Implementation Status and Key Decisions

Project Implementation has accelerated. Lessons learned during the first year of project implementation are being taken into account to further improve project performance. The Project has so far disbursed about US\$ 8.5 million representing 25% percent of the total Grant proceeds.

Component 1 - Direct financial support to MSMEs for investment and working capital. The number of SMEs with approved grant-loan packages increased from 7 to 62 between January 2021 and July 22, 2021 as the result of a stronger PCU team, improved capacity of the Participating Financial Institutions (PFIs) to process loan requests, streamlined application process, and better communication.

Component 2 - Study of financial solutions for disaster resilience to explore instruments, markets, tools, and solutions to improve disaster resilience in Sint Maarten. This component is expected to be launched in the second half of 2021.

Component 3 - Training, Project implementation, and monitoring and evaluation including. A small training program has been recently designed and is expected to contribute to strengthening the capacity of the applicants and the beneficiaries. It is expected to be launched in September 2021.

Date	28-Dec-2018	15-Jan-2021	15-Jun-2021	30-Dec-2024

Comments:	This seeks to measure the outcome for women owned or managed MSME access to the project. The application form for the project will have a field to capture whether the MSME is owned or managed by a woman and this will be captured by the application forms at the NRPB.			
► Volume of grants and loans supported through the project over its lifetime (Amount(USD), Custom)				
	Baseline	Actual (Previous)	Actual (Current)	End Target
Value	0.00	529,937.00	4,200,000.00	33,000,000.00
Date	21-Dec-2018	15-Jan-2021	15-Jun-2021	30-Dec-2024
Comments:	This indicator is the cumulative volume of grants and loans supported through the project for MSMEs. It will be calculated by summing the quarterly disbursements from the NRPB to the PFIs, and will account for any recycled funds issued as loans only. This will be measured at disbursement and will not account for loan reflows and so will be measured at the beginning of each quarter. Any unused working capital facilities will be counted as disbursed.			
► Volume of grants and loans supported through the project to women owned or managed MSMEs over its lifetime (Amount(USD), Custom)				
	Baseline	Actual (Previous)	Actual (Current)	End Target
