

READ TRUST FUND

10 YEARS

The READ Trust Fund program has provided \$38 million USD for financial and technical support to help countries around the world improve students' learning outcomes through the design, implementation, and use of more effective student assessment systems. The results of this groundbreaking partnership between the Russian Federation and the World Bank are impressive:

At the country level, key stakeholders have significantly increased their capacity to carry out assessments and use assessment data to improve education quality and student learning.

At the global level, the program has produced many high-quality knowledge products and tools.

10

COUNTRIES
enabled to participate in international large-scale assessments (ILSAs)
