<sup>1</sup> These contracts were originally financed by the counterpart fund, thus procurement process follow the Public Procurement regulations of the Government (NCB procedures). Upon the DOT/PMU's request in October 2014 the Bank mission reviewed the procurement and contractual documents of these packages and considered that the bidding process appeared to be conducted on the key principles of transparency, competitiveness, fairness and efficiency, and that basically the contract provisions were consistent with the Bank's Sample NCB BD, except the missing of two provisions on "Fraud and Corruption" and "Right to Inspect/Audit". On May 15, 2015 the request for project restructuring was sent by SBV to WB. Upon completion of restructuring approval, the draft contract amendments of those 3 contracts shall be submitted to the Bank, incorporating the above two contractual provisions.
