank-IMF MTDS framework for formulating and implementing a debt management strategy for the medium term.

- d) Assistance in domestic debt market development.
- e) Organization of regional training events

While carrying out these activities, the recipient may be asked to carry out the following tasks as determined within the scope of the specific mission or training program.

- (a) providing country background information on the debt management situation in eligible member countries before specific missions, including information on fiscal policy, monetary policy and legal framework related to debt management, as well as related technical assistance programs if available;
- (b) drafting summaries of country strengths and weaknesses with respect to debt management, based on the above-identified background information before particular missions;
- (c) participating in pre-mission activities, which will entail data aggregation, teaching useful functions and decrying the cost-risk of the existing debt portfolio for MTDS missions and trainings;
- (d) preparing sections of the write-up of the report during specific missions;
- (e) providing inputs on appropriate sections for wrap-up presentations during specific missions;
- (f) incorporating peer review comments in the report and providing additional information after missions; and
- (g) participating in training events related to the DMF's work program.Â
